Myths And Mysteries Of Same Sex Love:

Myths and Mysteries of Same-Sex Love Christine Downing, 2006 Myths and Mysteries of Same Sex Love makes a powerful statement about the realities of gay and lesbian psyche A gay and lesbian psychic perspective may at first be startling but once examined it proves to be unforgettable The Advocate **Same-Sex Love** Robert H. Hopcke, 1993-02-16 This is the first book to examine the unique ways in which gay men and lesbians make the journey toward the psychic wholeness and balance needed in every life a process C G Jung called individuation Here eighteen prominent therapists and writers offer thought provoking insights into the deep meaning of homosexuality Contributions from Robert A Johnson Christine Downing Robert Bosnak Joseph Henderson John Beebe Robert H Hopcke Howard Teich Morgan Farley Caroline T Stevens Will Roscoe Karin Lofthus Carrington Lyn Cowan Scott Wirth Suzy Naiberg Donald Sandner David J Tacey Eugene Monick and Susan Griffin Lesbians and Lesbianisms Claudette Kulkarni, 2012-11-12 Claudette Kulkarni explores lesbian experience from a Jungian and feminist perspective through interviews with women who see themselves as lesbians or who are in a lesbian relationship Although a feminist treatment of the subject challenges the heterosexism of Jungian theory the author presents a link between theory and experience that is consistent with both approaches She concludes that when a woman finds herself loving another woman she is often responding to a profound psychological instinct to act in spite of internal conflict or external opposition and that this is a significant move in the service of personal and collective individuation and a movement toward achieving self understanding **LGBTQ+ Literature in the West** Robert C. Evans, 2023-05-18 A survey within one volume of the history of critical responses to LGBTQ literature from the beginning to the present day this book explores changes in attitudes literature and criticism over a period of two and a half thousand years For various reasons it focuses on literature of the West trying to give readers a clear sense within a relatively short compass not only of the development of queer literature perhaps the most encompassing of all terms but especially of critical responses to that literature notably during the past century and particularly the past fifty years All in all this book offers a roadmap to much of the excellent scholarship concerning LGBTQ literature that has arisen in the last half century an era of unparalleled interest in the topic and an era that has moved the topic from the distant sidelines of literary study to a place ever closer to the center of things **Disorienting Sexuality** Thomas Domenici, Ronnie C. Lesser, 2016-03-23 Disorienting Sexuality exposes the biases against gay men and lesbians in psychoanalytic theory and practice In the introduction Domenici and Lesser draw a brief history of anti homosexual sentiment in psychoanalysis The book then moves into essays written by lesbian and gay psychoanalysts seeking to have a voice in the reshaping of psychoanalytic theories of sexuality The second section is devoted to presenting different theoretical perspectives for understanding both homosexuality and heterosexuality Disorienting Sexuality concludes with the personal narratives of gay and lesbian psychoanalysts Engendering Slavic Literatures Pamela Chester, Sibelan Elizabeth S. Forrester, 1996 Engendering Slavic Literatures breaks new ground in its

investigation of gender and feminist issues in Croatian Polish Russian Serbian and Ukrainian literary texts by both female and male writers Drawing on psychoanalytic approaches film theory and lesbian and gender theory the authors interrogate the received notions of Western gender studies to see which can be usefully applied to nineteenth and twentieth century Slavic literary works Motherhood and the relationships of mothers and daughters the myths of selfhood that shape the autobiographies of Nadezhda Mandelstam Marina Tsvetaeva Lidia Ginzburg and Lev Tolstoy Polish Catholicism and sexuality portrayals of landscape in verbal and visual art and women writers transgressive ventures into male bastions such as the love lyric and prose fiction are among the themes of this important and innovative volume Lesbian Histories and Cultures Bonnie Zimmerman, 2000 To reflect this crucial fact The Encyclopedia of Lesbian and Gay Histories and Cultures has been prepared in two separate volumes to assure that both histories receive full unbiased attention and that a broad range of human experience is covered BOOK JACKET **Warped: Gay Normality and Queer Anti-Capitalism** Peter Drucker, 2015-02-04 Recent victories for LGBT rights especially the spread of same sex marriage have gone faster than most people imagined possible Yet the accompanying rise of gay normality has been disconcerting for activists with radical sympathies Global in scope and drawing on a wide range of feminist anti racist and queer scholarship and analysis Warped Gay Normality and Queer Anti Capitalism shows how the successive same sex formations of the past century and a half corresponding to different phases of capitalist development have led both to the emergence of today's homonormativity and homonationalism and to ongoing queer resistance The book's second half summarises different sexual rebellions and the queer dimension of multifarious movements for social justice and transformation seeing in them harbingers of a unified and powerful queer anti capitalism **Sexual Nature/Sexual Culture** Paul R. Abramson, Steven D. Pinkerton, 1995-06 In this multidisciplinary study of human sexuality an international team of scholars looks at the influences of nature and nurture biology and culture and sex and gender in the sexual experiences of humans and other primates Using as its center the idea that sexual pleasure is the primary motivational force behind human sexuality and that reproduction is simply a byproduct of the pleurability of sex this book examines sexuality at the individual societal and cultural levels Beginning with a look at the evolution of sexuality in humans and other primates the essays in the first section examine the sexual ingenuity of primates the dominant theories of sexual behavior the differences in male and female sexual interest and behavior and the role of physical attractiveness in mate selection The focus then shifts to biological approaches to sexuality especially the genetic and hormonal origins of sexual orientation gender and pleasure The essays go on to look at the role of pleasure in different cultures Included are essays on love among the tribespeople of the Brazilian rain forest and the regulation of adolescent sexuality in India Finally several contributors look at the methodological issues in the study of human sexuality paying particular attention to the problems with research that relies on people's memories of their sexual experiences The contributors are Angela Pattatucci Dean Hamer David Greenberg Frans de Waal Mary McDonald Paveika Kim Wallen Donald

Dancing after the Whirlwind Linda J. Tessier, 1998-11-01 *Dancing after the Whirlwind* explores how the denial of a sexual self affects a woman's spiritual identity and her understanding of her place in the world L J Tessier traces the deep roots of this denial and separation of sexuality and spirituality in both Western and Eastern religions She examines the experiences of three groups of women whose sexual desires memories and experiences are routinely denied by society lesbians survivors of childhood sexual abuse and HIV positive women Drawing on their powerful examples Tessier offers us strategies for reclaiming the whirlwind of erotic power and seeing it for what it is the sacred force through which we most deeply touch one another as human beings *Male to Male* Edward Tejirian, 2013-04-03 Explore the feelings of men toward other men without the pigeonholing found in terms like gay and straight *Male to Male Sexual Feeling Across the Boundaries of Identity* starts with the evidence that most studies on male sexuality have ignored the same sex feelings of men whose identities are heterosexual Of the more than fifty men in this book almost half were aware of some degree of same sex feeling But beyond percentages the primary focus of *Male to Male* is the exploration through their own words of how these men experienced same sex feelings what these feelings meant to them the fears surrounding them and the consequences of the collision between their heterosexual identities and their same sex feelings In addition to comparative data on women's same sex feelings as well as on what men say in regard to their feelings about women *Male to Male* includes material from two in depth case studies The first is on Clark an African American man

who moved into sex with men in prison His story shows that the need to see gay men as feminine is really a cultural defense against the powerful pull toward the male to male bond and points to the movement to fulfill that bond when this defense is dropped The second is on Zack a gay police officer His story explores the different dimensions and meanings of the male to male bond as these unfolded in his own life while telling about the heterosexually identified men who came out to him about their own same sex feelings Male to Male will help you explore same sex feelings in heterosexual men and women same sex feelings in the military prison culture and the heterosexual role the fear of domination the aesthetics of fear and power the dynamics of rape compassionate relationships between heterosexual identified men and much more Male to Male provides evidence showing that the identity that really counts constituting the deepest source from which men s sexual feelings for each other spring is not specifically a gay or heterosexual identity That source is rather a male identity and beyond that a human identity
