Arrabal Ward,2018-07-10 In *Wartime Sexual Violence at the International Level A Legal Perspective* Dr Caterina Arrabal Ward discusses the understanding of wartime sexual violence by the international tribunals and argues that wartime sexual violence often takes place without the explicit purpose to destroy a community or population and is not necessarily a strategic choice This research suggests that a more focused approach based on a much clearer definition of these crimes would help to remedy deficiencies at the different stages of international justice in relation to these crimes

armed conflict and it asks whether the law is capable of reflecting these in subsequent judgements Focusing on the International Criminal Tribunal for the Former Yugoslavia and the International Criminal Tribunal for Rwanda as well as subsequent developments in the International Criminal Court the book shows how the tribunals have delivered landmark jurisprudence in the area of sexual violence against women and provided a legacy for how gender justice is incorporated into international law However Daniela Nadj argues that in the relevant cases there is a tendency to depict women in monolithic fashion with little agency or sense of identity beyond their ethnicity By bringing to the surface the complexity and multifaceted gendered identities in wartime the book calls for a reconceptualisation of notions of femininity in armed conflict

Human Rights Watch a Dose of Reality: Women's Rights in the Fight Against Hiv/aids , **Surviving Sexual Violence** Liz Kelly, 2013-04-26 Women's awareness of the threat and reality of sexual violence is now perhaps more than ever publicly acknowledged Yet this fact continues to be almost wholly ignored This new study based on in depth interviews with 60 women is the first to cover the experience of a range of forms of sexual violence over women's lifetimes Drawing on feminist theory developing a critique of male research and quoting extensively from the women interviewed it develops feminist thought in several key areas the similarities and differences between forms of sexual violence the ways women define their experiences and the strategies women use in resisting coping with and surviving sexual violence The author stresses the importance for all women of recognizing the incidents of sexual violence in their lives and seeing themselves and other women as survivors rather than victims In highlighting the ways in which the media the criminal justice system and even the helping professions contribute to the trivialization of sexual violence she demonstrates the necessity of women organizing collectively to end this suffering New Feminist Stories of Child Sexual Abuse Paula Reavey, Sam Warner, 2003 Child sexual abuse is a multifaceted event interpreted in many different ways in many different contexts In New Feminist Stories of Child Sexual Abuse contributors try to untangle some of the complex ways in which stories of child sexual abuse are translated through and into personal professional and social politics The first section of the book explores the cultural and political landscape of child sexual abuse in Western and non Western contexts It examines the ways in which radical aspects of feminism can be undermined in Western cultures and how Westernised ideologies of childhood sex and gender have been used to structure discussions about child sexual abuse across the world The second section traces the effects of these wider cultural and political narratives through the various contexts in which child sexual abuse is theorised and around which interventions in the lives of women are structured It provides insights into how traditional approaches to understanding harm can be challenged and reworked in practice using alternative therapeutic models based on feminist post structuralist agendas Reworking earlier feminist analyses New Feminist Stories of Child Sexual Abuse asks pertinent questions about how child sexual abuse is produced rather than merely represented in the ways we speak about it
