WORLD BANK: PROMOTING CAPACITY DEVELOPMENT SHIQING XIE, 2020-11-27 The book China and the World Bank Promoting Capacity Development summarizes the experience of China s capacity development under the support of the World Bank through the detailed analysis of China s 50 loan projects Professor Yifu Lin former chief economist and senior vice president of the World Bank wrote the foreword of the book And he recommends the book as filling the gap of the research field in China s capacity development under the help of the World Bank Capacity development usually refers to a dynamic and perfecting process that the recipient countries public sectors allocate and use available resources for promoting the development capacity to achieve the expected goals of economic and social development in a more effective efficient appropriate and sustainable way This book is divided into five parts the first part is economic management and system reform which discusses the experience of capacity development in economic reform finance taxation and industry sectors the second part is poverty alleviation and rural development which analyzes the experience of capacity development in poverty alleviation and development agricultural comprehensive development and rural water supply and environmental sanitation the third part is infrastructure which refines water conservancy and hydropower experience in capacity development of expressways and urban transportation The fourth part is human development which describes the experience of capacity development of basic education and medical health The fifth part is environmental protection summarizing the experience of environmental management and urban water industry capacity development *The Digital Transformation of Banking* Bilal Sucubaşı, Andrijana Bojadzievska Danevska, Savica Dimitrieska, Elena Parnardzieva Stanoevska, 2025-08-28 The banking sector is evolving rapidly due to technological advancements regulatory changes and shifting customer expectations This

book addresses these changes by comprehensively analysing key areas where technology intersects with banking. It provides a detailed and insightful examination of how technological advances have historically impacted and continue to shape the banking sector. It offers an up to date analysis of emerging trends such as Central Bank Digital Currencies (CBDCs) and artificial intelligence (AI) helping stakeholders make informed decisions. It presents practical insights and strategies for bank marketing and risk management in the contemporary environment. Further, it underscores current and future trends and highlights the opportunities, ethical considerations and challenges when banking and advanced technology meet. The book employs frameworks and models applicable across multiple disciplines, for example, using risk management frameworks that incorporate both financial and technological risks, making the analysis more holistic. By engaging with a wide range of stakeholders, including reports from policymakers, financial institutions, consultancies and technology providers, the research addresses practical concerns and is grounded in real world challenges and opportunities. Finally, the use of case studies from different countries and industries provides practical examples that illustrate how interdisciplinary concepts are applied in real world scenarios. This method helps bridge theoretical knowledge with practical applications. The book proposes specific policy recommendations based on the analysis of CBDCs and risk management practices, and the research findings and insights contained in it are accessible and actionable for a broad audience, including academics, researchers and students as well as policymakers, financial institutions and technology providers.

The Routledge Companion to Financial Services Marketing Tina Harrison, Hooman Estelami, 2014-12-05 Interest in Financial Services Marketing has grown hugely over the last few decades, particularly since the financial crisis which scarred the industry and its relationship with customers. It reflects the importance of the financial services industry to the economies of every nation and the realisation that the consumption and marketing of financial services differs from that of tangible goods and indeed many other intangible services. This book is therefore a timely and much needed comprehensive compendium that reflects the development and maturation of the research domain and pulls together in a single volume the current state of thinking and debate. The events associated with the financial crisis have highlighted that there is a need for banks and other financial institutions to understand how to rebuild trust and confidence, improve relationships and derive value from the marketing process. Edited by an international team of experts, this book will provide the latest thinking on how to manage such challenges and will be vital reading for students and lecturers in financial services marketing, policy makers and practitioners.
