Sceptres And Sciences In The Spains:

Sceptres and Sciences in the Spains Ruth Hill, 2000-10-01 Sceptres and Sciences argues convincingly that previous research on the Hispanic Late Baroque has underweighted the ideologies of ethnicity and empire embedded in Cartesianism and French neoclassicism

The Science of the Soul in Colonial New England Sarah Rivett, 2012-12-01 The Science of the Soul challenges long standing notions of Puritan provincialism as antithetical to the Enlightenment Sarah Rivett demonstrates that instead empiricism and natural philosophy combined with Puritanism to transform the scope of religious activity in colonial New England from the 1630s to the Great Awakening of the 1740s In an unprecedented move Puritan ministers from Thomas Shepard and John Eliot to Cotton Mather and Jonathan Edwards studied the human soul using the same systematic methods that philosophers applied to the study of nature In particular they considered the testimonies of tortured adolescent girls at the center of the Salem witch trials Native American converts and dying women as a source of material insight into the divine Conversions and deathbed speeches were thus scrutinized for evidence of grace in a way that bridged the material and the spiritual the visible and the invisible the worldly and the divine In this way the science of the soul was as much a part of seventeenth and eighteenth century natural philosophy as it was part of post Reformation theology Rivett's account restores the unity of religion and science in the early modern world and highlights the role and importance of both to transatlantic circuits of knowledge formation

The autos sacramentales of Sor Juana Inés de la Cruz Alice Brooke, 2018-03-30 Sor Juana Inés de la Cruz 1651-1695 was the most significant literary figure of the colonial period in Spanish America The autos sacramentales or Eucharistic plays are some of her least studied and most perplexing works While one of them El divino Narciso has received substantial scholarly attention the other two El cetro de Jos and El mrtir del Sacramento San Hermenegildo have been critically neglected in Sor Juana studies This study presents a full length analysis of all three plays along with their prologues or the introductory pieces alongside which they were intended to be performed Furthermore the study seeks to place these works in their philosophical and cultural context by exploring their engagement both with orthodox Catholic sacramental theology and the emergence of empiricism and the New Philosophy across the Hispanic world The three sections of this book each present significant new readings of the three plays The study of El divino Narciso employs a previously little known source to illuminate its Christological readings as well as Sor Juana's engagement with notions of wit and conceptism The analysis of El cetro de Jos explores her presentation of different approaches to perception to emphasise the importance of both the material and the transcendent to a holistic understanding of the Sacraments The final section on San Hermenegildo explores the influence on the play of the Christianised Stoicism of Justus Lipsius and demonstrates how Sor Juana used the work to attempt her most ambitious reconciliation of an empirical approach to natural philosophy and the material world with a Neostoic approach to Christian morality and orthodox Catholic sacramental theology

Hierarchy, Commerce and Fraud in Bourbon Spanish America Ruth Hill, 2005 Using El lazarillo de

ciegos caminantes the Guide for Blind Rovers by Alonso Carrio de Lavandera the best known work of the era as a jumping off point for a sprawling discussion of 18th century Spanish America Ruth Hill argues for a richer more nuanced understanding of the relationship between Spain and its western colonies Armed with primary sources including literature maps census data letters and diaries Hill reveals a rich world of intrigue and artifice where identity is surprisingly fluid and always in question More importantly Hill crafts a complex argument for reassessing our understanding of race and class distinctions at the time with enormous implications for how we view conceptions of race and class today *Arts of Perception* Jeremy

Robbins,2013-05-13 *Arts of Perception* offers a new account of a key period in Spanish history and culture and a fundamental reassessment of its major writers and intellectuals including Graci n Quevedo Calder n Saavedra Fajardo L pez de Vega and Sor Juana Reading these figures in the context of European thought and the new science and philosophy the study considers how they developed various arts of perception complex perceptual strategies designed to overcome and exploit epistemic problems to enable an individual to act effectively in the moral political social or religious sphere The study takes as its subject the distinctive epistemological mentality behind such arts of perception This mentality was fostered by the creative interaction of scepticism and Stoicism and found expression in the key concepts *ser parecer* and *enga o desenga o* The work traces the emergence development and impact of these concepts on Spanish thought and culture As well as offering new interpretations of specific major figures *Arts of Perception* offers an interpretation of the mentality of an entire culture as it made the fraught transition to intellectual modernity As such it ranges over numerous discourses and formative contexts and provides a wealth of new material which will be of use to all those seeking to understand and interpret the literature culture and thought of Golden Age Spain This book was previously published as a special issue of *The Bulletin of Spanish Studies*

Sor Juana Inde la Cruz and the Gender Politics of Knowledge in Colonial Mexico Stephanie Kirk,2016-06-23 Each of the book s five chapters evokes a colonial Mexican cultural and intellectual sphere the library anatomy and medicine spirituality classical learning and publishing and printing Using an array of literary texts and historical documents and alongside secondary historical and critical materials the author Stephanie Kirk demonstrates how Sor Juana used her poetry and other works to inscribe herself within the discourses associated with these cultural institutions and discursive spheres and thus challenge the male exclusivity of their precepts and precincts Kirk illustrates how Sor Juana subverted the masculine character of erudition writing herself into an all male community of scholars From there Sor Juana clearly questions the gender politics at play in her exclusion and undermines what seems to be the inextricable link previously forged between masculinity and institutional knowledge Sor Juana In s de la Cruz and the Gender Politics of Knowledge in Colonial Mexico opens up new readings of her texts through the lens of cultural and intellectual history and material culture in order to shed light on the production of knowledge in the seventeenth century colonial Mexican society of which she was both a product and an anomaly **Hearing Voices** Sarah Finley,2019-02-01 *Hearing Voices* takes a fresh look at sound in the poetry and

prose of colonial Latin American poet and nun Sor Juana In s de la Cruz 1648 51 95 A voracious autodidact Sor Juana engaged with early modern music culture in a way that resonates deeply in her writing Despite the privileging of harmony within Sor Juana s work however links between the poet s musical inheritance and subjects such as acoustics cognition writing and visual art have remained unexplored These lacunae have marginalized nonmusical aurality and contributed to the persistence of both ocularcentrism and a corresponding visual dominance in scholarship on Sor Juana and indeed in early modern cultural production in general As in many areas of her work Sor Juana s engagement with acoustical themes restructures gendered discourses and transposes them to a feminine key Hearing Voices focuses on these aural conceits in highlighting the importance of sound and in most cases its relationship with gender in Sor Juana s work and early modern culture Sarah Finley explores attitudes toward women s voices and music making intersections of music rhetoric and painting aurality in Baroque visual art sound and ritual and the connections between optics and acoustics Finley demonstrates how Sor Juana s striking aurality challenges ocularcentric interpretations and problematizes paradigms that pin vision to logos writing and other empirical models that traditionally favor men s voices Sound becomes a vehicle for women s agency and responds to anxiety about the female voice particularly in early modern convent culture

Visions of Empire in Colonial Spanish American Ekphrastic Writing Kathryn M. Mayers, 2012 The process of shaping and asserting cultural identity in viceregal Spanish America occurred as much through the medium of pictures as through the medium of writing Focused on writing that references visual texts ekphrasis Visions of Empire in Colonial Spanish American Ekphrastic Writing examines the way words about pictures in the writing of three Spanish American Creoles Hernando Domínguez Camargo Juan de Espinosa Medrano and Sor Juana In s de la Cruz negotiate the challenges that confronted the American born ruling elite in Spanish America during the contentious transitional period between the Conquest and Independence In Spanish America pictures have long served as a crucial medium for cultural communication In vast rural and urban regions where print culture is not deeply rooted and being cultured is not synonymous with being literate visual texts ranging from pre Hispanic pictographic codices to Baroque architectural surfaces to postmodern painted murals have played an essential role in shaping and asserting

cultural identity During the viceregal era texts that referenced such visual texts proliferated in Latin America particularly among Creole elites who found themselves trapped in an ambiguous political and social position between Spain and America At the level of content Creole ekphrases bear little obvious connection to categories of social privilege On the level of form however these ekphrases engage conventions of representation that reveal the social contingencies of the poetic gaze They refract the visual object through an ideologically charged language that invokes differentials of race class gender sexuality nationality and position within the colonial power structure Visions of Empire brings recent scholarship on visuality and ekphrasis to bear on twenty first century reexaminations of criollismo to explore how cultural productions of the Spanish American Creole elite exercised relations of power mediated social differences and presented symbolic organizations of social space Focusing on the way Creole adaptations of Gongoran ekphrases placed the Creoles in a position of epistemological economic or moral authority over peninsular Spaniards and Amerindian and casta majorities around them this book illustrates how Creole words about pictures propose alternate visions of empire symbolically reordering Spain s empire in the Americas around the figure of the Creole

Deconstructing the Enlightenment in Spanish America

Adam Sharman, 2020-02-13 This book is about Enlightenment culture in Spanish America before Independence in short there where according to Hegel one would least expect to find it It explores the Enlightenment in texts from five cultural fields science history the periodical press law and literature Texts include the journals of the geodesic expedition to Quito philosophical histories of the Americas a year s work from the Mercurio Peruano the writings of Mariano Moreno and Lizardi s El periquillo sarniento Each chapter takes one field one body of writing and one key question Is modern science universal Can one disavow the discourse of progress What is a Catholic Enlightenment Are Enlightenment reason and sovereignty monological Must the individual be the normative subject of modernity The book s premise is that the above texts not only speak to the contradictions of a doubtless marginalised colonial American Illustration but illuminate the constitutive aporias of the so called modern project itself Drawing on the work of Derrida but also on both historical and philosophical accounts of the various Enlightenments this incisive book will be of interest to students of Spanish America and scholars in the fields of postcolonialism and the Enlightenment

The Enlightenment in Iberia and Ibero-America Brian Hamnett, 2017-03-23 This book discusses responses to the challenges faced by two different Iberian imperial systems in their struggle to sustain territorial integrity and economic interests in the face of international competition During a so called period of Enlightened Despotism absolutist governments in Spain and Portugal sought to harness Enlightenment ideas to their policies of reform The Iberian Enlightenment however did not rely exclusively on government sponsorship it had existing foundations in sixteenth century Spanish humanism and subsequent attempts at reform and educated individuals in major cities frequently operated independently of government The Enlightenment contributed greatly to the availability of potential political solutions to the urgent matter of political status in the attempt to transform absolutist governments into constitutional systems and drawing in the process on the structures of medieval foundations contemporary revolutions or less radical constitutional monarchies or a combination of sources more closely aligned with Ibero American realities

Objects of Culture in the Literature of Imperial Spain Mary Barnard, Frederick A. de Armas, 2013-03-14 Collecting and displaying finely crafted objects was a mark of character among the royals and aristocrats in Early Modern Spain it ranked with extravagant hospitality as a sign of nobility and with virtue as a token of princely power *Objects of Culture in the Literature of Imperial Spain* explores how the writers of the period shared the same impulse to collect arrange and display objects though in imagined settings as literary artefacts These essays examine a variety of cultural objects described or alluded to in books from the Golden Age of Spanish literature including clothing paintings tapestries playing cards monuments materials of war and even enchanted bronze heads The contributors emphasize how literature preserved and transformed objects to endow them with new meaning for aesthetic social religious and political purposes whether to perpetuate certain habits of thought and belief or to challenge accepted social and moral norms

Masculine Virtue in Early Modern Spain Shifra Armon, 2016-03-03 *Masculine Virtue in Early Modern Spain* extricates the history of masculinity in early modern Spain from the narrative of Spain s fall from imperial power after 1640 This book culls genres as diverse as emblem books poetry drama courtesy treatises and prose fiction to restore the inception of courtiership at the Spanish Hapsburg court to the history of masculinity Refuting the current conception that Spain s political decline precipitated a crisis of masculinity *Masculine Virtue* maps changes in figurations of normative masculine conduct from 1500 to 1700 As Spain assumed the role of Europe s first modern centralized empire codes of masculine conduct changed to meet the demands of global rule Viewed chronologically Shifra Armon shows Spanish conduct literature to reveal three axes of transformation The ideal subject gendered male in both practice and law became progressively more adaptable to changing circumstances more intensely involved in currying his

own public image and more desirous of achieving renown By bringing recent advances in gender theory to bear on normative rather than non normative masculinities of early modern Spain Armon is able to foreground the emergence of energizing new models of masculine virtue that continue to resonate today
