Garth Connelly,David L. Krakow,2003-01-01     *Schnellboot in Action-Op* David Krakow,2013 Larger faster and more powerful than Allied counterparts the Schnellboot was perhaps the best motor torpedo boat of WWII Unlike mass produced Allied boats Germany spared no expense in equipping the Schnellboot with the speed protection maneuverability and firepower to strike and survive in increasingly hostile seas Operating under the cover of darkness and using cutting edge technology the Schnellboot remained a menace until the last days of WWII long after all other Kriegsmarine surface combatants had been neutralized This book is an informative and richly illustrated technical history of these sleek powerful vessels from the first to the final variants It includes detailed information on weapons electronics optics engines camouflage and more This new edition has many new photos in depth captions additional color profiles and all new meticulously detailed scale drawings

**Schnellboote** Lawrence Paterson,2015-11-30 The Kriegsmarine s Schnellboote fast attack boats or E boats to the Allies were the primary German naval attack units in coastal waters throughout the Second World War Operating close to their various bases they became a devastatingly effective weapon in nearly all the Kriegsmarine s theatres of war from the Baltic to the Mediterranean and the Black Sea It was in the English Channel however that they scored their most notable successes destroying some forty warships and more than one hundred merchant ships In addition to interception and attack they were also used for minelaying landing sabotage troops and general escort duties There has been to date no comprehensive operational history of the S boat service in all the theatres in which it saw service but due to the relatively small number of units it is possible to recount the duties and fates of each individual craft and in this new book the author examines the career of each in detail In addition operations alongside the commando units of the Kleinkampfverbände are covered and the smaller S boats designed primarily for their use are described As the War progressed S boats suffered from the increased Allied mastery of the seas and skies but they were a formidable foe right to the end this new book is the first to do full justice to their record of success     **Schnellboot** Carlo Cestra,2018-04-19 S38b and S100 E boats class were German fast attack craft Schnellboot in German built for the Kriegsmarine during World War Two The E boats a British designation using the letter E for Enemy were defined by many naval experts as the best carrying out of their category Initially these units were called Unterseebot Zerstörer Hunting Submarine and Anti Submarine Motorboats or Armored Motorboats as they had an important anti submarine mission Later the Kaiserliche Marine imperial German navy adopted the designation of Luftschiffmotorenboot boat with an airship engine or L Boote and therefore from November 1917 the units became LM Boote with the same meaning but their use especially in the Baltic Sea and the North Sea was not particularly successful
