Langston Hughes Muriel Rukeyser and Jacques Roumain and uncovering the contributions of lesser known writers such as Genevieve Taggard and Martha Millet Ehlers illuminates an aesthetically and geographically diverse matrix of schools and movements Resisting the dismissal of thirties left writing as mere propaganda the book reveals how communist affiliated poets experimented with poetic modes such as lyric and documentary and genres including songs ballads and nursery rhymes in ways that challenged existing frameworks for understanding the relationships among poetic form political commitment and historical transformation As Ehlers shows Depression left movements and their international connections are crucial for understanding both the history of modern poetry and the role of poetic thought in conceptualizing historical change
