## Shadow Makers:

**Shadow-Makers** Stephen Kite,2017-10-19 The making of shadows is an act as old as architecture itself From the gloom of the medieval hearth through to the masterworks of modernism shadows have been an essential yet neglected presence in architectural history *Shadow Makers* tells for the first time the history of shadows in architecture It weaves together a rich narrative combining close readings of significant buildings both ancient and modern with architectural theory and art history to reveal the key places and moments where shadows shaped architecture in distinctive and dynamic ways It shows how shadows are used as an architectural instrument of form composition and visual effect while also exploring the deeper cultural context tracing differing conceptions of their meaning and symbolism whether as places of refuge devotion terror occult practice sublime experience or as metaphors of the unconscious Within a chronological framework encompassing medieval baroque enlightenment sublime picturesque and modernist movements a wide range of topics are explored from Hawksmoor s London churches Japanese temple complexes and the shade patterns of Islamic cities to Ruskin in Venice and Aldo Rossi and Louis Kahn in the 20th century This beautifully illustrated study seeks to understand the work of these shadow makers through their drawings their writings and through the masterpieces they built **Eternal Shadows or Shadow Makers** Fr. Steve Peterson OSJ,2012-07 Everything in the solar system casts a shadow except the sun All living beings are born live and die with their shadow But unlike other creatures man can choose to rise above his shadow and reach for something greater In *Beyond the Shadows* Fr Peterson s childhood longing to fly becomes a prayer that leads him on a spiritual journey to transcend fear and darkness guided by the only source without a shadow God *The Word* ,1916 *My Book of Indoor Games* Clarence Squareman,2022-05-28 The book is full of great ideas about amusing children and adults indoors in stormy and cold evenings It offers funny fascinating and little known games that were played by our grandparents in their childhood and remains attractive to a contemporary reader today **Indoor Games For Awkward Moments** Ruth Blakely,2016-12-21 The object of this volume is to try and lessen the number of dreadful pauses which so many hostesses have experienced with their guests when no one had courage enough to propose a new game or had foresight enough to come prepared with a mental list of games that have a right good swing to them This collection will suffice as a background for working purposes and while many of them may be familiar at the same time one does not always think of them readily and will welcome these as a friend in need The games under the heading Competitions need preparing in advance as they cannot be rushed at the last minute It is as well to decide before sending out the invitations what is to be the principal game of the evening and then write it on the invitation card An Evening with Kate will arouse the curiosity of those who do not know the games and make them all the more anxious to come and find out *Recreation* ,1928 *MY BOOKS OF INDOOR GAMES* CLARENCE SQUAREMAN,1916 *The Word* Harold W. Percival,1916 *The Playground* ,1928 **Shadow** Simon Unwin,2020-02-18 Each of these *Analysing Architecture Notebooks* is devoted to a particular theme in understanding the

rich and varied workings of architecture They can be thought of as addenda to the foundation volume *Analysing Architecture* which first appeared in 1997 and has subsequently been enlarged in three further editions Examining these extra themes as a series of Notebooks rather than as additional chapters in future editions allows greater space for more detailed exploration of a wider variety of examples whilst avoiding the risk of the original book becoming unwieldy Shadows may be insubstantial but they are nevertheless an important element in architecture In prehistoric times we sought shade as a refuge from the hot sun and chilling rain Through history architects have used shadows to draw to mould form to paint pictures to orchestrate atmosphere to indicate the passing of time as well as to identify place Sometimes shadow can be the substance of architecture

*The Games Book for Boys and Girls*, 1906      **Atmosphere, Architecture, Cinema** Michael Tawa, 2022-12-05 *Atmosphere Cinema Architecture Thematic Reflections on Ambiance and Place* explores cinema and architecture as ambient and affective settings or circumstances that can enable the emergence of atmosphere This book is an interdisciplinary reading of cinematographic practice which develops useful implications for spatial composition in art and architectural design The way a film is set up directed composed framed and technically constructed can provide parallels analogies and metaphors for the spatial organisation of cities landscapes and buildings Likewise the way a built setting is conceived and devised can inform approaches to framing and spatial organisation in cinematography The book begins on a personal note with a series of recollected atmospheric experiences leading to an investigation of ambiguity and consilient discrepancy as circumstantial conditions necessary for the production of atmosphere The mood of melancholia is explored to show the pivotal role that ambiguity discrepancy and irresolution play in its distinctive ambiance Atmosphere is then defined as an emergent condition arising between an ambient affective circumstance and a mooded human being The book then moves to analyse the inherent conditions in the setup of filmic and architectural settings that render them atmospheric Reference is made to the cinema of Bresson Resnais Lynch Tarr Malik and Campion and to Romanesque tympanae the architectonic scenography of Franz Kafka's novel *The Castle* and the work of Spanish architects Flores Prats The concluding section *Anatomy of Atmosphere* is a lexicon of concepts themes and tactics around atmosphere that might usefully inform creative practice
