The previous volume can be found here: *Energy, Economy, and Climate Interactions: Challenges and Opportunities*. Climate change is one of the biggest risks to global development and it poses a severe threat to the economic and social development of all countries, which has originated largely from the greenhouse gas emissions related to energy use. This, coupled with the worldwide economic downturn caused by the COVID-19 pandemic and global energy supply shortage resulting from international instability, highlights the necessity and urgency of the collaborative promotion of addressing climate change, energy security, and economic growth issues. Green and low-carbon transformation of global energy is the key to mitigating climate change, guaranteeing energy security, and promoting economic recovery. This Research Topic aims to address advances in systematic studies on climate, energy, and socio-economic development issues based on theories and methods of multiple disciplines, including Economics, Management Science, Natural Science, and Engineering Technology. Authors are encouraged to adopt self-developed or mature models such as integrated assessment models, energy optimization models, input-output models, air quality models, or climate models. We are particularly interested in applied studies that provide insightful information to facilitate reducing pollution and carbon emission actions related to energy utilization and other behavior changes to mitigate and adapt to climate change, preserve the ecological environment, and promote sustainable socio-economic development. **Internet Posting of Chemical "Worst Case" Scenarios:...** Michael Bilirakis, 2001-07 Witnesses: Robert Blitzer, Center for Counterterrorism Technology and Analysis; SAIC; Brett Burdick, Dept of Emerg Services, State of VA; Arthur Burk, Sr, DuPont Co; rep the Chem Mfrs Assoc; Robert Burnham, Domestic Terrorism, FBI; John Eversole, Chief Fire Officer, Haz Materials Div, City of Chicago Fire Dept; Timothy Fields, Jr, Off of Solid Waste and Emerg Response, EPA; Timothy Gablehouse, Jefferson County Local Emergency Planning Comm; Paula Little, Pace Workers Internat Union; James Monihan, Lewes Fire Dept and Nat Volunteer Fire Council; Paul Orum, Working Group on Community Right To Know; and Jerry Scannell, Nat Safety Council.
