**The First World War** Manfred Rauchensteiner, 2014-07-24 The well respected historian Manfred Rauchensteiner analyses the outbreak of World War I Emperor Franz Joseph's role in the conflict and how the various nationalities of the Habsburg Monarchy reacted to the disintegration of this 640 yearold empire in 1918 After Archduke Franz Ferdinands assassination in Sarajevo in 1914 war was inevitable Emperor Franz Joseph intended it and everyone in Vienna expected it How the war began and how Austria Hungary managed to avoid capitulation only weeks later with the help of German troops reads like a thriller Manfred Rauchensteiners book is based on decades of research and is a fascinating read to the very end even though the final outcome the collapse of the Austro Hungarian Dual Monarchy is already known Originally published in German in 2013 by Bhlau this standard work is now available in English *D. **Hezekiah and the Compositional History of the Book of Kings** Benjamin D. Thomas, 2014-07-29 This study explores one of the oldest and most central issues of the Hebrew Bible the compositional history of 1 2 Kings Its approach does not proceed from the assumption prevalent since the time of de Wette namely that the origins of 1 2 Kings should be explained through a process of Deuteronomistic literary redaction rooted in the Josianic reform Rather this study reads 1 2 Kings through the lens of

other texts with similar genres existing in its historical context More precisely the texts under question belong to the genre of chronography kinglists chronicles and royal inscriptions possessing similar or in some cases identical structures and motifs to those found in 1 2 Kings This study includes a literary critical analysis of every main structural feature of the regnal framework regnal year totals synchronisms geographic filiations naming the queen mother source citations death and burial formulae regnal evaluations royal predecessor formula and cultic reports It also seeks to determine the extent of the original framework by mapping its opening and conclusion The results of the study indicate that the framework's opening was in Solomon's account and its original climax was in Hezekiah's account and represented the latter as a royal YHWHist par excellence excellence the restorer of order who limited sacrificial space to Jerusalem The genealogical structure of this Hezekian History emerges from the Davidic royal ideology rooted in Jerusalem There is no decisive indication that calls for the original framework structure's classification as Deuteronomistic or Josianic The author of the framework wrote during the early to mid seventh century B C E and reported the major historical events surrounding Hezekiah's reign including the survival of Jerusalem in 701 B C E in the B1 narrative as well as his centralizing reform

**Prospects for a New Structuralism** Hans-Heinrich Lieb, 1992-01-01 This volume which has partly grown from a Round Table at the XIVth International Congress of Linguists argues for a large amount of underlying unity in outlook among different frameworks in present day linguistics the contemporary Prague School the Noematic approach the UNITYP model Integrational Linguistics Natural Morphology much recent work in phonology and Popperian Interactionism as applied in particular to historical linguistics Section I discusses philosophical issues such as realism vs cognitivism Section II characterizes current frameworks and Section III deals with individual linguistic areas like phonology Leading representatives of the various approaches are shown to agree in subscribing to most if not all of nine Principles of New Structuralism that combine ontological realism with non cognitivist mentalism These principles define a position that is structuralist in a novel sense and appears to be partly represented also in approaches such as Katzian Platonism and Searle s intentionalism it should be compatible with frameworks like GPSG There are definite historical

connections with European structuralism The position is incompatible with current cognitivism of the mechanism type but otherwise bridges traditional oppositions such as the dichotomy of generative vs non generative frameworks Cursor mundi Richard Morris,1877 **Early English Text Society** ,1874 *Cursor Mundi: Lines 19267-29555 of the text, with six additions and four appendices, including "The book of penance," and "Cato's morals" (incomplete) from the Fairfax ms. 14, and a glossary by Dr. Max Kaluza. 1877, -78, -92* Richard Morris,1892 **Cursor Mundi (The Cursor O the World).** Richard Morris,1877
