

A sepia-toned photograph of a boat on a lake. The boat is a long, narrow vessel with a white hull and a dark, scalloped-edge canopy. Several people are visible inside the boat, some wearing hats. The background is a dense forest of tall, thin trees, likely evergreens, rising from the water's edge. The overall tone is historical and serene.

Seneca Ray Stoddard Transforming The Adirondack Wilderness In Text And Image:

Seneca Ray Stoddard Jeffrey L. Horrell, 2024-11-15 Seneca Ray Stoddard's photographic and literary work paralleled the era of exploration of this region as well as the early years of photography. It was during his lifetime as a result of the changing perceptions of the wilderness that the area first attracted artists, tourists, and summer residents. Jeffrey L. Horrell's book explores the nature of this Adirondack pioneer's work and examines how it influenced and was influenced by the changing attitudes toward wilderness in the last half of the nineteenth century. It is the first complete volume to provide an in-depth study of both Stoddard's writing and photography. Through his photographs and publishing ventures, Stoddard moved from recording the wilderness landscape to defending it against the logging industry and other developers. Stoddard was instrumental in creating the modern perception of the forever wild landscape of the Adirondacks. Although there had been a well-established tradition of guidebooks for American tourist regions, Stoddard's practice of including illustrations based on photographs represented a new departure. Horrell shows how Stoddard's work reflected matters of class and power on the emerging tourist industry and its effect on the popular literature of the day. **Adirondack Photographers, 1850-1950**

Sally E. Svenson, 2023-05-15 Just as the new technology of photography was emerging throughout the United States in the mid-nineteenth century, it caught hold in the scenic Adirondack region of upstate New York. Young men and a few women began to experiment with cameras as a way to earn their livings with local portrait work. From photographing individuals, some expanded their subject matter to include families and groups, homes, streetscapes, landmarks, workplaces, and important events, from town celebrations to presidential visits, train wrecks, floods, and fires. These photographers, from within and just beyond the park's borders as well as those based in the urban areas from which tourists came to the Adirondacks, have been central in defining the region. *Adirondack Photographers 1850-1950* is a comprehensive look at the first one hundred years of photography through the lives of those who captured this unique rural region of New York State. Svenson's fascinating biographical dictionary of more than two hundred photographers is enriched with over seventy illustrations. While the popularity of some of these photographers is reflected in the number of their images held in the collections of the Library of Congress, the New York Public Library, and the Getty Museum, little is known about the diverse backgrounds of the individuals behind their work. A compilation of captivating stories, *Adirondack Photographers* provides a vivid, intimate account of the evolution of photography as well as an unusual perspective on Adirondack history. *Adirondack Vernacular* Robert Bogdan, 2003-02-01 Henry M. Beach was a prolific and accomplished upstate New York photographer who documented the North Country during the first quarter of the twentieth century. Although much less known and celebrated, Beach's work is as important to the twentieth-century Adirondacks as Seneca Ray Stoddard's is to the nineteenth century. Illustrated with over 250 examples of his work, including ten panoramic foldouts, this book covers the range of Beach's subject matter. Robert Bogdan's lively and accessible approach to the photographer's work encourages the reader to explore the North Country's

people and places through Beach's photography and life. Although Beach's postcard pictures and other photographs were taken to sell in bulk to hotel managers, tourist shop owners and other retail merchants, they are not just mass-produced stylized pretty pictures. Beside the bubbling brooks and shady woodland paths are factory boomtowns and paper mills belching pollution. As the rails brought increasing numbers of middle-class tourists to the Adirondacks, the wealthy created their own exclusive wilderness playground. Beach photographed dandy visitors at play as well as manual laborers sweating in the forest logging camps, factories, mines and construction sites. Images of great camps sit next to modest abodes, small stores and family-owned resorts. Pictures of trains in scenic surroundings give way to mangled wrecks after tragic railroad accidents. In addition to standard view cards, he produced montages and advertisement postcards, serious visual commentary as well as lighthearted picture play. Beach's best works stir the heart and provoke the imagination, and his whimsical down-to-earth approach to photography produced images that are a treat to the eye.

Watercolors by Winslow Homer Martha Tedeschi, Kristi Dahm, 2008-02-26 American painter Winslow Homer 1836-1910 created some of the most breathtaking and influential watercolors in the history of the medium. This handsome volume provides a comprehensive look at Homer's technical and artistic practice as a watercolorist and at the experiences that shaped his remarkable development. Focusing on 25 rarely seen watercolors from the Art Institute's collection along with 75 other related watercolors, gouaches, drawings and paintings including many of the artist's characteristic subjects, the book proposes a new understanding of Homer's techniques as they evolved over his career. Accessibly written essays consider each of the featured works in detail, examining the relationship between monochrome drawing and watercolor and the artist's lifelong interest in new optical and color theories. In particular, they show how his sojourn in England, where he encountered leading British marine watercolorists and the dynamic avant-garde art scene, precipitated an abrupt change in technique and subject matter upon his return home. Conservators address the fragility of these watercolors, which are prone to fading due to light exposure, and demonstrate through pioneering research on Homer's pigments and computer-assisted imaging how the works have changed over time. Several of Homer's greatest watercolors are digitally restored, providing an exhilarating glimpse of the original impact of Homer's groundbreaking color experiments.

American National Biography John A. Garraty, Mark C. Carnes, 2005-05-12 American National Biography is the first new comprehensive biographical dictionary focused on American history to be published in seventy years. Produced under the auspices of the American Council of Learned Societies, the ANB contains over 17,500 profiles on historical figures, written by an expert in the field and completed with a bibliography. The scope of the work is enormous, from the earliest recorded European explorations to the very recent past.
