Allone,2007-11-28 This is the first thing weve done right with this kid argued Dr Epstein after I challenged his decision to alter my sons course of treatment Just listening to this world renowned pediatric neurosurgeon admit to all the negligent care that hurt James and trapped us in the hospital for months terrified me As Dr Epstein rambled on about finally being on the right track with Jamess care I wondered if Id ever get my son out of this hospital alive This unimaginable nightmare all began in August 1982 when my youngest son James was admitted to New York Cornell Hospital in Manhattan New York He was diagnosed and treated with radiation for a brainstem glioma tumor The doctors told us that James would probably die in less than a year In 1985 James was admitted to NYU Medical Center in Manhattan New York for what the doctors said was a recurrence of his brain disease James was expected to undergo one surgery to remove the tumor and return home in seven to ten days As a result of repeated mistakes by doctors nurses and physical therapists James was forced to undergo eight surgeries including one surgery that was performed without our knowledge or consent Nine months later my son was discharged from NYU Medical Center permanently injured and totally disabled Sixteen years later we discovered that James never had a brainstem tumor **Living Scared** begins as a heart wrenching memoir but quickly develops into a hard hitting expos that probes indifference complacent attitudes reckless behavior incompetence eroding ethics descending standards of practice and widespread corruption in medicine **Medical Negligence Is A National Crisis** Screaming newspaper headlinesdoctor operates on the wrong leg or surgical instrument left inside patient have become a commonplace occurrence

as medical negligence spreads pervasively throughout our nation What once was so shocking to people now hardly raises an eyebrow because allowed behavior has become accepted behavior Sadly we have no one to blame for this atrocity but ourselves because our society has come to accept the avoidable mistakes that occur in all hospitals as human error and thats wrong An estimated 100 000 people die from hospital infections every year Another 100 000 people die from medical negligence Some 1 5 million people a year are injured as a result of medication mistakes Hospitals rarely blame doctors or nurses for the medical mistakes that occur in hospitals More often than not hospital administrators invariably blame the system each time a patient is injured or killed as a result of a medical mistake Disciplinary action against the doctor or nurse involved is rarely executed An example of this Chief Executive Sam Odle of Methodist Hospital in Indianapolis said Whenever something like this happens regarding a medication mix up that killed three infants on September 23 2006 it is not an individual responsibility its an institutional responsibility The truth is human negligence is often responsible for a majority of the mistakes that occur in hospitals but hospital administrators will never admit to this fact Instead they shrewdly manipulate the public and minimize public outrage by blaming the system each time a patient dies as a result of medical negligence This strategy works very well because the system is intangible and people dont seem to get as fired up when the system fails as opposed to a living breathing human who failed to do their job and was responsible for the death of a patient This nationwide crisis approaching epidemic proportions has prompted the U S government to issue a warning to all hospitals to clean up their act after a national survey showed that 47 percent of Americans were directly affected or knew of someone af

Me again: starting over STEFANIA SALERNO, 2023-07-18 A country music romance set in Nashville, Tennessee that sees the protagonist a country singer and a young fan lose their memories after a terrible accident. For that very reason they come together on a painful path with romantic moments, clashes, and encounters on the way to discover their real selves. All it takes is a minute to change a life forever. Madison, the carefree daughter of major international CEO Ted Parker, knows this well. For Maddy, there is only amusement and fashion to be had, to say nothing of a certain fixation on Chris Levi, a country singer who's been on the crest of a wave these past few years and whose popularity doesn't seem destined to fade. He's young, outrageously sexy, and now world famous. After a terrible accident, the existence of both these people will be turned upside down, and they'll fall together into an abyss which it will be difficult to get out of. Devastated by the accident, Chris becomes the shadow of his former self by taking refuge in his heavily guarded ranch on the outskirts of Nashville. His fans are going mad over his return. Not far away, a newly twenty-year-old Madison tries to survive by starting from nothing. Two worlds that are poles apart, two lives that in no way resemble each other. Nothing in common that is except for the endless love she has for him. They'll be forced to share the same path. He won't be able to stand her and will try to escape, but the sense of guilt will destroy him. She will fight this hatred as best she can, even as far as fleeing from her memories. When Chris drowns in sorrow, he will understand the key to get back on track, and to come out of the abyss lies right in front of him; he only has one chance to save her and himself. Not falling in love with her. Then, when Madison sees him for the first time, will Chris be good enough as to not drag her away with him down the primrose path, even if it was for the right reasons.
