The Palgrave Handbook of the Sociology of Work in Europe Paul Stewart,Jean-Pierre Durand,Maria-Magdalena Richea,2018-11-02 This book explores the key conceptual features of the development of the Sociology of Work SoW in Europe since 1945 using eleven country case studies An original contribution to our understanding of the trajectory of the SoW the chapters map the current state of the theoretical background of the sub discipline s development to broader socio political and economic changes traced across a heterogeneous set of national contexts Different definitions of the SoW in each country often reflect variations in the focus of analysis and these chapters link the subject definition and focus to other social science disciplines the state as well as social class interests and ideologies The book contends that the ways in which the sub discipline makes sense of changes in work is itself a response to the type of society in which the sub discipline is practiced whether in the post war social democratic West the Soviet East or today s societies dominated by variant forms of neo liberalism It will be of use to scholars and students interested in the transnational history of the discipline of sociology with a specific focus on the nexus between the sociology of labour ideology economics and politics *Demanding Sex: Critical Reflections on the Regulation of Prostitution* Marina Della Giusta,2016-05-13 Interrogating supply demand from an inter and multi disciplinary perspective this collection broadens engagement beyond the routine analysis of the locus of violence in prostitution and the validity of the prostitute s consent A focus on the supply demand dynamic brings into play a

range of other societal economic and psychological factors such as the social construction of sexuality the viability of alternative choices for prostitutes and clients and the impact of regulatory regimes on the provision of sexual services The factors which underlie each component of the supply demand dyad are also studied and an examination is made of their dynamic interrelation The collection emphasizes the importance of rendering policy makers alert to the evidence emerging from empirical studies conducted in different fields of enquiry in the hope of moving beyond polarity and politics at the local national and international level
