Scenes From Vicarage Life:

Scenes from Vicarage Life, Or, the Joy of Sexagesima Catherine Fox, 2001 Scenes from Vicarage Life Catherine Fox, 2001-01 This volume is based upon Catherine Fox's weekly column in the Church of England Newspaper. It features the bizarre and moving incidents which befall a vicar and his family *Scenes of Clerical Life* George Eliot, 1858 **Changing Scenes** Pirjo Lyytikäinen, 2003-12-18 Six articles in *Changing scenes* represent the ongoing reassessment of fin de siècle literature in Finnish research. The period was seen in earlier research as something of a national renaissance or golden age and interpreted in the light of its national symbols and meanings. Only recently has more attention been paid to its international dimensions and its role in the modernisation of Finnish culture. In particular, the spotlight has been trained on the reflection in Finnish literature of manifestations of the degeneration thinking so common in Europe at that time. Research has also picked out works and writers that featured less in earlier studies. One modernist Finnish poet, Neustadt Prize winning Paavo Haavikko, is also examined in an article representing the latest Finnish research in this field *Scenes of clerical life, and Silas Marner* George Eliot, 1903 **Crime Scenes**, 2021-11-01 The essays in this collection are based on papers given at a conference on detective fiction in European culture held at the University of Exeter in September 1997. The range of topics covered is designed to show not only the presence and variety of narratives of detection across different European countries and their different media, although there is a predictable emphasis on the novel. It also illustrates the fertility of the genre, its openness to a spectrum of readings with different emphases, formal as well as thematic. Approaches to detective fiction have often tended to confine themselves to symptomatic interpretation, where details of the fictional world represented are used to diagnose a specific set of social preoccupations and priorities operative at the time of writing. Such approaches can yield valuable insights. Nonetheless, there is a risk of limiting the value of the genre as a whole solely to its role as a mirror held up to society. In this perspective, issues of structure and style are sidelined or, if addressed, are praised to the extent that they approach invisibility: concision, spareness, realism are the qualities singled out for praise. The genre also gives much scope for formal innovation and indeed has often attracted already established mainstream writers and filmmakers for just this reason. The eclectic diversity of the detective narratives considered in this volume reveal the malleability of the traditional constraints of the genre. The essays bear rich testimony to the value of considering the interplay of thematic and structural issues even in the most apparently unselfconscious and popular or populist forms of narrative. The patterns of reassurance, the triumph of intellect and the ordered rational world of old are now challenged by the need to foreground the problems, ambiguities and uncertainties of the self and of society. The plurality of meanings and the antithetical imperatives explored in these detective narratives confirm that the most recent forms of the genre are not mere palimpsests of their golden age precursors. The subversion of traditional expectations and the implementation of diverse stylistic devices take the genre beyond mere homage and pastiche. The role of the reader, spectator and critic in conferring
