Schenectadys Golden Era 1880-1930:

Schenectady's Golden Era, 1880-1930 Larry Hart, 1996-11

Schenectady's Golden Era Larry Hart, 1974

Twentieth Century Limited Douglass C. Horstman, 2009-09-29 Seventeen year old Henry Horstman was one of 1 4 million Germans who braved the Atlantic Ocean to immigrate into the United States during the 1880s with the hope of achieving a better life Twentieth Century Limited details the compelling life story of Horstman who pursued his boyhood dream in one of the most dangerous industries in America only to lose it in the prime of his life Douglass Horstman the grandson of Henry Horstman draws on memories and historical accounts as he chronicles his grandfather's fascinating life story while also highlighting the carnage on the rails that devastated the lives of thousands of railroad workers and their families during a time when railroad corruption was rampant As a youth in Germany Henry was faced with the possibility of conscription into the Prussian Army but chose instead to follow the example of his uncle a locomotive engineer in America The author pieces together a captivating story that follows Henry from his Prussian youth to his first steps onto American soil and his fateful job on a railroad in upstate New York At a time when thousands of trainmen were being killed or injured Henry Horstman displayed insurmountable determination and courage turning his journey through life and on the rails into an inspiring biography

Steinmetz: Engineer and Socialist Ronald R. Kline, 2019-12-12 When Charles Proteus Steinmetz 1865-1923 died suddenly at the height of his fame his face was as familiar to Americans as that of Babe Ruth Henry Ford or Jack Dempsey Newspapers quoted his views on religion politics he was a Socialist science and future technological wonders All were intrigued by the Horatio Alger tale of the penniless hunchbacked German immigrant who rose to fame as the Wizard of Science chief engineer at General Electric and symbol of the new breed of scientists who daily surpassed the feats of Thomas Alva Edison This intellectual biography follows Steinmetz from his education in Germany to his rise as General Electric's chief consulting engineer Steinmetz obtained nearly 200 patents he made his most important contributions in electrical energy loss or hysteresis the understanding and wider use of alternating current and high voltage power transmission General Electric became Steinmetz's home his identity and a platform from which he stepped onto the wider stage of world affairs As leader of the American Institute of Electrical Engineers Socialist councilman in Schenectady New York and part time professor at Union College Steinmetz attempted to engineer society in the direction of a technocratic utopia by promoting welfare capitalism Lenin's electrification of the Soviet Union and other schemes all with limited success In a life filled with contrasts perhaps even Steinmetz himself a prominent Socialist serving as chief engineer of a major corporation was not always able to separate the myth from the man Steinmetz Engineer and Socialist was the subject of the 2014 PBS documentary film Divine Discontent Well informed by recent studies of similar mythologizing Kline explains both the rise and decline of Steinmetz's popular reputation Robert Friedel Science Kline's explanations are lucid and he offers broader insights about science and technology that will interest all cultural historians Mark Pittenger Journal of American

History Steinmetz not only provides the first comprehensive technically sophisticated analysis of Steinmetz's engineering achievements but also carefully examines his influential political and social writings and judiciously dissects the making of the Wizard of Schenectady legend David Sicilia *Reviews in American History* *Electric City* Julia Kirk Blackwelder, 2014-10-22 For seven decades the General Electric Company maintained its manufacturing and administrative headquarters in Schenectady New York *Electric City* General Electric in Schenectady explores the history of General Electric in Schenectady from the company's creation in 1892 to the present As one of America's largest and most successful corporations GE built a culture centered around the social good of technology and the virtues of the people who produced it At its core GE culture posited that engineers scientists and craftsmen engaged in a team effort to produce technologically advanced material goods that served society and led to corporate profits Scientists were discoverers engineers were designers and problem solvers and craftsmen were artists Historian Julia Kirk Blackwelder has drawn on company records as well as other archival and secondary sources and personal interviews to produce an engaging and multi layered history of General Electric's workplace culture and its planned and actual effects on community life Her research demonstrates how business and community histories intersect and this nuanced look at race gender and class sets a standard for corporate history *Image Worlds* David E. Nye, 1985 By viewing the corporation as a communicator *Image Worlds* links the histories of labor business consumption engineering and photography providing a new perspective on one of the largest and most representative corporations General Electric was one of the first modern industrial corporations to use photographs and other media resources to create images of itself and the GE archives comprising well over a million images form one of the largest privately held collections in the world To produce this venturesome book David Nye has used these vast archives to develop a new approach to corporate ideology through corporate iconography *Image Worlds* embraces symbols intentional signs and photographs on the one hand and the history of institutional and technological development on the other It views photography as a developing technology with a history of its own and presents the corporation as a communicator as well as a producer and employer Illustrated with nearly 60 photographs from the archives the book identifies five image markets that GE sought to organize and address Company engineers workers and managers received publications designed to appeal to their presumed interests Some of these grew into public journals with a scientific educational mission others were restricted in circulation even within the company At the same time illustrated mass media advertising was created to reach potential consumers of GE products Advertising that presented an image of GE as a place where progress was the most important product While GE was promoting this enlightened image the company was also using its resources to reach the voting public hoping to gain their support for private electrification in the national debate over municipal power David E Nye is Associate Professor of American History at Odense University in Denmark **American Theatre Companies, 1888-1930** Weldon B.
