Scenarios For Technical Communication Critical Thinking And Writing:

Scenarios for Technical Communication Teresa C. Kynell, Wendy Krieg Stone, 1999 In today's fast paced work environment where e mail fax machines and FedEx have transformed the way people communicate the ability to write succinctly and effectively on the job can mean the difference between gaining or losing business Based on the belief that real world simulations of workplace writing situations provide the best opportunities for improvement this book invites readers to consider actual relationships situations and the intangible elements that affect workplace writing The tips and techniques offered in this book help readers develop critical thinking abilities in conjunction with occasions to practice realistic workplace writing Individual scenarios of various lengths and levels of complexity provide abundant opportunities for readers to practice technical writing forms and learn about important principles Technical writers business people writers and workers training for such positions Resources in Technical Communication Cynthia Selfe, 2017-03-02 Provides the instructors of

introductory technical communication courses with a set of resources for their classrooms **Motives for Metaphor in Scientific and Technical Communication** Timothy Giles, Charles Sides, 2017-03-02 Examination of the work of scientific icons Newton Descartes and others reveals the metaphors and analogies that directed their research and explain their discoveries Today scientists tend to balk at the idea of their writing as rhetorical much less metaphorical How did this schism over metaphor occur in the scientific community To establish that scientists should use metaphors to explain science to the public and need to be conscious of how metaphor can be useful to their research this book examines the controversy over cloning and the lack of a metaphor to explain it to a public fearful of science's power The disjunction between metaphor and science is traced to the dispensation of the Solar System Analogy in favor of a mathematical model Arguing that mathematics is metaphorical the author supports the idea of all language as metaphorical unlike many rhetoricians and philosophers of science who have proclaimed all language as metaphorical but have allowed a distinction between a metaphorical use of language and a literal use For technical communication pedagogy the implications of this study suggest foregrounding metaphor in textbooks and in the classroom Though many technical communication textbooks recommend metaphor as a rhetorical strategy some advise avoiding it and those that recommend it usually do so in a paragraph or two with little direction for students on how to recognize metaphors or to how use them This book provides the impetus for a change in the pedagogical approach to metaphor as a rhetorical tool with epistemological significance **Posthuman Praxis in**

Pickering, 2024-02-15 Based on a qualitative ethnographic observational case study approach Environmental Preservation and the Grey Cliffs Conflict presents an analysis of the conflict negotiation between the U S Army Corps of Engineers and a local community that struggled to address a deteriorating Corps managed recreational lake area in Tennessee known as Grey Cliffs Viewing the dispute from the perspective of a new member of the community and a specialist

in technical communication and professional writing Kristin Pickering provides a unique perspective on this communication process Though environmental degradation and unauthorized use threatened the Grey Cliffs recreational lake area to the point that the Corps considered closure community members valued it highly and wanted to keep it open The community near this damaged and crime ridden area needed help rejuvenating its landscape and image but the Corps and community were sharply divided on how to maintain this beloved geographic space because of the stakeholders different cultural backgrounds and values as well as the narratives used to discuss them By co constructing and aligning narratives values and ethos over time a difficult and lengthy process the Corps and community succeeded and Grey Cliffs remains open to all Focusing on field notes participant interviews and analysis of various texts created throughout the conflict Pickering applies rhetorical analysis and a grounded theory approach to regulation identity sustainability and community values to analyze this communication process Illustrating the positive change that can occur when governmental organizations and rural communities work together to construct shared values and engage in a rhetoric of relationship that preserves the environment Environmental Preservation and the Grey Cliffs Conflict provides key recommendations for resolving environmental conflicts within local communities especially for those working in technical and professional communication organizational communication environmental science and public policy **American Book Publishing Record** ,2005
