Myths Emblems Clues:

Myths, Emblems, Clues Carlo Ginzburg, 1990 **Myths, Emblems, Clues** Carlo Ginzburg, 1990 Estos estudios del autor exploran los símbolos y creencias en la historia europea A través del juicio de una mujer acusada de brujería en Modena en 1519 va descubriendo las cosas en las que la religión oficial modela la piedad popular hacia caminos más ortodoxos

Wittgenstein's Secret Diaries Dinda L. Gorf, 2020-02-06 Ludwig Wittgenstein's works encompass a huge number of published philosophical manuscripts notebooks lectures remarks and responses as well as his unpublished private diaries The diaries were written mainly in coded script to interpolate his writings on the philosophy of language with autobiographic passages but were previously unknown to the public and impossible to decode without learning the coding system This book deciphers the cryptography of the diary entries to examine what Wittgenstein's personal idiom reveals about his public and private identities Employing the semiotic doctrine of Charles S Peirce Dinda L Gorf argues that the style of writing reflects the variety of Wittgenstein's emotional moods which were profoundly affected by his medical symptoms Bringing Peirce's reasoning of abduction together with induction and deduction the book investigates how the semiosis of the emotional energetic and logical interpretations of signs and objects reveal Wittgenstein's psychological states in the coded diaries

Reading Witchcraft Marion Gibson, 2005-08-08 In this original study of witchcraft Gibson explores the stories told by and about witches and their victims through trial records early news books pamphlets and fascinating personal accounts The author discusses the issues surrounding the interpretation of original historical sources and demonstrates that their representations of witchcraft are far from straightforward or reliable Innovative and thought provoking this book sheds new light on early modern people's responses to witches and on the sometimes bizarre flexibility of the human imagination

New Directions in Law and Literature Elizabeth Susan Anker, Bernadette Meyler, 2017 This collection of essays by twenty-two prominent scholars from literature departments and law schools showcases the vibrancy of recent work in law and literature and highlights its many new directions since the field's heyday in the 1970s and 80s

Methods of Murder Elena M. Past, 2012-03-13 The first extended analysis of the relationship between Italian criminology and crime fiction in English *Methods of Murder* examines works by major authors both popular such as Gianrico Carofiglio and canonical such as Carlo Emilio Gadda Many scholars have argued that detective fiction did not exist in Italy until 1929 and that the genre which was considered largely Anglo-Saxon was irrelevant on the Italian peninsula By contrast Past traces the roots of the twentieth-century literature and cinema of crime to two much earlier diverging interpretations of the criminal the bodiless figure of Cesare Beccaria's Enlightenment era *On Crimes and Punishments* and the biological offender of Cesare Lombroso's positivist *Criminal Man* Through her examinations of these texts Past demonstrates the links between literary philosophical and scientific constructions of the criminal and provides the basis for an important reconceptualization of Italian crime fiction

Approaches to Greek Myth Lowell Edmunds, 2021-04-27 A handy introduction to some of the more

useful methodological approaches to and the previous scholarship on the subject of Greek myths Phoenix Since the first edition of *Approaches to Greek Myth* was published in 1990 interest in Greek mythology has surged There was no simple agreement on the subject of myth in classical antiquity and there remains none today Is myth a narrative or a performance Can myth be separated from its context What did myths mean to ancient Greeks and what do they mean today Here Lowell Edmunds brings together practitioners of eight of the most important contemporary approaches to the subject Whether exploring myth from a historical comparative or theoretical perspective each contributor lucidly describes a particular approach applies it to one or more myths and reflects on what the approach yields that others do not Edmunds s new general and chapter level introductions recontextualize these essays and also touch on recent developments in scholarship in the interpretation of Greek myth Contributors are Jordi P mias on the reception of Greek myth through history H S Versnel on the intersections of myth and ritual Carolina L pez Ruiz on the near Eastern contexts Joseph Falaky Nagy on Indo European structure in Greek myth William Hansen on myth and folklore Claude Calame on the application of semiotic theory of narrative Christiane Sourvinou Inwood on reading visual sources such as vase paintings and Robert A Segal on psychoanalytic interpretations A valuable collection of eight essays Edmunds s book provides a convenient opportunity to grapple with the current methodologies used in the analysis of literature and myth *New England Classical Newsletter and Journal*

Eyewitnessing Peter Burke,2006-01-27 Eyewitnessing evaluates the place of images among other kinds of historical evidence *Reader's Guide to the History of Science* Arne Hessenbruch,2013-12-16 The Reader s Guide to the History of Science looks at the literature of science in some 550 entries on individuals Einstein institutions and disciplines Mathematics general themes Romantic Science and central concepts Paradigm and Fact The history of science is construed widely to include the history of medicine and technology as is reflected in the range of disciplines from which the international team of 200 contributors are drawn [Speaking into the Air](#) John Durham Peters,2012-04-26 Communication plays a vital and unique role in society often blamed for problems when it breaks down and at the same time heralded as a panacea for human relations A sweeping history of communication *Speaking Into the Air* illuminates our expectations of communication as both historically specific and a fundamental knot in Western thought This is a most interesting and thought provoking book Peters maintains that communication is ultimately unthinkable apart from the task of establishing a kingdom in which people can live together peacefully Given our condition as mortals communication remains not primarily a problem of technology but of power ethics and art Antony Anderson *New Scientist* Guaranteed to alter your thinking about communication Original erudite and beautifully written this book is a gem *Kirkus Reviews* Peters writes to reclaim the notion of authenticity in a media saturated world It s this ultimate concern that renders his book a brave colorful exploration of the hydra headed problems presented by a rapid fire popular culture *Publishers Weekly* What we have here is a failure to communicate book Funny thing is it communicates beautifully *Speaking Into the Air* delivers what superb serious books

always do hours of intellectual challenge as one absorbs the gradually unfolding vision of an erudite creative author Carlin Romano Philadelphia Inquirer The Gendered Object Pat Kirkham,1996 EU security governance assesses the effectiveness of the EU as a security actor The book has two distinct features Firstly it is the first systematic study of the different economic political and military instruments employed by the EU in the performance of four different security functions The book demonstrates that the EU has emerged as an important security actor not only in the non traditional areas of security but increasingly as an entity with force projection capabilities Secondly the book represents an important step towards redressing conceptual gaps in the study of security governance particularly as it pertains to the European Union The book links the challenges of governing Europe s security to the changing nature of the state the evolutionary expansion of the security agenda and the growing obsolescence of the traditional forms and concepts of security cooperation *With(Out) Trace: Interdisciplinary Investigations into Time, Space and the Body* Simon Dwyer,Rachel Franks,Reina Green,2019-07-22 This volume was first published by Inter Disciplinary Press in 2015 This book *With out Trace* Inter Disciplinary Investigations into Time Space and the Body unpacks many of the issues that surround the idea of trace what we intentionally and unintentionally leave behind as well as how trace can help us to move forward In particular this volume looks at how an interdisciplinary approach can suggest new ways of seeing and subsequently exploring interconnections between time space and the body The papers within this work accomplish more than tracing a theme a theory or discipline within the study of time space and the body Moreover the collection does not simply trace past debates about the relationship between the three Indeed the interdisciplinarity of this collection will it is hoped suggest other ways of seeing the field and of tracing new paths through it Exploring those new perspectives and new paths will undoubtedly enrich future thinking about the interconnections between time space and the body *Art and Its Histories* Steve Edwards,Professor and Head of Art History Steve Edwards,1999-01-01 Published with six accompanying books in the series *Art and its Histories* *Eye Contact* Jane Lydon,2006-01-25 A historical ethnography of photographs as a colonial tool and as reappropriated by the indigenous population from the 1860s through the 1920s and in the present **Space, the City and Social Theory** Fran Tonkiss,2005 Taking a thematic approach this book covers the main aspects of modern urban life taught on undergraduate courses The key approaches to the city within contemporary social theory are assessed Tonkiss adopts an international perspective with examples drawn from places such as New York Paris and Sydney *French Divorce Fiction from the Revolution to the First World War* Nicholas White,2017-12-02 One of the primary social changes ushered in by the French Revolution was the legalization of divorce in 1792 Diluted by the Civil Code and suppressed by the Restoration divorce was only fully established in France by the Loi Naquet of 1884 *French Divorce Fiction from the Revolution to the First World War* tracks the part played by novels in this conflict between the secular rights of individual citizens and the sanctity of the traditional family Inspired by the sociologists Zygmunt Bauman and Anthony Giddens White s account culminates in the first sustained analysis

of the role of divorce in the refashioning of life narratives during the early decades of the Third Republic As such it redefines the relationships between canonical authors such as Maupassant and Colette rediscovered women novelists like Marcelle Tinayre and Camille Pert and long neglected patriarchs such as Paul Bourget and Anatole France Nicholas White teaches French in the University of Cambridge where he is a Fellow of Emmanuel College *Framing Formalism* Richard Woodfield,2013-10-23 Alois Riegl 1858 1905 was one of the founding fathers of modern formalist criticism As a member of the Vienna School of Art Historians he shared their range of interests in the decorative arts art in transition conservation and monuments This collection of critical essays examines various facets of Riegl s work and opens with a new translation of Hans Sedlmayr s famous and notorious *Die Quintessenze der Lehren Riegls* Included is Julius von Schlosser s assessment of Riegl s contribution to the Vienna School of Art Historians as well as essays by a team of international scholars This book offers a re engagement with the ideas of one of the most important and neglected art historians of the 20th century *The Mangle of Practice* Andrew Pickering,2010-12-15 This ambitious book by one of the most original and provocative thinkers in science studies offers a sophisticated new understanding of the nature of scientific mathematical and engineering practice and the production of scientific knowledge Andrew Pickering offers a new approach to the unpredictable nature of change in science taking into account the extraordinary number of factors social technological conceptual and natural that interact to affect the creation of scientific knowledge In his view machines instruments facts theories conceptual and mathematical structures disciplined practices and human beings are in constantly shifting relationships with one another mangled together in unforeseeable ways that are shaped by the contingencies of culture time and place Situating material as well as human agency in their larger cultural context Pickering uses case studies to show how this picture of the open changeable nature of science advances a richer understanding of scientific work both past and present Pickering examines in detail the building of the bubble chamber in particle physics the search for the quark the construction of the quaternion system in mathematics and the introduction of computer controlled machine tools in industry He uses these examples to address the most basic elements of scientific practice the development of experimental apparatus the production of facts the development of theory and the interrelation of machines and social organization *State of Fear* Joshua Barker,2024-08-02 In *State of Fear* Joshua Barker reckons with how fear and violence are produced and reproduced through everyday practices of rule and control Examining the ethnographic and historical genealogies of Indonesian policing Barker focuses on the city of Bandung which is permeated by anxieties about security in spite of the fact that it s a relatively safe city according to the data Drawing from his fieldwork there during the latter years of the authoritarian New Order regime Barker traces the complex relationship between the state and vigilante groups like neighborhood watch patrols and street gangs Through interviews with police officers vigilantes and street level toughs he uncovers a struggle between two visions of social control that continues to animate policing in Indonesia the modern bureaucratic approach favored by the state and a territorial approach that divides

the city into fiefdoms overseen by charismatic individuals of authority Synthesizing insights from in depth ethnographic historical and theoretical work Barker reveals how authoritarianism can take root not just from the top down but also from the bottom up

Reading Architecture and Culture Adam Sharr, 2012 Architecture displays the values involved in its inhabitation construction procurement and design It traces the thinking of the individuals who have participated in it their relationships and their involvement in the cultures where they lived and worked In this way buildings their details and the documents used to make them can be read closely for cultural insights Introducing the idea of reading buildings as cultural artefacts this book presents perceptive readings by eminent writers which demonstrate the power of this approach The chapters show that close readings of architecture and its materials can test commonplace assumptions help architects to appreciate the contexts in which they work and indicate ways to think more astutely about design The readings collected in this innovative and accessible book address buildings specifications and photographs They range in time from the fifteenth century examining the only surviving drawing made by Leon Battista Alberti to the recent past projects completed by Norman Foster in 2006 and Herzog and De Meuron in 2008 They range geographically from France to Puerto Rico to Kazakhstan and they range in fame from buildings celebrated by critics to house extensions and motorway service areas Taken together these essays demonstrate important research methods which yield powerful insights for designers critics and historians and lessons for students
