Sustainable Land Management in a European Context Thomas Weith, Tim Barkmann, Nadin Gaasch, Sebastian Rogga, Christian Strauß, Jana Zscheischler, 2020-08-28 This open access book presents and discusses current issues and innovative solution approaches for land management in a European context. Manifold sustainability issues are closely interconnected with land use practices. Throughout the world we face increasing conflict over the use of land as well as competition for land. Drawing on experience in sustainable land management gained from seven years of the FONA programme Research for Sustainable Development conducted under the auspices of the German Federal Ministry of Education and Research, the book stresses and highlights co design processes within the co creation of knowledge involving collaboration in transdisciplinary research processes between academia and other stakeholders. The book begins with an overview of the current state of land use practices and the subsequent need to manage land resources more sustainably. New system solutions and governance approaches in sustainable land management are presented from a European perspective on land use. The volume also addresses how to use new modes of knowledge transfer between science and practice. New perspectives in sustainable land management and methods of combining knowledge and action are presented to a broad readership in land system sciences and environmental sciences, social sciences and geosciences. This book received the Gerd Albers Award. The prize is awarded by the International Society of City and Regional Planners ISOCARP.

Marianne Werefkin and the Women Artists in Her Circle, 2016-11-21

Marianne Werefkin and the Women Artists in Her Circle traces the relationships between the modernist artists in Werefkin's circle including Erma Bossi, Elisabeth Epstein, Natalia Goncharova, Elizaveta Kruglikova, Else Lasker-Schüler, Marta Liepińska, Skulme Elena Luksch-Makowsky and Maria Marc. The book demonstrates that their interactions were dominated not primarily by national ties but rather by their artistic ideas, intellectual convictions and gender roles. It offers an analysis of the various artistic scenes, the places of exchange and the artists' sources of inspiration. Specifically focusing on issues of cosmopolitan culture, transcultural dialogue, gender roles and the building of new artistic networks, the collection of essays re-evaluates the contributions of these artists to the development of modern art.
