Introduction div **Venetian Ships and Shipbuilders of the Renaissance** Frederic Chapin Lane,2018-12-01

ORIGINALLY published in 1934 this major study by Frederic Lane tracks the rise and decline of the great shipbuilding industry of Renaissance Venice Drawing on a wealth of archival sources Lane presents detailed descriptions of the Venetian arsenal including the great galleys that doubled as cargo ships and warships the sixteenth century round ships which introduced dramatic innovations in rigging and were less vulnerable to attack than the galleys and the majestic galleons whose straight lines and greater speed made them ideal for merchantmen but whose narrowness made them liable to capsize if loaded with artillery Lane also includes vivid accounts of the rivalries between the famous shipbuilders of the period There was the impassioned competition between Leonardo Bressan and Marco Francesco Rosso to design the quickest lightest galley a contest that Bressan won when Rosso was crushed to death the race between Vettor Fausto and Matteo Bressan to build the best galleon for use against pirates and the rivalry between Bernardo di Bernardo and Nicol Palopano to be the master builder of great merchant galleys Additional chapters detail the actual process of ship construction from the design stage to framing and ribbing the hull to building the rigging the organization and activity of the shipbuilders craft guilds and the various private shipyards and the development and management of the Arsenal Tables and appendixes detail the types measurements number and capacity of the ships as well as the wages of the shipbuilders **A Short History of the Sailing**

Ship Romola Anderson,R. C. Anderson,2012-06-11 Amply illustrated book traces evolution of the sailing ship over the course of 6 000 years from vessels of ancient Egypt to full rigged clipper ships of the 19th century 20 halftones and 134 figures

The Art and Archaeology of Venetian Ships and Boats Lillian Ray Martin,2001 Presents a brief history of Venetian art and then catalogues each known piece of Venetian art that depicts watercraft Through detailed analysis of these images the author reveals important facts about the construction rigging and use of these watercraft **The Edinburgh Review**

Or Critical Journal ,1804 The Edinburgh Review ,1804 The Edinburgh Review, Or Critical Journal: ... To Be Continued Quarterly ,1804 *A Brief History of Venice* Elizabeth Horodowich,2013-02-07 In this colourful new history of

Venice Elizabeth Horodowich one of the leading experts on Venice tells the story of the place from its ancient origins and its early days as a multicultural trading city where Christians Jews and Muslims lived together at the crossroads between East and West She explores the often overlooked role of Venice alongside Florence and Rome as one of the principal Renaissance capitals Now as the resident population falls and the number of tourists grows as brash new advertisements disfigure the ancient buildings she looks at the threat from the rising water level and the future of one of the great wonders of the world
