Shakespeare in Cuba Donna Woodford-Gormley, 2022-01-04 Shakespeare in Cuba Caliban's Books explores how Shakespeare is consumed and appropriated in Cuba. It contributes to the underrepresented field of Latin American Shakespeares by applying the lens of cultural anthropophagy, a theory with Latin American roots to explore how Cuban artists ingest and transform Shakespeare's plays. By consuming these works and incorporating them into Cuban culture and literature, Cuban writers make the plays their own while also nourishing the source texts and giving Shakespeare a new afterlife.

Shakespeare in Catalan Helena Buffery, 2007 This is not just another book about Shakespeare. While it does reveal the existence of yet another alternative Shakespeare, it also takes the legendary man of letters beyond English-speaking shores in order to illustrate the diverse effects of translation in creating and deciding the afterlives of canonical texts. By focusing on a minority language spoken by 6.5 million speakers yet still only partially recognized by the Spanish government, Shakespeare in Catalan tells us a story of the Bard as both a counter-imperialist deployed against colonial domination and a universal imperialist used to wield cultural authority.

Una base para la filosofía y la educación / A Primer for Philosophy and Education Samuel D. Rocha, 2019-10-25 Este libro ofrece un curriculum para una enseñanza introductoria a la filosofía de la educación. Situado en las humanidades, las reflexiones y ejercicios aquí propuestos asumen la ofrenda de su enseñanza como una filosofía pastoral, la noción de que la filosofía cumple en sí misma un rol educativo.

Nuestro sistema solar y su lugar en el cosmos Stuart Ross Taylor, 2000-09-21 Esta obra escrita por un destacado científico planetario expone la curiosa formación del Sistema Solar y describe de manera concisa y rigurosa los conocimientos más recientes acerca de la Tierra, los planetas vecinos y otros sistemas planetarios. En un recorrido vertiginoso se irá descubriendo cómo el surgimiento del gigantesco Jupiter dominó el Sistema Solar, se conocerán las causas que convirtieron Marte en un mundo tan pequeño del que provienen los cometas, cómo se forman anillos alrededor de los planetas por que existen los asteroides y que impide considerar Plutón como un auténtico planeta, además de las diferencias que presentan los mundos gemelos Venus y la Tierra y a qué se debe la exclusividad de la Luna y Mercurio. A lo largo de estas páginas se sabrá que la evolución del Sistema Solar ha dependido de una serie de acontecimientos aleatorios. Por último se consideran las condiciones que reúne la Tierra para albergar vida si residimos en un universo hecho a medida y cómo son otros sistemas planetarios.

The Author's Hand and the Printer's Mind Roger Chartier, 2013-11-18 In Early Modern Europe the first readers of a book were not those who bought it. They were the scribes who copied the author's or translator's manuscript, the censors who licensed it, the publisher who decided to put this title in his catalogue, the copy editor who prepared the text for the press, divided it and added punctuation, the typesetters who composed the pages of the book, and the proof reader who corrected them. The author's hand cannot be separated from the printer's mind. This book is devoted to the process of publication of the works that

framed their readers representations of the past or of the world Linking cultural history textual criticism and bibliographical studies dealing with canonical works like Cervantes Don Quixote or Shakespeare s plays as well as lesser known texts Roger Chartier identifies the fundamental discontinuities that transformed the circulation of the written word between the invention of printing and the definition three centuries later of what we call literature
