Psychoanalytic Literary Criticism Maud Ellmann, 2014-01-14 This collection of essays provides students of literary critical theory with an introduction to Freudian methods of interpretation and shows how those methods have been transformed by recent developments in French psychoanalysis particularly by the influence of Jacques Lacan It explains how classical Freudian criticism tended to focus on the thematic content of the literary text whereas Lacanian criticism focuses on its linguistic structure redirecting the reader to the words themselves Concepts and methods are defined by tracing the role played by the drama of Oedipus in the development of psychoanalytic theory and criticism The essays cover a wide generic scope and are divided into three parts drama narrative and poetry Each is accompanied by explanatory headnotes giving clear definitions of complex terms The Edge of Modernism Walter Kalaidjian, 2020-03-03 In *The Edge of Modernism*

Walter Kalaidjian explores American poetry on genocide the Holocaust and total war as well as on postwar social antagonisms racial oppression and domestic violence By asking what it means for traumatic memory to have agency in the American verse tradition Kalaidjian creates an original historical account of how American poets became witnesses often unconsciously to modern extremity Combining psychoanalytic theory and cultural studies this intense sweeping account of modern poetics analyzes the ways in which literary form gives testimony to the trauma of twentieth century history Through close readings of well known and less familiar poets among them Langston Hughes Countee Cullen Claude McKay Edwin Rolfe Sylvia Plath Adrienne Rich Peter Balakian Rachel Blau DuPlessis Anne Sexton and Anthony Hecht Kalaidjian discerns the latent edge of modern trauma as it cuts through the literary representations themes and formal techniques of twentieth century American poetics In this way *The Edge of Modernism* advances an innovative and dynamic model of modern periodization

Scenes of Shame Joseph Adamson, Hilary Clark, 1998-10-15 The significance of shame as a critical human emotion has come to be recognized in the fields of psychoanalysis psychotherapy and psychology *Scenes of Shame* brings this body of theory to bear on literary and philosophical representations of shame The contributors explore the role of shame as an important affect in the psychodynamics of a wide range of literary and philosophical works including essays on Kierkegaard Hawthorne George Eliot Nietzsche Lawrence Faulkner Sexton and Toni Morrison The book also includes an analysis of the problem of shame in student lifewriting in the classroom and testifies to the importance of affect in philosophy and literature as well as to the way in which imaginative writers can clarify and enrich our understanding of an emotion that as Silvan Tomkins claims strikes deepest into the human heart

Modern Criticism and Theory Nigel Wood, David Lodge, 2014-06-11 This third edition of *Modern Criticism and Theory* represents a major expansion on its previous incarnations with some twenty five new pieces or essays included This expansion has two principal purposes Firstly in keeping with the collection's aim to reflect contemporary preoccupations the reader has expanded forward to include such

newly emergent considerations as ecocriticism and post theory Secondly with the aim of presenting as broad an account of modern theory as possible the reader expands backwards to take in exemplary pieces by formative writers and thinkers of the late nineteenth and early twentieth centuries such as Marx Freud and Virginia Woolf This radical expansion of content is prefaced by a wide ranging introduction which provides a rationale for the collection and demonstrates how connections can be made between competing theories and critical schools The purpose of the collection remains that of introducing the reader to the guiding concepts of contemporary literary and cultural debate It does so by presenting substantial extracts from seminal thinkers and surrounding them with the contextual materials necessary to a full understanding Each selection has a headnote which gives biographical details of the author and provides suggestions for further reading and footnotes that help explain difficult references The collection is ordered both historically and thematically and readers are encouraged to draw for themselves connections between essays and theories Modern Criticism and Theory has long been regarded as a necessary collection Now revised for the twenty first century it goes further and provides students and the general reader with a wide ranging survey of the complex landscape of modern theory and a critical assessment of the way we think and live in the world today

Mapping the World of Anglo-American

Studies at the Turn of the Century Marija Knežević, 2015-10-05 This volume revisits the most important issues that Anglo American studies are facing at the beginning of the twenty first century with regards to both research and teaching Given the English language s status as a lingua franca the culture that produced it and that has been changing it the literature written in English and relevant linguistic and literary discourse have come to largely dominate critical theory globally Therefore the subjects of Anglo American studies and their traditional and modern concepts must be approached from a multidisciplinary perspective and must also be problematized in and determined by other spheres of the world especially at the universities at which they are studied This book consequently approaches both mainstream cultural literary linguistic and academic achievements and often by way of comparison those smaller more distant and marginalized fields traditionally subordinate studies as well as instances of cultural hybridization Given its concern with a broad field of culture literature linguistics and methodology of teaching English as a foreign language this book consists of two main parts comprising the closest research and teaching fields one attending to culture and literature and the other approaching linguistics and methodology

Confessional Poetry in the Cold War Adam Beardsworth, 2022-02-02 This book explores how confessional poets in the 1950s and 1960s US responded to a Cold War political climate that used the threat of nuclear disaster and communist infiltration as affective tools for the management of public life In an era that witnessed the state sanctioned repression of civil liberties poets such as Robert Lowell John Berryman Sylvia Plath Anne Sexton and Randall Jarrell adopted what has often been considered a politically benign confessional style Although confessional writers have been criticized for emphasizing private turmoil in an era of public crisis examining their work in relation to the political and affective environment of the Cold War US demonstrates their unique ability to express dissent while averting surveillance For these poets writing the fear and anxiety of life in the bomb s shadow was a form of poetic doublespeak that critiqued the impact of an affective Cold War politics without naming names

Confidentiality and Its Discontents Paul W. Mosher, Jeffrey Berman, 2015-07-01 Freud promised his patients absolute confidentiality regardless of what they revealed but privacy in psychotherapy began to erode a half century ago Psychotherapists now seem to serve as double agents with a dual and often conflicting allegiance to patient and society Some therapists even go so far as to issue Miranda type warnings advising patients that what they say in therapy may be used against them Confidentiality and Its Discontents explores the human stories arising from this loss of confidentiality in psychotherapy Addressing different types of psychotherapy breaches Mosher and Berman begin with the the story of novelist Philip Roth who was horrified when he learned that his psychoanalyst had written a thinly veiled case study about him Other breaches of privacy occur when the so called duty to protect compels a therapist to break confidentiality by contacting the police Every psychotherapist has heard about Tarasoff but few know the details of this story of fatal attraction Nor are most readers familiar with the Jaffee case which established psychotherapist patient privilege in the federal courts Similiarly the story of Robert Bierenbaum a New York surgeon who

was brought to justice fifteen years after he brutally murdered his wife reveals how privileged communication became established in a state court Meanwhile the story of New York Chief Judge Sol Wachtler convicted of harassing a former lover and her daughter shows how the fear of the loss of confidentiality may prevent a person from seeking treatment with potentially disastrous results While affirming the importance of the psychotherapist patient privilege Confidentiality and Its Discontents focuses on both the inner and outer stories of the characters involved in noteworthy psychotherapy breaches and the ways in which psychiatry and the law can complement but sometimes clash with each other **The Cambridge Companion to American Poetry since 1945** Jennifer Ashton,2013-02-08 The extent to which American poetry reinvented itself after World War II is a testament to the changing social political and economic landscape of twentieth century American life Registering an important shift in the way scholars contextualize modern and contemporary American literature this Companion explores how American poetry has documented and at times helped propel the literary and cultural revolutions of the past sixty five years This Companion sheds new light on the Beat Black Arts and other movements while examining institutions that govern poetic practice in the United States today The text also introduces seminal figures like Sylvia Plath John Ashbery and Gwendolyn Brooks while situating them alongside phenomena such as the academic poet and popular forms such as spoken word and rap revealing the breadth of their shared history Students scholars and readers will find this Companion an indispensable guide to post war and late twentieth century American poetry **Jacques Lacan** Slavoj Žižek,2003 Jacques Lacan 1901 1980 is undoubtedly the central figure of psychoanalysis in the second half of the 20th century The texts selected here present the entire scope of the Lacan debate **Understanding Water Security at Local Government Level in South Africa** Richard Meissner,Nikki Funke,Karen Nortje,Maronel Steyn,2018-11-11 This book provides unique insights into the complex issue of water security in South Africa Based on qualitative research conducted through face to face structured interviews and focus group discussions with individuals traditional leaders municipal officials researchers businesspeople and farmers in the two local governments the Sekhukhune District and eThekweni Metropolitan Municipalities it focuses on the peoples understanding of the concept of water security and whether they believe that the municipalities have achieved water security for all The research is supported by water security related statistics particularly those pertaining to water quality and quantity and an extensive literature review for the concept of water security In addition to assessing the state of water security in both municipalities the book presents a new water security definition and typology and offers valuable recommendations for future research **Recorded Poetry and Poetic Reception from Edna Millay to the Circle of Robert Lowell** D. Furr,2010-07-19 Through an analysis of a wide range of commercial and amateur recordings this book describes how and why poetry was recorded in the U S from the 1930 s through the mid century performances of poets such as Dylan Thomas and Anne Sexton **Post-Jungian Criticism** James S. Baumlín,Tita French Baumlín,George H. Jensen,2004-02-01 This groundbreaking collection brings the range and diversity of post Jungian thought

into the realm of contemporary literary and cultural criticism These essays explore expand critique and apply post Jungian critical theory as they revisit and reread Jung s own writings from numerous perspectives No longer treated as a source of clear unequivocal authoritative pronouncement Jung s writings are themselves subjected to critical deconstructive readings and several of the essays confront head on Jung s evident racism antifeminism anti Semitism and political conservatism While not downplaying such charges the contributors outline an alternative post Jungian theory responsive to contemporary feminist postcolonial and poststructural concerns The result is not just a critical reinterpretation but more important a regeneration of Jungian thought **Poets** ,1998 The Undergraduate's Companion to American Writers and Their Web Sites
