Lucifer, 1890 *Theosophy* René Guénon, 2004 Since the late nineteenth century the Theosophical Society has been a central force in the movement now known as the New Age Just as the Communist Party was considered old hat by peace activists in the 60s so the Theosophical Society was looked upon by many in the spiritual revolution of those years as cranky uninteresting and pass But the Society like the Party was always there and despite its relatively few members always better organized than anybody else Since then the Society's influence has certainly not waned It plays an important role in today's global interfaith movement and since the flowering of the New Age in the 70s has established increasingly intimate ties with the global elites And its various spinoffs such as Elizabeth Clare Prophet's Summit Lighthouse and Benjamin Creme's continuing attempt to lead a World Teacher Maitreya onto the global stage just as the Society tried to do in the last century with Krishnamurti continue to send waves through the sea of alternative spiritualities Guénon shows how our popular ideas of karma and reincarnation actually owe more to Theosophy than to Hinduism or Buddhism provides a clear picture of the charlatanry that was sometimes a part of the Society's modus operandi and gives the early history of the Society's bid for political power particularly its role as an agent of British imperialism in India It is fitting that this work should finally appear in English just at this moment when the influence of pseudo esoteric spiritualities on global politics is probably greater than ever before in Western history *Lucifer*, 1894-03 **Masters of the Ninth Art** Matthew Screech, 2005-01-01 In English speaking countries Francophone comic strips like Hergé's *Les Aventures de Tin Tin* and Goscinny and Uderzo's *Les Aventures d'Asterix* are viewed and marketed as children's literature But in Belgium and France their respective countries of origin such strips known as *bandes dessinées* are considered a genuine art form or more specifically the ninth art But what accounts for the drastic difference in the way such comics are received In *Masters of the Ninth Art* Matthew Screech explores that difference in the reception and reputation of *bandes dessinées* Along with in depth looks at *Tin Tin* and *Asterix* Screech considers other major comics artists such as Jacques Tardi Jean Giraud and Moebius assessing in the process their role in Francophone literary and artistic culture Illustrated with images from the artists discussed *Masters of the Ninth Art* will appeal to students of European popular culture literature and graphic art **Imagining the East** Erik Reenberg Sand, Tim Rudbørg, 2020 The essays in *Imagining the East* explore how Theosophists during the formative period imagined the religions and cultures of the East The authors examine the relationship of such representations to orientalism the history of ideas politics and culture at large and discuss how these esoteric or theosophical representations mirrored conditions and values current in nineteenth century mainstream intellectual culture The essays also look at how the early Theosophical Society's representations of the East differed from mainstream orientalism and how the Theosophical Society's mission in India was distinct from that of British colonialism and Christian missionaries **The Clear Line in Comics and Cinema** David Pinho Barros, 2022-06-30 Historical and theoretical analysis of the clear line style in comics and cinema The clear line a

term coined in 1977 by Dutch essayist and artist Joost Swarte has become shorthand in the field of comics studies for the style originally developed by Hergé and the *cole de Bruxelles*. It refers to certain storytelling strategies that generate a deceptively simple, lucid and hygienic narration. In Philippe Marion's words, it is a style made out of light fluidity and limpid clarity. By cataloguing and critically analysing clear line comics from historical and theoretical perspectives, this book offers a new outlook on the development of the style in the 20th and 21st centuries, especially focused on the context of the European *bande dessinée*. In addition, it pioneeringly expands the concept of clear line to other artistic domains by introducing and defending its transmedial use, which is particularly relevant for the understanding of the oeuvres of certain filmmakers of the 20th century working in the postwar period, such as Yasujiro Ozu in Japan, Jacques Tati in France and Frank Tashlin in the United States. *The Clear Line in Comics and Cinema* is therefore a key theoretical work for both *bande dessinée* enthusiasts and comics scholars, as well as a fundamental contribution to present-day film studies and transmedial narratology.

[The Symbolism of Paul Gauguin](#) Henri Dorra, 2007-02-20 Modern Gauguin studies complex interpretations of the works based on the identification of the artist's sources in ancient sacred art from around the world began in the early 1950s with the pioneering research of Bernard Dorival and Henri Dorra. *The Symbolism of Paul Gauguin: Erotica, Exotica and the Great Dilemmas of Humanity* Dorra's ultimate meditation on the art of Gauguin constitutes a milestone in the history of Post-Impressionism.

Like a Tree Universally Spread Keith Edward Cantú, 2023 This book reconstructs the tantalizing tale of Sri Sabhapati Swami, ca. 1828-1923/4, today a little-known swami who was originally from Tamil Nadu in southern India and historically contextualizes a fascinating type of yoga that Sabhapati claimed would lead to an experience of being like a tree universally spread. The practical method of having this experience in technical terms called the *samadhi* or composure of *sivarajayoga* or the Royal yoga for Siva was published in English and multiple Indic languages and lavishly illustrated in diagrams on subtle and physical bodies. This book is the first book-length treatment on Sabhapati Swami, scholarly or otherwise, and uses critically edited sources printed in Tamil, Devanagari and Bengali scripts to reveal the expansion of his literature across South Asia and globally, the vast majority of which has never before been considered in any scholarly work to date. The book shows how

intertwined Sabhapati's yoga is with historical Tamil Saiva and Siddha movements including the mythos of the rishi Agastya and also with Hathayoga and mantra based ritual. It also takes into account his and his followers wrestling with the Victorian scientific worldview and their rationalization of Hindu philosophical discourses in the colonial period. Finally, the book demonstrates the extent to which Sabhapati's teachings were integrated into esoteric religious movements such as the Theosophical Society, the Thelema of Aleister Crowley and New Thought and suggests that a reappraisal of scholarship on the roots of yoga in these movements is long overdue.

Utopia David Ayers, Benedikt Hjärtarson, Tomi Huttunen, Harri Veivo, 2015-12-14 Utopian hope and dystopian despair are characteristic features of modernism, and the avant-garde. Readings of the avant-garde have frequently sought to identify utopian moments coded in its works and activities as optimistic signs of a possible future social life or as the attempt to preserve hope against the closure of an emergent dystopian present. The fourth volume of the EAM series *European Avant-Garde and Modernism Studies* casts light on the history, theory, and actuality of the utopian and dystopian strands which run through European modernism and the avant-garde from the late 19th to the 21st century. The book's varied and carefully selected contributions, written by experts from around 20 countries, seek to answer such questions as: how have modernism and the avant-garde responded to historical circumstance in mapping the form of possible futures for humanity? how have avant-garde and modernist works presented ideals of living as alternatives to the present? how have avant-gardists acted with or against the state to remodel human life or to resist the instrumental reduction of life by administration and industrialisation?

Borderland William Thomas Stead, 1897 The Comics of Hergé Joe Sutcliffe Sanders, 2016-07-28 Contributions by J. Nathan Miranda, de Arajo, Guillaume de Syon, Hugo Frey, Kenan Kök, Andrei Molotiu, Annick Pellegrin, Benjamin Picado, Vanessa Meikle, Schulman, Matthew Screech, and Gwen Athene Tarbox. As the creator of Tintin, Hergé (1907–1983) remains one of the most important and influential figures in the history of comics. When Hergé was born, Georges Prosper Remi, in Belgium,

emerged from the controversy surrounding his actions after World War II his most famous work leapt to international fame and set the standard for European comics While his style popularized what became known as the clear line in cartooning this edited volume shows how his life and art turned out much more complicated than his method The book opens with Herg's aesthetic techniques including analyses of his efforts to comprehend and represent absence and the rhythm of mundaneness between panels of action Broad views of his career describe how Herg navigated changing ideas of air travel while precise accounts of his life during Nazi occupation explain how the demands of the occupied press transformed his understanding of what a comics page could do The next section considers a subject with which Herg was himself consumed the fraught lines between high and low art By reading the late masterpieces of the Tintin series these chapters situate his artistic legacy A final section considers how the clear line style has been reinterpreted around the world from contemporary Francophone writers to a Chinese American cartoonist and on to Turkey where Tintin has been reinvented into something meaningful to an audience Herg probably never anticipated Despite the attention already devoted to Herg no multi author critical treatment of his work exists in English the majority of the scholarship being in French With contributors from five continents drawing on a variety of critical methods this volume's range will shape the study of Herg for many years to come

[The Arab of the Future 2](#) Riad Sattouf, 2016-09-20 In striking virtuoso graphic style that captures both the immediacy of childhood and the fervor of political idealism Riad Sattouf recounts his nomadic childhood growing up in rural France Gaddafi's Libya and Assad's Syria but always under the roof of his father a Syrian Pan Arabist who drags his family along in his pursuit of grandiose dreams for the Arab nation Riad delicate and wide eyed follows in the trail of his mismatched parents his mother a bookish French student is as modest as his father is flamboyant Venturing first to the Great Socialist People's Libyan Arab State and then joining the family tribe in Homs Syria they hold fast to the vision of the paradise that always lies just around the corner And hold they do though food is scarce children kill dogs for sport and with locks banned the Sattoufs come home one day to discover another family occupying their apartment The ultimate outsider Riad with his flowing blond hair is called the ultimate insult Jewish And in no time at all his father has come up with yet another grand plan moving from building a new people to building his own great palace Brimming with life and dark humor The Arab of the Future reveals the truth and texture of one eccentric family in an absurd Middle East and also introduces a master cartoonist in a work destined to stand alongside Maus and Persepolis

From Art Nouveau to Surrealism Nathalie Aubert, Pierre-Philippe Fraiture, Patrick McGuinness, 2007 This book explores an artistic culture which produces the unclassifiable as a rule It presents Belgian artistic culture from the 1890s to the 1940s The book examines the theme of doubleness and reflection in Belgian Symbolism
