Farewell. Seraphita. Louis Lambert. Gambara* Honoré de Balzac,1982 **Literary Medicine: Brain Disease and Doctors in Novels, Theater, and Film** J., Bogousslavsky,S., Dieguez,2013-02-21 Classical and modern literature is full of patients with interesting neurological cognitive or psychiatric diseases often including detailed and accurate descriptions which suggests the authors were inspired by observations of real people In many cases these literary portrayals of diseases even predate their formal identification by medical science Fictional literature encompasses nearly all kinds of disorders affecting the nervous system with certain favorites such as memory loss and behavioral syndromes There are even unique observations that cannot be found in scientific and clinical literature because of the lack of appropriate studies Not only does literature offer a creative and humane look at disorders of the brain and mind but just as authors have been inspired by medicine and real disorders clinicians have also gained knowledge from literary depictions of the disorders they encounter in their daily practice This book provides an amazing and fascinating look at neurological conditions patients and doctors in literature and film in a way which is both nostalgic and novel *The Dream of an Absolute Language* Lynn R. Balzac,1892 **The Poetics of Death** Beatrice Martina Guenther,1996-07-12 Traditionally the act of writing constitutes a challenge to the finality of death Yet writing as a subject for literary texts has its own tradition of imagery whose rhetoric is associated with loss rather than immortality The limit of death seems to force a more explicit analysis of the process of writing Writers consider the impact of their work on their readers or re articulate the link between the written text and the subject it is meant to represent Each writer constructs a subversive text The conjunction of writing and death besides highlighting or demystifying the creative act leads in each case to a decidedly critical stance Guenther examines how Kleist s and Balzac s representations of death bring with them a critical awareness that calls attention to the historical context in which the texts are produced *Index--summarized Wind Data* Michael J.
