Roman

A close-up photograph of a hand holding a large, clear, faceted diamond. The diamond is held between the thumb and index finger, with its facets catching the light and creating bright starburst reflections. In the background, a red gemstone is visible, partially obscured by the hand and the diamond. The overall image has a warm, reddish-brown tint.

Literary Series in the Federal Republic of Germany from 1960 to 1980 Mark W. Rectanus, 1984 **Isis on the Nile. Egyptian Gods in Hellenistic and Roman Egypt**, 2010-12-17 The diffusion of the cults of Isis is recently again intensively studied Research on this fascinating phenomenon has traditionally been characterised by its focus on Egypt while developments in Hellenistic and Roman Egypt itself were often seen as belonging to a different domain This volume tries to overcome that unhealthy dichotomy by studying the cults of Isis in Hellenistic and Roman Egypt itself in relation to developments in the Mediterranean at large The book not only presents an overview of the most important deities often based on new or unpublished material but also pays ample attention to the cultural processes behind Isis on Nile like relations between style and identity religious choice social and cultural memory and Egypt's view of its own past The Publishers Weekly, 1977 *Who's who in Literature: T-Z.
