Scattering The Ashes:

When a Loved One Dies K. D. Pryor, 2011 Brittany France Near the coast A picturesque inn Spectacular scenery Tasty French treats Time off from school Tallis Challinor imagines this as the perfect vacation scenario so when her grandfather suggests that she accompany him to the country of her ancestors she is more than happy to tag along What Tallis doesn't bargain on is another ghostly encounter especially not so soon after she's sealed up a bunch of unruly ghosts on their side of the portal between the human and spirit realms But when she feels the energy radiating from the megalithic standing stones dotting the countryside around Carnac France an energy that feels frighteningly like the power exuding from the portal in her basement back home she has a feeling she might be in trouble And she is right When her grandfather goes missing Tallis leaps into action She calls the only ghostbuster she knows in France and with help on the way she gears up to battle another set of spirits bent on causing destruction Along the way Tallis is forced to examine her life her relationships and her tightly held beliefs about who she is and where she comes from She also has to juggle two impossible males both attractive but annoying both seemingly set on driving her nuts or breaking her heart *Invisible Population* Natacha Aveline-Dubach, 2012-05-11 The issue of population ageing in East Asia has been extensively studied but we remain in the dark as to the fate of the region's growing dead population particularly in the largest metropolitan areas where there is bitter competition for space among the various human activities From private cemetery developers to undertakers not to mention a vast array of sub contractors death is discreetly helping a multitude of industry players to prosper The result has been the transformation of funeral services into a fully fledged industry that is rapidly expanding and adapting to the needs of urban societies with their extreme lack of space In the specific context of East Asian megacities funeral rituals and practices are evolving rapidly in an attempt to conform to spatial constraints and address emerging challenges such as urban sustainability and growing social inequalities Research dealing with death in East Asia has so far focused on symbolic and religious issues ignoring the social economic and spatial dimensions that have become crucial in a context of rapid urbanization This book aims to remedy this situation while highlighting for the first time the shared characteristics of funerary issues across Japan Korea and China The Buddhist Dead Bryan J. Cuevas, Jacqueline Ilyse Stone, 2007-01-01 In its teachings practices and institutions Buddhism in its varied Asian forms is centrally concerned with death and the dead This title offers a comparative investigation of this topic across the major Buddhist cultures of India Sri Lanka China Japan Tibet and Burma *After We Die* Norman L. Cantor, 2010-11-11 What will become of our earthly remains What happens to our bodies during and after the various forms of cadaver disposal available Who controls the fate of human remains What legal and moral constraints apply Legal scholar Norman Cantor provides a graphic informative and entertaining exploration of these questions *After We Die* chronicles not only a corpse's physical state but also its legal and moral status including what rights if any the corpse possesses In a claim sure to be controversial Cantor argues that a corpse maintains a quasi human status granting it certain

protected rights both legal and moral One of a corpse s purported rights is to have its predecessor s disposal choices upheld After We Die reviews unconventional ways in which a person can extend a personal legacy via their corpse s role in medical education scientific research or tissue transplantation This underlines the importance of leaving instructions directing post mortem disposal Another cadaveric right is to be treated with respect and dignity After We Die outlines the limits that post mortem human dignity poses upon disposal options particularly the use of a cadaver or its parts in educational or artistic displays Contemporary illustrations of these complex issues abound In 2007 the well publicized death of Anna Nicole Smith highlighted the passions and disputes surrounding the handling of human remains Similarly following the 2003 death of baseball great Ted Williams the family in fighting and legal proceedings surrounding the corpse s proposed cryogenic disposal also raised contentious questions about the physical legal and ethical issues that emerge after we die In the tradition of Sherwin Nuland s How We Die Cantor carefully and sensitively addresses the post mortem handling of human remains

Tracing ancient and classical cremation sites, historical and contemporary cremation processes and procedures of both scientific and legal kind, the encyclopedia also includes sections on specific cremation rituals, architecture, art, and text. Features in the volume include a general introduction and editorial introductions to sub-sections by Douglas Davies, an international specialist in death studies; appendices of world cremation statistics and a chronology of cremation; cross-referencing pathways through the entries via the index; individual entry bibliographies; and illustrations. This major international reference work is also an essential source book for students on the growing number of death studies courses and wider studies in religion, anthropology, or sociology.

Seeds of Sin Yvonne A. Hendrickson, 2005-11-29. Visitors to this link *Seeds of Sin* produce bad fruit filled with secrets. Secrets have a way of finding their way to the surface. Post World War II finds a farming family in the Yakima Valley of Washington State becoming aware secrets cannot be held in check. Walter Mason has never-ending problems of weather, Mexican migrant workers, the impending death of his wife, and after 18 years, long-held secrets have risen to the surface. Secrets he thought would always be just that: secrets. Like ripples of a wheat field in the wind, one secret opens another. Secrets of adultery and adoption lead to suicide, murder, and more. The ripple spreads wide, becoming a wave that rocks residents of the peaceful farming valley. Eat the apple that falls in your garden; do not try to learn where it came from, and you will be content. In the brief time this book has been available, readers are already asking for the sequel. It has proven to be a page-turner with readers interested in more stories about the characters. Yvonne has started on the sequel.

Cremation in America Fred Rosen, 2010-10-05. In this captivating review of the history, the practice, and the industry of cremation in America, award-winning former New York Times columnist Fred Rosen provides an authoritative source of information and many revealing facts about an increasingly common yet still controversial alternative to burial. Rosen gives an entertaining first-person account of his inquiry into the practice of cremation and its roots. He describes the early ancient custom of cremation by funeral pyre and then explores why the rising Church banned the practice as a sacrilege. He then traces the underpinnings of the modern cremation movement in the late 19th century among a colorful group of intellectuals and physicians. This 19th-century group endorsed this then-illegal practice as a means to improve public health as a way to prevent seepage of burial grounds from polluting ground water and spreading disease. Rosen goes on to examine in today's world people's feelings about death and religion as well as their sensitivities to cremation. Given certain abuses, he believes that this industry needs to be regulated. However, he finds much in favor of cremation when firsthand comparing its costs vs the excesses and extravagances of the burial funeral industry. In an age when over 25 percent of the population is turning to cremation as a preferred funeral arrangement, this book offers much timely, useful, and engrossing information.

Living with the Dead Laura King, 2025-01-29 This is an open access title available under the terms of a CC BY-NC-ND 4.0 International licence. It is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations. The dead are everywhere in family life. From a great grandmother's recipe made time and again to a dog-eared black and white photo of a family on a beach and from a carefully curated family bible to a much-told story of a family fleeing their home many decades ago, families are made by their pasts. This book examines the relationship between the living and the dead within family life, charting the way families create afterlives for their ancestors. It asks who and what gets to be remembered and why. Considering different points of connection with the dead in each chapter through graves, homes, things, photos, writing, research and stories, this book demonstrates how death and the dead remain a crucial presence within family life. Through an innovative methodology of collaborative critical family history, *Living with the Dead* features interviews, personal archives and the results of a collaboration with fifteen family historians, including the author's own family. What results is a unique way of exploring family pasts, of charting not only how families have remembered their dead and passed on their histories over time but the mechanisms of how histories are constructed and shared. *Living with the Dead* reveals how crucial the dead and stories of them are within families and provides new ways for historians to unpick the way history is intimately made. *Jaiminīya Brāhmaṇa I*, 1-65

Bodewitz, 2023-07-17 Death Mario Erasmo, 2021-03-25 Personal and yet utterly universal, inevitable and yet unknowable, death has been a dominant theme in all cultures since earliest times. Different societies address death and the act of dying in culturally diverse ways, yet remarkably across the span of several millennia we can recognize in the customs of ancient Greece and Rome ceremonies and rituals that have enduring present-day resonance. For example, preparing the corpse of the deceased, holding a memorial service, the practice of cremation and of burial in resting places are all liminal processes that can trace their origin to ancient practices. Such rites described by Cicero and Herodotus among others have defined traditional modern funerals. Yet of late there has been a shift away from classical ritual and sombre memorialization as the dead are transformed into spectacles. Ad hoc roadside shrines, virtual burials online, guest books and even jazz memorial processions and firework displays have come to the fore as new modes of marking even celebrating bereavement. What is

causing this change and how do urbanisation economic factors and the rise of individualism play a part Mario Erasmo creatively explores the nexus between classical and contemporary approaches to dying death and interment From theme funerals in St Louis to Etruscan sarcophagi he offers a rich and insightful discussion of finitude across the ages *Jaiminiya Brāhmaṇa I*, 1-65 H.
