Gupta, Peter Coxhead, 2017-09-13 Educational psychologists psychiatrists social workers and other professionals are often asked by parents or teachers to intervene when normal classroom strategies have failed children in their charge This title originally published in 1990 brought together for the first time some of the intervention strategies available at the time and offers professionals vital information about the results of each strategy in practice The contributors acknowledged experts in their fields present a critical and objective overview of the range of approaches available and apply them to the areas of poor school attendance maladaptive behaviour and poor reading levels They stress the need to avoid replacing a traditional approach with an intervention strategy whose results are unproven They also warn that different problems demand different approaches and

that the consultant must avoid the dogmatic application of a single approach when the child's welfare is at risk. The need for consultants to deal sensitively with the professionals they are asked to advise is also emphasized. Teachers may feel, for example, that an educational psychologist is out of touch with the realities of teaching. Above all, else interventions should offer realistic and effective methods of improving children's lives. *Intervention with Children* provides in one volume practical, effective and acceptable strategies for working with children. Educational psychologists, LEA advisers, researchers and other professionals will still find it a valuable source of ideas and a model of good practice from which to develop their own intervention strategies. Written in a clear and accessible style, it will still be of interest to experienced teachers, social workers and others involved in the management and care of children.

Consultation and Mental Health Interventions in School Settings Ester Cole, Maria Kokai, 2021-11-30. Optimize the delivery of school psychology services with this book. Presents a unique consultation and intervention model. Interlinks primary, secondary and tertiary prevention and intervention applications. Addresses specific student and school level needs. Online resources and handouts. More about the book. This volume, written by leading psychology practitioners and academics, has been designed to meet the ever-growing challenges faced by educational systems to address the mental health, learning and socialization needs of students. Using a unique and comprehensive consultation and intervention model, the chapters provide evidence-based guidance that interlinks primary, secondary and tertiary prevention and intervention applications that allow for systematic consultation, planning and cost-effective services. The clear and easy-to-apply model is used to look at specific student needs that are commonly encountered in schools, e.g., depression, ADHD, giftedness and at issues that require school-level interventions, e.g., diversity, promoting resilience. Practitioners will appreciate the numerous downloadable practical resources and tools for hands-on applications that are available online to purchasers of the book. This book is an invaluable resource for school psychologists and mental health service providers as well as for academics involved in training pre-service practitioners. The materials for this book can be downloaded from the Hogrefe website after registration.
