Sexual Encounters Pacific Texts Modern Sexualities:

Sexual Encounters Lee Wallace, 2003 European literary artistic and anthropological representation has long viewed the Pacific as the site of heterosexual pleasures The received wisdom of these accounts is based on the idea of female bodies unrestrained by civilization In a revisionist history of the Pacific zone and some of its preeminent Western imaginists Lee Wallace suggests that the fantasy of the male body rather than of the free loving female provides the underlying libidinal structure for many of the classic encounter narratives from Cook to Melville The subject of *Sexual Encounters* is sexual fantasy particularly male homoerotic fantasy found in the literature and art of South Sea exploration colonization and settlement Working at the boundaries of a number of disciplines such as queer theory anthropology postcolonial studies and history Wallace engages in subversive readings of eighteenth and nineteenth century Pacific voyage journals Cook in Hawaii and a Russian expedition to the Marquesas an argument concerning Gauguin's treatment of female figures and a discussion of homosexuality and Samoan male to female transgenderism These phenomena Wallace asserts demonstrate the continuity and dissonance between Western and Pacific sexual categories She reconstructs Pacific history through the inevitable entanglement of metropolitan and indigenous sexual regimes and ultimately argues for the importance of the Pacific in defining modern sexual categories

Embodiments of Cultural Encounters Sebastian Jobs, Gesa Mackenthun, 2011 The meeting of members of different cultures frequently conceptualized in abstract terms always involves the meeting of human bodies This volume brings together contributions by scholars of various disciplines that address physical aspects and effects of cultural encounters in historical and present day settings Bodies were and are not only markers of cultural identity and difference endlessly inscribed and represented as the body politic or the exotic other as battlegrounds of cross cultural signification and identification bodies are also potential agents of change While some essays address the elusiveness of the real or material body forever lost behind a veil of textual and visual representation others analyze the performative effect of such representations their function of disciplining colonized bodies and subjects by integrating them into Western systems of cultural signification and scientific classification Yet as the volume also shows formerly colonized people far from subjecting themselves completely to Western discourses of physical discipline retain traditional body practices whether in food culture religious ritual or musical performances Such local reinscriptions escape the grip of Western culture and transform the global semantics of the body

Transoceanic America Michelle Burnham, 2019-05-23 *Transoceanic America* offers a new approach to American literature by emphasizing the material and conceptual interconnectedness of the Atlantic and Pacific worlds These oceans were tied together economically textually and politically through such genres as maritime travel writing mathematical and navigational schoolbooks and the relatively new genre of the novel Especially during the age of revolutions in the late eighteenth and early nineteenth centuries long distance transoceanic travel required calculating and managing risk in the interest of profit The result was the emergence of a newly suspenseful form of narrative that came to characterize

capitalist investment political revolution and novelistic plot The calculus of risk that drove this expectationist narrative also concealed violence against vulnerable bodies on ships and shorelines around the world A transoceanic American literary and cultural history requires new non linear narratives to tell the story of this global context and to recognize its often forgotten textual archive Tattooing the World Juniper Ellis,2008 Juniper Ellis traces the origins and significance of modern tattoo in the works of nineteenth and twentieth century artists travelers missionaries scientists and such writers as Herman Melville Margaret Mead Albert Wendt and Sia Figiel book cover

An Open Secret Nicholas L. Syrett,2021-04-05 In 1922 Robert Allerton described by the Chicago Tribune as the richest bachelor in Chicago met a twenty two year old University of Illinois architecture student named John Gregg who was twenty six years his junior Virtually inseparable from then on they began publicly referring to one another as father and son within a couple years of meeting In 1960 after nearly four decades together and with Robert Allerton nearing ninety they embarked on a daringly nonconformist move Allerton legally adopted the sixty year old Gregg as his son the first such adoption of an adult in Illinois history An Open Secret tells the striking story of these two iconoclasts locating them among their queer contemporaries and exploring why becoming father and son made a surprising kind of sense for a twentieth century couple who had every monetary advantage but one glaring problem they wanted to be together publicly in a society that did not tolerate their love Deftly exploring the nature of their design domestic and philanthropic projects Nicholas L Syrett illuminates how viewing the Allertons as both a same sex couple and an adopted family is crucial to understanding their relationship s profound queerness By digging deep into the lives of two men who operated largely as ciphers in their own time he opens up provocative new lanes to consider the diversity of kinship ties in modern US history

Women, Epic, and Transition in British Romanticism Elisa Beshero-Bondar,2011-05-31 *Women Epic and Transition in British Romanticism* argues that early nineteenth century women poets contributed some of the most daring work in modernizing the epic genre The book examines several long poems to provide perspective on women poets working with and against men in related efforts contributing together to a Romantic movement of large scale genre revision Women poets challenged longstanding categorical approaches to gender and nation in the epic tradition and they raised politically charged questions about women s importance in moments of historical crisis

Gauguin's Challenge Norma Broude,2018-03-08 Several decades have now passed since postcolonial and feminist critiques presented the art historical world with a demythologized Paul Gauguin 1848 1903 a much diminished image of the artist hero who had once been universally admired as the father of modernist primitivism In this volume both long established and more recent Gauguin scholars offer a provocative picture of the evolution of Gauguin scholarship in the recent postmodern era as they confront and consider how the dismantling of the longstanding Gauguin myth positions us now in the 21st century to deal with and assess the life work and legacy of this still perennially popular artist To reassess the challenges that Gauguin faced in his own day as well as those that he continues to present to current and future scholarship they explore the multiple contexts

that influenced Gauguin's thought and behavior as well as his art and incorporate a variety of interdisciplinary approaches from anthropology philosophy and the history of science to gender studies and the study of Pacific cultural history Dealing with a wide range of Gauguin's production they challenge conventional art historical thinking highlight transnational perspectives and offer clues to the direction of future scholarship as audiences worldwide seek to make multicultural peace with Gauguin and his art Broude has raised the bar of Gauguin scholarship ever higher in this groundbreaking volume which will be necessary reading for students and scholars of art history late 19th century French and Pacific culture gender studies and beyond

Women and English Piracy, 1540-1720 John C. Appleby, 2013 Piracy was one of the most gendered criminal activities during the early modern period As a form of maritime enterprise and organized criminality it attracted thousands of male recruits whose venturing acquired a global dimension as piratical activity spread across the oceans and seas of the world At the same time piracy affected the lives of women in varied ways Adopting a fresh approach to the subject this study explores the relationships and contacts between women and pirates during a prolonged period of intense and shifting enterprise Drawing on a wide body of evidence and based on English and Anglo American patterns of activity it argues that the support of female receivers and maintainers was vital to the persistence of piracy around the British Isles at least until the early seventeenth century The emergence of long distance and globalized predation had far reaching consequences for female agency Within colonial America women continued to play a role in networks of support for mixed groups of pirates and sea rovers at the same time such groups of predators established contacts with women of varied backgrounds in the Caribbean and the Indian Ocean As such female agency formed part of the

economic and social infrastructure which supported maritime enterprise of contested legality But it co existed with the victimisation of women by pirates including the Barbary corsairs As this study demonstrates the interplay between agency and victimhood was manifest in a campaign of petitioning which challenged male perceptions of women s status as victims Against this background the book also examines the role of a small number of women pirates including the lives of Mary Read and Ann Bonny while addressing the broader issue of limited female recruitment into piracy JOHN C APPLEBY is Senior Lecturer in History at Liverpool Hope University

American Pacificism Paul Lyons,2006-09-27 This provocative analysis and critique of American representations of Oceania and Oceanians from the nineteenth century to the present argues that imperial fantasies have glossed over a complex violent history It introduces the concept of American Pacificism a theoretical framework that draws on contemporary theories of friendship hospitality and tourism to refigure established debates around orientalism for an Oceanian context Paul Lyons explores American Islander relations and traces the ways in which two fundamental conceptions of Oceania have been entwined in the American imagination On the one hand the Pacific islands are seen as economic and geopolitical stepping stones rather than ends in themselves whilst on the other they are viewed as ends of the earth or cultural limits unencumbered by notions of sin antitheses to the industrial worlds of economic and political modernity However both conceptions obscure not only Islander cultures but also innovative responses to incursion The islands instead emerge in relation to American national identity as places for scientific discovery soul saving and civilizing missions manhood testing adventure nuclear testing and eroticized furloughs between maritime work and warfare Ranging from first contact and the colonial archive through to postcolonialism and global tourism this thought provoking volume draws upon a wide rewarding collection of literary works historical and cultural scholarship government documents and tourist literature
