western centric theorizations New Evolutionary Social Science Heinz-Jurgen Niedenzu, Peter Meyer, Tamas Meleghy, 2015-11-17 Social scientists have long declared their autonomy from the natural sciences and in doing so have tended to neglect important biological constraints on human nature Many sociological theories have suggested a nearly complete malleability of patterns of social life The New Evolutionary Social Science challenges this view by building on Stephen K Sanderson's Darwinian conflict theory which sets out to synthesise sociological theories with key findings from biology into an overarching scientific paradigm Configuring and expanding this groundbreaking theory the contributors to this volume are well known European and American experts in evolutionary science The New Evolutionary Social Science develops a new basis for understanding social change and the world's future through a better integration of the natural and social sciences Finnishness, Whiteness and Coloniality Josephine Hoegaerts, Tuire Liimatainen, Laura Hekanaho, Elizabeth Peterson, 2022-08-22 This multidisciplinary volume reflects the shifting experiences and framings of Finnishness and its relation to race and coloniality The authors centre their investigations on whiteness and unravel the cultural myth of a normative Finnish white ethnicity Rather than presenting a unified definition for whiteness the book gives space to the different understandings and analyses of its authors This collection of case studies illuminates how Indigenous and ethnic minorities have participated in defining notions of Finnishness how historical and recent processes of migration have challenged the traditional conceptualisations of the nation state and its population and how imperial relationships have contributed to a complex set of discourses on Finnish compliance and identity With an aim to question and problematise what may seem self evident aspects of Finnish life and Finnishness expert voices join together to offer counter perspectives on how Finnishness is constructed and perceived Scholars from cultural studies history sociology linguistics genetics among others address four main topics 1 Imaginations of Finnishness including perceived physical characteristics of Finnish people 2 Constructions of whiteness entailing studies of those who do and do not pass as white 3 Representations of belonging and exclusion making up of accounts of perceptions of what it means to be Finnish and 4 Imperialism and colonisation including what might be considered uncomfortable or even surprising accounts of inclusion and exclusion in the Finnish context This volume takes a first step in opening up a complex set of realities that define Finland's changing role in the world and as a home to diverse populations **What Men Say, What Women Hear** Linda Papadopoulos, 2008-12-30 An indispensable relationship guide for every woman who has ever told her partner Really don't go to any trouble for my birthday And then been disappointed when he didn't He says That dress looks great Let's buy it You hear He really loves being with me I feel as though we've truly bonded He means For the love of God the last eight black dresses you tried on looked identical Just buy one so we can get home in time for the game In *What Men Say What Women Hear* Dr Linda Papadopoulos tackles the saying hearing and listening gap between men and women that can complicate every step of a relationship from first dates and first sex to meeting the parents and living happily ever after An expert on Cognitive Behavior Therapy which connects people's
