Equality Angioletta Sperti, 2017-05-04 In the last fifteen years constitutional issues regarding the rights of gays lesbians and same sex couples have emerged on a global scale The pace of recognition of their fundamental rights both at judicial and legislative level has dramatically increased across different jurisdictions reflecting a growing consensus toward sexual orientation equality This book considers a wide range of decisions by constitutional and international courts from the decriminalization of sexual acts to the recognition of same sex marriage and parental rights for same sex couples It discusses analogies and differences in judicial arguments and rationales in such cases focusing in particular on human dignity privacy liberty equality and non discrimination It argues that courts operate as major exporters of models and principles and that judicial cross fertilization also helps courts in increasing the acceptability of gays and lesbians rights in public opinions and politics Courts discuss changes in the social perception of marriage and family at national and international levels and at the same time confirm and reinforce them forging the legal debate over sexual orientation equality Furthermore by promoting the political reception of the achievements of foreign gay movements in their own jurisdictions courts play an essential role in breaking the political stalemate **Reader's Guide to Lesbian and Gay Studies**

Equality in Asia-Pacific Phil C. W. Chan, 2014-02-04 In 1948 the United Nations General Assembly proclaimed the Universal Declaration of Human Rights stating every human being's right of equality in dignity and right However notwithstanding recognition by the international community of its importance and codification in numerous national and sub-national constitutions and legislation reinforced by various multilateral and regional human rights treaties the right of equality continues to be unable to take complete firm hold in all regions and countries Evidence as presented by the insightful papers in this collection published initially as a

Special Double Issue of The International Journal of Human Rights dedicated to exploring the place of equality in Asia Pacific societies suggests that although progress is being made the right of equality has not yet fully materialized both in law and in reality in the world's most populous region. Many factors particularly entrenched cultural heritage and practices, the lingering effects of colonialism and newly found independence and above all pervasive ignorance and prejudices continue to impede the recognition, development and protection of equality in this region. Of course equality a normative right and entitlement by virtue of our humanity has neither been fully achieved in societies outside the region. Such neo colonial thinking in fact perpetuates and assists in the subjugation of the right of equality in the Asia Pacific Region as a matter of relevance and concern only to Western countries. Accordingly we hope that our discussions will also be able to shed light and generate reflections on realities outside the region as interlinked with our aim. The Editor's book fee has been donated to the UNICEF Tsunami Fund. This book was previously published as a special issue of The International Journal of Human Rights.

The Case for Gay Rights David A. J. Richards, 2005. As Americans wrestle with debates over traditional values, defense of marriage and gay rights, reason often seems to take a back seat to emotion. In response, legal scholar Richards reflects upon the constitutional and democratic principles relating to privacy, intimate life, free speech, tolerance and conscience that underpin these often heated debates. The distillation of Richards's thirty year advocacy for the rights of gays and lesbians, his book provides a reflective treatise on basic human rights that touch all of our lives. He places in context two key Supreme Court cases: the 1986 *Bowers v Hardwick* decision and the 2003 *Lawrence v Texas* decision which overturned it. Drawing upon his own experiences as a gay man, Richards interweaves personal observations with philosophical, political, judicial and psychological insights to make a case that gays should be entitled to the same rights and protections that every American enjoys. From publisher description.

Legal Recognition of Same-Sex Partnerships Robert Wintemute, Mads Andenas, 2001-10-23. Should same sex couples be permitted to marry? Or should a separate institution of registered partnership or civil union be created for them? Or should the rights and duties of unmarried different sex couples be extended to them? Should they be allowed to adopt each other's children or jointly adopt an unrelated child? How should they be treated with regard to employment, social security, pensions, housing, immigration, taxation, inheritance and divorce? These questions are being debated around the world as lesbian, gay, bisexual and transgendered persons increasingly but not uniformly insist that they cannot be truly equal without equal treatment for the loving and lasting relationships they form with their partners. In *Legal Recognition of Same Sex Partnerships*, an international team of scholars examines both theoretical issues and the wide variety of legal developments in the United States, Canada, Brazil, thirteen European countries, Israel, South Africa, India, Japan, China, Australia and New Zealand, as well as under European Community and European Convention law and United Nations human rights law.
