# Scared Straight And The Panacea Phenomenon

**Michael Welch**

### **Scared Straight And The Panacea Phenomenon:**

*Scared Straight! and the Panacea Phenomenon* James O. Finckenauer, 1982      *Scared Straight!* James O. Finckenauer, 1999 This study examines why in the face of data that show its ineffectiveness the Scared Straight approach to delinquency prevention continues to be used in some jurisdictions The author's 1982 edition examined and critiqued the Scared Straight project at New Jersey's Rahway State Prison It identified the program as unable to deal with juvenile delinquency associated it with a pattern of failure in other efforts to deal with juvenile delinquency and linked these to a futile but persistent quest for simple remedies or cure-alls This pattern was referred to as the panacea phenomenon This new edition updates the evidence and extends the discussion The panacea phenomenon is identified as a myth having the function of offering simple explanations for complex often otherwise unexplainable issues and problems The original Scared Straight case study is then reviewed and evidence of Scared Straight's performance since 1982 presented A description of Norway's Ullersmo project which operated from 1992 to 1996 and was based on U.S. models is offered as an international example of the panacea phenomenon in action The book concludes that Scared Straight and programs like it survive despite evidence that they do not work because they are harmonious with certain deeply held beliefs about crime punishment and human behavior One such belief that fear of consequences sustains behavioral change is a cornerstone of the Scared Straight program

**Scared Straight Ex and the Panacea Phenomenon** James O. Finckenauer, 1982      **Preventing Crime** Brandon C. Welsh, David P. Farrington, 2007-08-09 Crime prevention should be rational and should be based on the best possible evidence Decision makers should weigh heavily any available evidence on what works best How can a program that has produced no discernable evidence of effectiveness as shown through numerous evaluations be considered for implementation Unfortunately this happens all the time Evidence based crime prevention attempts to overcome this and other obstacles by ensuring that the best available evidence is considered in any decision to implement a program designed to prevent crime This book is about evidence based crime prevention A project of the Campbell Collaboration Crime and Justice Group Preventing Crime brings together the leading scientific evidence on what works best for a wide range of interventions organized around four important domains in criminology at risk children offenders victims and places It is the first book to assess the effectiveness of criminological interventions using the most rigorous review methodology of the systematic review It is an indispensable guide to the leading scientific evidence on what works best to prevent crime

**Medical Experimentation** Charles Fried, 2016-05-02 First published in 1974 Charles Fried's *Medical Experimentation* is a classic statement of the moral relationship between doctor and patient as expressed within the concept of personal care This concept is then tested in the context of medical experimentation and more specifically the randomized controlled trial (RCT) Regularly referred to as a point of departure for ethical and legal discussions of the RCT the book has long been out of print This new second edition includes a general introduction by Franklin Miller and the late Alan Wertheimer a reprint of

the 1974 text and an in depth analysis by Harvard Law School scholars I Glenn Cohen and D James Greiner which discusses the extension of RTCTs to social science and public policy contexts The volume concludes with a new essay by Charles Fried that reflects on the original text and how it applies to the contemporary landscape of medicine and medical experimentation

*Encyclopedia of Adolescence* Roger J.R. Levesque,2011-09-05 The Encyclopedia of Adolescence breaks new ground as an important central resource for the study of adolescence Comprehensive in breath and textbook in depth the Encyclopedia of Adolescence with entries presented in easy to access A to Z format serves as a reference repository of knowledge in the field as well as a frequently updated conduit of new knowledge long before such information trickles down from research to standard textbooks By making full use of Springer s print and online flexibility the Encyclopedia is at the forefront of efforts to advance the field by pushing and creating new boundaries and areas of study that further our understanding of adolescents and their place in society Substantively the Encyclopedia draws from four major areas of research relating to adolescence The first broad area includes research relating to Self Identity and Development in Adolescence This area covers research relating to identity from early adolescence through emerging adulthood basic aspects of development e g biological cognitive social and foundational developmental theories In addition this area focuses on various types of identity gender sexual civic moral political racial spiritual religious and so forth The second broad area centers on Adolescents Social and Personal Relationships This area of research examines the nature and influence of a variety of important relationships including family peer friends sexual and romantic as well as significant nonparental adults The third area examines Adolescents in Social Institutions This area of research centers on the influence and nature of important institutions that serve as the socializing contexts for adolescents These major institutions include schools religious groups justice systems medical fields cultural contexts media legal systems economic structures and youth organizations Adolescent Mental Health constitutes the last major area of research This broad area of research focuses on the wide variety of human thoughts actions and behaviors relating to mental health from psychopathology to thriving Major topic examples include deviance violence crime pathology DSM normalcy risk victimization disabilities flow and positive youth development

**Handbook of Crime Correlates** Lee Ellis,David P. Farrington,Anthony W. Hoskin,2019-06-04 The Handbook of Crime Correlates Second Edition summarizes more than a century of worldwide research on traits and social conditions associated with criminality and antisocial behavior Findings are provided in tabular form enabling readers to determine at a glance the nature of each association Within each table results are listed by country type of crime or other forms of antisocial behavior and whether each variable is positively negatively or insignificantly associated with offending behavior Criminal behavior is broken down according to major categories including violent crime property crime drug offenses sex offenses delinquency and recidivism This book provides a resource for practitioners and academics who are interested in criminal and antisocial behavior It is relevant to the fields of criminology criminal justice sociology and psychology No other publication provides as much

information about how a wide range of variables e.g. gender, religion, personality traits, weapons access, alcohol and drug use, social status, geography, and seasonality correlate with offending behavior. Includes 600 tables regarding variables related to criminal behavior. Consolidates 100 years of academic research on criminal behavior. Findings are identified by country and world regions for easy comparison. Lists criminal related behaviors according to major categories. Identifies universal crime correlates.

Lawful Order Leo Carroll, 2005-09-14 Prisons remain a controversial topic for debate in our society. While few doubt the necessity of their existence, there is considerable debate over their purpose, organization, and processes. Do prisons exist to rehabilitate, punish, or simply incarcerate? How do we judge prison conditions? If those conditions are found to be unacceptable, how do we change them? What are a prisoner's rights? This book charts the history of Rhode Island's Adult Correctional Institutions over the past 40 years. Professor Carroll examines the radical transformation of Rhode Island prisons in response to changes in their external environment and determines that the transformation can be seen to manifest five distinct stages: patriarchy, anarchy, restoration, threat, and consolidation.

Deviant Behaviour Clifton D. Bryant, 2014-09-03 A comprehensive set of readings examining the full range of concerns in the field of deviant behaviour. All the selections are relatively recent and have not appeared in other anthologies.

**Introductory Criminology** Marcus Felson, Mary A. Eckert, 2017-12-04 Introductory Criminology: The Study of Risky Situations takes a unique and intuitive approach to teaching and learning criminology. Avoiding the fragmentation of ideas commonly found in criminology textbooks, Marcus Felson and Mary A. Eckert develop a more practical, readable structure that engages the reader and enhances their understanding of the material. Their descriptive categories simultaneously broad and realistic serve better than the usual philosophical categories such as positivism and classicalism to stimulate students' interest and critical thinking. Short chapters, each broken into 5-7 sections, describe situations in which crime is most likely to happen and explain why they are risky and what society can and cannot do about crime. They create a framework to organize ideas and facts and then link these categories to the leading theories developed by criminologists over the last 100 years. With this narrative to guide them, students remember the material beyond the final exam. This fresh new text was created by two professors to address the main points they encounter in teaching their own criminology courses. Problems solved include reluctant readers' aversion to abstract thinking, fear of theory, and boredom with laundry lists of disconnected ideas. Felson, a leader in criminology theory with a global reputation for innovative thinking, and Eckert, an experienced criminal justice researcher, are uniquely qualified to reframe criminology in a unified arc. By design, they offer abstractions that are useful and not overbearing; their prose is readable and their concepts are easy to comprehend and remember. This new textbook challenges instructors to re-engage with theory and present the essence of criminological thought for adult learners, coaching students to grasp the concept before any label is attached and allowing them to emerge with deeper understanding of what each theory means and offers. Lean with no filler or fluff like stock photos. Introductory Criminology includes the authors' graphics to crystallize and expand

concepts from the text Decade of Nightmares Philip Jenkins, 2006 Drawing on a wide array of sources the author of *Dream Catchers* identifies 1975 to 1986 as the watershed years when Americans rejected the radicalism of the 1960s and adopted a more pessimistic interpretation of human behavior Twenty-one Mental Models That Can Change Policing Renée J. Mitchell, 2021-09-15 This book goes beyond other police leadership books to teach practitioners how to think about policing in a structured way that synthesizes criminological theory statistics research design applied research and what works and what doesn't in policing into Mental Models A Mental Model is a representation of how something works Using a Mental Model framework to simplify complex concepts readers will take away an in depth understanding of how cognitive biases affect our ability to understand and interpret data what empirical research says about effective police interventions how statistical data should be structured for management meetings and how to evaluate interventions for efficiency and effectiveness While evidence based practice is critical to advancing the police profession it is limited in scope and is only part of what is necessary to support sustainable change in policing Policing requires a scientifically based framework to understand and interpret data in a way that minimizes cognitive bias to allow for better responses to complex problems Data and research have advanced so rapidly in the last several decades that it is difficult for even the most ambitious of police leaders to keep pace The Twenty one Mental Models were synthesized to create a framework for any police public or community leader to better understand how cognitive bias contributes to misunderstanding data and gives the reader the tools to overcome those biases to better serve their communities The book is intended for a wide range of audiences including law enforcement and community leaders scholars and policy experts who specialize in policing students of criminal justice organizations and management reporters and journalists individuals who aspire to police careers and citizen consumers of information about policing Anyone who is going to make decisions about their communities based on data has a responsibility to be numerate and this book *Twenty one Mental Models That Can Change Policing A Framework For Using Data and Research For Overcoming Cognitive Bias* will help you become just that **Corrections** Michael Welch, 2013-10-14 Review questions Recommended readings 3 America's Penal Past Introduction Colonial America Methods of punishment William Penn and the Great Law Analyzing punishment in colonial America Prisons in the nation's early years Newgate Prison Connecticut subterranean incarceration and political imprisonment The Walnut Street Jail penal reform and the quest for state power Newgate Prison New York City The Jacksonian era Reconceptualizing crime as a social problem The Pennsylvania and Auburn systems of prison discipline Elam Lynds warden of Auburn and Sing Sing *Correctional Options Incentives Amendments Act* United States. Congress. House. Committee on the Judiciary. Subcommittee on Crime, 1991 *Effective Health Risk Messages* Kim Witte, Gary Meyer, Dennis Martell, 2001-04-12 Winner of the Distinguished Book Award by the Applied Communication Division of the National Communication Association 2001 *Effective Health Risk Messages* provides step by step instructions for developing theoretically based campaigns that work Readers will learn about

message development theories formative and summative evaluation and even basic research designs for evaluating your campaign Worksheets are provided at the end of each chapter to provide readers with hands on practical experiences in developing effective health risk messages This book is suitable for practitioners researchers and students alike and can act as a stand alone text or supplementary text for persuasion public health advertising and marketing classes *Federal Probation*, 2003 *Encyclopedia of Juvenile Justice* Marilyn D. McShane, Frank P Williams III, 2002-12-18 The contributors consistently present complex material with a readable style relatively free of technical jargon Accordingly this outstanding reference work is highly recommended for school and public library collections as well as academic libraries and criminal justice collections REFERENCE USER SERVICES QUARTERLY There is no comparable work Useful for anyone doing research in the field of juvenile justice Highly recommended CHOICE What makes this work truly usable is its wonderful indexing and exceptional bibliographies If juvenile interaction with the judicial system is a research topic at your school this volume is one of the best sources LIBRARY MEDIA CONNECTION From boot camps to truancy the Encyclopedia of Juvenile Justice provides more than 200 up to date concise and readable entries in a single authoritative volume The editors noted authors of several criminal justice books and editors of the award winning Encyclopedia of Prisons cover historical and contemporary theories concepts and real world practices of juvenile justice in the United States The entries address a broad range of issues and topics such as alcohol and drug abuse arson the death penalty for juveniles computer and Internet crime gun violence gangs missing children school violence teen pregnancy and delinquency theories In addition topics cover society's response to the problems of juvenile justice punishments meted out to America's juvenile offenders juvenile rehabilitation programs and well known researchers and professionals in the field Key Features More than 200 articles written by a stellar collection of academic theorists and real world practitioners Complete review of the complicated juvenile legal and court system juvenile punishment rehabilitation efforts and legislation Extensive entries on child and adolescent crimes pathologies and problems Coverage of psychological biological and sociological theories of delinquency as well as historic body type theories Addresses such historical topics as the deinstitutionalization movement the Chicago Area Project and the Provo Experiment Profiles historic theorists and policymakers in juvenile justice Includes a special appendix on print and electronic resources on juvenile justice Comprehensive index including a reader's guide that facilitates browsing and offers easy access to information Recommended Libraries Public academic school law legal special and private corporate *Correctional Administration and Change Management* Martha Henderson Hurley, Dena Hanley, 2010-06-02 Change is an inevitable part of any correctional institution as new trends and initiatives constantly bombard the system However as budgetary constraints increasingly require correctional agencies to do more with less a paradigm shift in the way they operate is imperative to ensure success *Correctional Administration and Change Management* exam *Juvenile Crime and Justice* William J. Chambliss, 2011-05-03 The authors of the 20 chapters in *Juvenile Crime and Justice* address various hotly debated topics

along three loosely connected themes prevention prosecution and corrections Each author presents arguments both in favor of and opposed to various treatments programs and punishments examining issues such as youth curfews juveniles in adult courts legal representation for juveniles juvenile boot camps group homes out of home placement and more The chapters included cover the leading arguments pertaining to key topics in this field and point out where more research needs to be done which at present includes many of the most controversial issues in juvenile justice policy The Series The five brief issues based books in SAGE Reference s Key Issues in Crime Punishment Series offer examinations of controversial programs practices problems or issues from varied perspectives Volumes correspond to the five central subfields in the Criminal Justice curriculum Crime Criminal Behavior Policing The Courts Corrections and Juvenile Justice Each volume consists of approximately 20 chapters offering succinct pro con examinations and Recommended Readings conclude each chapter highlighting different approaches to or perspectives on the issue at hand As a set these volumes provide perfect reference support for students writing position papers in undergraduate courses spanning the Criminal Justice curriculum Each title is approximately 350 pages in length

**Crime Control and Women** Susan L. Miller, 1998-02-12 Crime Control and Women reveals the current limitations of criminal justice policies that are oblivious to the impact they exert on citizens who vary by gender race and or social class Feminist in perspective the contributors to this volume share a common vision of hope that social change will result from social control and punishment that is just and human with commitments to prevention education and treatment

## Decoding **Scared Straight And The Panacea Phenomenon**: Revealing the Captivating Potential of Verbal Expression
