*Sexual Sites, Seminal Attitudes* Sanjay Srivastava, 2004-03-20 Discussions on sexuality in the South Asian context have tended to focus largely on men's preoccupations through notions such as semen anxiety. Another restrictive framework is the excessive importance ascribed to religion in everyday life. The result has been a rather narrow debate on sexuality. By providing accounts of a myriad sites and meanings of sexuality, this remarkable volume broadens the debate on sexuality in South Asia. It combines perspectives from history, anthropology, and cultural and literary studies to provide an interdisciplinary exploration of the cultures of and the multiple meanings and contestations that gather around masculinities and sexualities. The collection is unique in the breadth of its theoretical concerns, its focus on hitherto marginalized sexual identities, and its novel juxtapositions of analyses of colonial discourses with those of postcolonised modernity. *Sexual Sites, Seminal Attitudes*, 2004. **Sexuality Reimagined** Shailja Tandon, 2023-05-08 The book examines how medical knowledge is produced around bodies that do not fit in the heteronormative framework of the state's rationale and processes. The marginal bodies studied in this research are termed MSM: men who have sex with men, categorized as a high risk group in the backdrop of HIV/AIDS. These Queer bodies entered the registers of epidemiology and governmentality. This classification is the point of departure for the book. The book interrogates and asks how does a sexual subject become a political question? To answer this political trajectory, the book analyses the category of risk in biomedicine. It investigates how the category of risk becomes critical to the Indian state's rationale and policies, wherein through the ambit of health and population, sexuality is managed. Unearthing the sexual politics in South Asia, the book, based on rich empirical evidence derived from the lived experiences of MSM, narrates the construction of sexual subjectivity and masculinity. The process of construction occurs in negotiation with the Indian state, bringing forth the dimension of the Indian state as a medico-legal governmentality regime and how MSM takes on the identity of a medicalized subject.

**Sex Work in Nepal** Lisa Caviglia, 2017-09-05 This book explores sex work in Nepal as a social and analytical category. Narrating stories of those subsumed under such definition, it examines changes as well as continuities characterising socio-cultural norms and perceptions through an analysis of sexual consumption. It also highlights the ways in which the development sector, media, and local community discourses frame sex work as a distinct category. How does the work of development aid projects affect the understanding of the sex worker category? How are visual and media images employed to mark spaces of perdition in the Nepalese urban setting, and what forms of imagination do they

trigger How are intimate practices and relations transformed by imported notions of love and how do standards of propriety related to such interactions shift This book attempts to answer some of these questions An in depth and intimate ethnography the book deconstructs the sex worker category against the backdrop of global influences within local urban surroundings and points to the contradictions therein Furthermore through thorough descriptions of the experiences agency decision making processes and lives of those labelled as sex workers the book challenges concepts such as deviance and victimhood It proposes a counternarrative by rethinking ideas of gender objectification marginality symbolic violence and discrimination This book will greatly interest researchers and scholars in women and gender studies sociology and social anthropology South Asian studies and social sciences as well as NGOs and those involved in the development sector The Erotic in Context ,2020-04-14 This volume was first published by Inter Disciplinary Press in 2010 *Handbook of Postcolonial Archaeology* Jane Lydon,Uzma Z Rizvi,2016-07-01 This essential handbook explores the relationship between the postcolonial critique and the field of archaeology a discipline that developed historically in conjunction with European colonialism and imperialism In aiding the movement to decolonize the profession the contributors to this volume themselves from six continents and many representing indigenous and minority communities and disadvantaged countries suggest strategies to strip archaeological theory and practice of its colonial heritage and create a discipline sensitive to its inherent inequalities Summary articles review the emergence of the discipline of archaeology in conjunction with colonialism critique the colonial legacy evident in continuing archaeological practice around the world identify current trends and chart future directions in postcolonial archaeological research Contributors provide a synthesis of research thought and practice on their topic The articles embrace multiple voices and case study approaches and have consciously aimed to recognize the utility of comparative work and interdisciplinary approaches to understanding the past This is a benchmark volume for the study of the contemporary politics practice and ethics of archaeology Sponsored by the World Archaeological Congress
