School Choice Why You Need It How You Get It:

School Choice David Harmer, 1994-11-01 School choice is the hottest and most controversial idea in education reform today. As dissatisfaction with the public schools continues to grow, more and more people are turning to choice to provide real reform. Milwaukee has implemented a voucher plan, and choice plans have been on the ballot in several states. The author, David J. Harmer, explains why the public schools no longer work, why they resist reform, and why choice is the reform that will work. He also gives us the inside story of California's pioneering 1993 Parental Choice in Education initiative and the education establishment's successful 16 million campaign to defeat it. Harmer explains how other states can adapt the initiative to their needs and what lessons can be learned from its defeat. For taxpayers concerned about rising costs for employers and educators concerned about school quality, and especially for parents concerned about their children's future, **School Choice** is a must reading.

The Politics of School Choice Hubert Morken, Jo Renee Formicola, 1999 **The Politics of School Choice** is the first comprehensive examination of diverse efforts to promote tax credits, public vouchers, private scholarships, and charter schools. Morken and Formicola provide the most current national report on the burgeoning American school choice movement. They analyze the strategies and tactics being used by a wide variety of individuals and organizations to leverage change, pass laws, win court cases, and mobilize community support to build successful winning school choice coalitions. Based largely on extensive interviews, documentary research, and surveys, this book covers the spectrum of school choice options and shows how they are being promoted in the United States today. It explains who the players are, what types of programs they endorse, and the various rationales behind them. The authors report the views of the entrepreneurs, religious leaders, heads of think tanks and foundations, public litigators, scholars, activists, minority leaders, and politicians who are in the forefront of providing parents with resources for educational alternatives. Finally, Morken and Formicola cover the strengths and weaknesses of the school choice issue, concluding that the movement has a wide-ranging membership that is uneven in its implementation and that it is taking different forms in various regions of the country. As the pace of change accelerates and new school choice programs proliferate, this study is a critical resource for all those concerned about the present and future status of American education.
