combining traditional shadow techniques with normal acting to create full bodied mainstream plays These plays do not use shadow puppetry type techniques that need people contorting themselves however wonderfully to form shapes but rather normal acting prowess together and usual props of mainstream theatre with the new back lighting technologies The result is plays which are realistic and yet overlain with the imaginative fantasies that figure theatre can bring in a fallow area lying between mime and conventional stage plays a rediscovered form of a modern staging that crosses between live and shadow effect whether in workshopping for all ages and group size or for professional productions Shadow plays comprise the theatre landscape for live actors re skilled to jump from behind the screen one dimensional acting to front of the screen three dimensional acting at any moment of the play They allow a new and exciting way of presenting the combination of the real and the surreal in ways that offer broadened audience and student experiences under the master of storytelling of a shadow teller together with the master of pacing of a mobile light spotter
