Love in the Time of Self-Publishing Christine M. Larson, 2025-09-16 Lessons in creative labor solidarity and inclusion under precarious economic conditions As writers musicians online content creators and other independent workers fight for better labor terms romance authors offer a powerful example and a cautionary tale about self organization and mutual aid in the digital economy In *Love in the Time of Self Publishing* Christine Larson traces the forty year history of Romancelandia a sprawling network of romance authors readers editors and others who formed a unique community based on openness and collective support Empowered by solidarity American romance writers once disparaged literary outcasts became digital publishing s most innovative and successful authors Meanwhile a new surge of social media activism called attention to Romancelandia s historic exclusion of romance authors of color and LGBTQ writers forcing a long overdue cultural reckoning Drawing on the largest known survey of any literary genre as well as interviews and archival research Larson shows how romance writers became the only authors in America to make money from the rise of ebooks increasing their median income by 73 percent while other authors plunged by 40 percent The success of romance writers Larson argues demonstrates the power of alternative forms of organizing influenced by gendered working patterns It also shows how networks of relationships can amplify or mute certain voices Romancelandia s experience Larson says offers

crucial lessons about solidarity for creators and other isolated workers in an increasingly risky employment world

Romancelandia's rise and near meltdown shows that gaining fair treatment from platforms depends on creator solidarity but creator solidarity in turn depends on fair treatment of all members *Sex, Love, and Migration* Alexia Bloch, 2017-12-15 *Sex Love and Migration* goes beyond a common narrative of women's exploitation as a feature of migration in the early twenty-first century a story that features young women from poor countries who cross borders to work in low paid and often intimate labor Alexia Bloch argues that the mobility of women is marked not only by risks but also by personal and social transformation as migration fundamentally reshapes women's emotional worlds and aspirations Bloch documents how as women have crossed borders between the former Soviet Union and Turkey since the early 1990s they have forged new forms of intimacy in their households in Moldova Ukraine Belarus and Russia but also in Istanbul where they often work for years on end *Sex Love and Migration* takes as its subject the lives of post Soviet migrant women employed in three distinct spheres sex work the garment trade and domestic work Bloch challenges us to decouple images of women on the move from simple assumptions about danger victimization and trafficking She redirects our attention to the aspirations and lives of women who despite myriad impediments move between global capitalist centers and their home communities [Positive Psychology at the Movies](#) Ryan M Niemiec, Danny Wedding, 2013-01-01 For educators practitioners researchers and everyone striving for personal growth and a fulfilling life This completely revised edition of a classic in the field provides a unique way to learn about positive psychology and what is right and best about human beings *Positive Psychology at the Movies* now reviews nearly 1 500 movies includes dozens of evocative film images and is replete with practical aids to learning Positive psychology is one of the most important modern developments in psychology Films brilliantly illustrate character strengths and other positive psychology concepts and inspire new ways of thinking about human potential *Positive Psychology at the Movies* uses movies to introduce the latest research practices and concepts in this field of psychology This book systematically discusses each of the 24 character strengths balancing film discussion related psychological research and practical applications Practical resources include a syllabus for a positive psychology course using movies films suitable for children adolescents and families and questions likely to inspire classroom and therapy discussions *Positive Psychology at the Movies* was written for educators students practitioners and researchers but anyone who loves movies and wants to change his or her life will find it inspiring and relevant Watching the movies recommended in this book will help the reader practice the skill of strengths spotting in themselves and others and support personal growth and self improvement Read this book to learn more about positive psychology and watch these films to become a better person **International Handbook of Love** Claude-Hélène Mayer, Elisabeth Vanderheiden, 2021-05-04 This handbook is the winner of the William B Gudykunst Award for Outstanding Book in 2023 given by the International Academy of Intercultural Research This handbook includes state of the art research on love in classical modern and postmodern perspectives It expands on previous literature and

explores topics around love from new cultural intercultural and transcultural approaches and across disciplines It provides insights into various love concepts like romantic love agape and eros in their cultural embeddedness and their changes and developments in specific cultural contexts It also includes discussions on postmodern aspects with regard to love and love relationships such as digitalisation globalisation and the fourth industrial revolution The handbook covers a vast range of topics in relation to love aging health special needs sexual preferences spiritual practice subcultures family and other relationships and so on The chapters look at love not only in terms of the universal concept and in private intimate relationships but apply a broad concept of love which can also for example be referred to in postmodern workplaces This volume is of interest to a wide readership including researchers practitioners and students of the social sciences humanities and behavioural sciences In the 1970s through the 90s I was told that globalization was homogenizing cultures into a worldwide monoculture This volume as risky and profound as the many adventures of love across our multiplying cultures are proves otherwise The authors revolutionary and courageous work will challenge our sensibilities and expand the boundaries of what we understand what love is But that s what love does It communicates what is offers what can be and pleads for what must be I know you ll enjoy this wonderful book as much as I do Jeffrey Ady Associate Professor retired Public Administration Program University of Hawaii at Manoa Founding Fellow International Academy for Intercultural Research The International Handbook of Love is far more than a traditional compendium It is a breath taking attempt to synthesize our anthropological and sociological knowledge on love It illuminates topics as diverse as Chinese love one night stands teen romance or love of leaders and many more This is a definitive reference in the field of love studies Eva Illouz author of The End of Love A sociology of Negative relationships Oxford University Press This is not a volume to be read in a single sitting though I almost did due to a protracted hospital stay nor is it romantic or inspirational reading though in some cases I had hoped for more narrative examples and case studies Rather it is a highly diverse scholarly effort a massive resource collection of research papers on love in a variety of contexts personal and professional settings and cultures The work is well referenced providing a large number of resources for deeper exploration We owe our thanks to the authors and editors of this handbook for work well done though that word in the title should not lead readers to suspect that enlightening as it is this book is a vade mecum or practical tour guide that provides ready solutions to the vicissitudes and challenges of our love lives Reviewed by Dr George F Simons on amazon com Please see Claude H l ne Mayer s interview related to the handbook in LeanHealth Talks published by Bernadette Bruckner <https://www.youtube.com/watch?v=yVNXA9sWuWo> Please see Claude H l ne Mayer s interview related to the handbook published In Iran News Daily <https://newspaper.irandaily.ir/nid/6941/pid/6?type=0>

Novelistic Love in the Platonic Tradition Jennie Wang, 1997 The love story is an integral part of many novels What is its narrative status How does it function and why In this original study of Socratic love stories from Plato through Fielding and Faulkner to the Postmodernists Jennie Wang proposes a new narrative theory in the study of the novel which

deconstructs the mimesis of love stories and reconstructs their historicity Wang claims that in the Platonic tradition the construction of love stories is often a dramatization of the author's historical vision philosophical speculations cultural criticism or political ideology Novelistic love functions as a literary medium a power of free speech that enables the novelist to speak unspeakable truths and include excluded subjects Wang's work will be of interest to both philosophers and scholars of American literature and postmodernism
