*Sexual Life of Primitive People* Hans Fehlinger,1955 **Sexual Life of Primitive People** Hans Fehlinger,2015-06-12 Excerpt from *Sexual Life of Primitive People* To most lay people the established order of sex relationships and marriage seems something so self evident and stable that they cannot conceive the possibility of a variation in the established order Yet here as in all things the law of evolution applies Our sexual system is the outcome of a long continuous series of changes beginning with the very dawn of human history To understand the modern sex problem rightly it is essential to know its origin and gradual development Most of the material about the sex life of primitive people is inaccessible to the ordinary reader being hidden away in learned treatises and ponderous scientific works The translators are therefore glad to have found in Fehlinger s book a short comprehensive outline of the subject which may serve as a convenient introduction About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
