Authors and Audiences Clarence Karr, 2000 From the 1890s through the 1920s the best selling fiction of Ralph Connor Robert Stead Nellie McClung Lucy Maud Montgomery and Arthur Stringer was internationally recognized In this intriguing cultural history of the conception production and reception of popular fiction Clarence Karr challenges the common assumption that best sellers are a conservative cultural influence reflecting and promoting traditional values By focusing on a society and its cultural leaders at a period when they were coming to grips with modernity Karr provides a new perspective on popular culture and the interaction between readers and popular authors

Machiavelli in Love Guido Ruggiero, 2007 Machiavelli in Love introduces a complex concept of sex and sexual identity and their roles in the culture and politics of the Italian Renaissance Guido Ruggiero's study counters the consensus among historians and literary critics that there was little sense of individual identity and almost no sense of sexual identity before the modern period Drawing from the works of major literary figures such as Boccaccio Aretino and Castiglione and rereading them against archival evidence Ruggiero examines the concept of identity via consensus realities of family neighbors friends and social peers as well as broader communities and solidarities The author contends that Renaissance Italians understood sexual identity as a part of the human life cycle something that changed throughout stages of youthful experimentation marriage adult companionship and old age Machiavelli's letters and literary production reveal a fascinating construction of self that is highly reliant on sexual reputation Ruggiero's challenging reinterpretation of this canonical figure as well as his unique treatment of other major works of the period offer new approaches for reading Renaissance literature and new understandings of the way life was lived and perceived during this time

Goethe Revisited Elizabeth Mary Wilkinson, 1984 *Dominant Impressions* Gerald Lynch, Angela Robbeson, 1999 Canadian critics and scholars along with a growing number from around the world have long recognized the achievements of Canadian short story writers However these critics have tended to view the Canadian short

story as a historically recent phenomenon This reappraisal corrects this mistaken view by exploring the literary and cultural antecedents of the Canadian short story Published in English Dressing Renaissance Florence Carole Collier Frick,2005-07-20 As portraits private diaries and estate inventories make clear elite families of the Italian Renaissance were obsessed with fashion investing as much as forty percent of their fortunes on clothing In fact the most elaborate outfits of the period could cost more than a good sized farm out in the Mugello Yet despite its prominence in both daily life and the economy clothing has been largely overlooked in the rich historiography of Renaissance Italy In Dressing Renaissance Florence however Carole Collier Frick provides the first in depth study of the Renaissance fashion industry focusing on Florence a city founded on cloth a city of wool manufacturers finishers and merchants of silk dyers brocade weavers pearl dealers and goldsmiths From the artisans who designed and assembled the outfits to the families who amassed fabulous wardrobes Frick s wide ranging and innovative interdisciplinary history explores the social and political implications of clothing in Renaissance Italy s most style conscious city Frick begins with a detailed account of the industry itself its organization within the guild structure of the city the specialized work done by male and female workers of differing social status the materials used and their sources and the garments and accessories produced She then shows how the driving force behind the growth of the industry was the elite families of Florence who in order to maintain their social standing and family honor made continuous purchases of clothing whether for everyday use or special occasions for their families and households And she concludes with an analysis of the clothes themselves what pieces made up an outfit how outfits differed for men women and children and what colors fabrics and design elements were popular Further and perhaps more basically she asks how we know what we know about Renaissance fashion and looks to both Florence s sumptuary laws which defined what could be worn on the streets and the depiction of contemporary clothing in Florentine art for the answer For Florence s elite appearance and display were intimately bound up with self identity Dressing Renaissance Florence enables us to better understand the social and cultural milieu of Renaissance Italy Poetry on Stage Gianluca Rizzo,2020-08-26 Based on meticulous research in the archives of some of the most prominent Italian avant garde writers Poetry on Stage examines the literary and ideological climate of the sixties and seventies **The Canadian Prairies** Gerald Friesen,1987-01-01 A history of the Canadian prairie provinces from the days of Native European contact to the 1980s *The Literary Review* ,1981 Reference Guide to American Literature D.
