The Civil engineer & [and] architect's journal ,1851 *The Future of Modular Architecture* David Wallance,2021-04-07 The Future of Modular Architecture presents an unprecedented proposal for mass customized mid and high rise modular housing that can be manufactured and distributed on a global scale Advocating for the adoption of open source design based on a new modular standard the book shows how the construction industry and architectural practice may soon be radically reshaped By leveraging the existing intermodal freight transport system global supply chains can be harnessed to realize the long held promise that housing will be a well designed and affordable industrial product We are on the cusp of a transformative change in the way we design and build our cities Author David Wallance argues that modular architecture is profoundly intertwined with globalization equitable urbanism and sustainable development His book addresses these timely issues through a specific approach grounded in fundamental concepts Going beyond the individual modular building Wallance forecasts the emergence of a new type of design manufacturing and construction enterprise Written in an approachable style with illustrated examples the book is a must read for professionals in architecture and design city planning construction real estate as well as the general reader with an interest in these topics

Women, Practice, Architecture Naomi Stead,2016-01-08 The image of the architect is undeniably gendered While the male architect might be celebrated as the ideal man in Hollywood romantic comedies blessed with practicality and creativity in equal measure to impeccable taste and an enviable lifestyle the image of the woman architect is not so clear cut While women have been practicing and excelling in architecture for more than a hundred years their professional identity as constructed in the media is complex and sometimes contradictory This book explores the working lives and aspirations of women in architectural practice but more than this it explores how popular media newspapers magazines and websites serve to define and describe who a woman architect should be what she should look like and how she should behave Looking further into the way that professional characteristics are reinforced through awards like the Pritzker Prize the book demonstrates how idealised characteristics such as sensitivity and vision are seen to be neither entirely masculine nor feminine but instead a complex hybrid owing much to historic concepts of genius Drawing on history sociology media analysis and feminist theories of architectural practice the book will be of interest to all of those who seek to

better understand the image and identity of the architect This book was published as a double special issue of Architectural Theory Review *Journal of the Royal Institute of British Architects* ,1926
