**Nicholas J. Higham**

## On The Beach At Cambridge:

**The Story of the Duke of Cambridge's Own (Middlesex Regiment)** Charles Lethbridge Kingsford, 1916 Beach Management Allan Williams, Anton Micallef, 2009-06-30 This comprehensive book provides full coverage of beach management principles and practice with an emphasis on needs based management The book provides a wealth of case studies from the UK USA New Zealand the Mediterranean and Latin America The emphasis throughout the book is on optimizing economic social and environmental outcomes and reconciling competing needs in management planning for beach area This book is an indispensable tool kit for all professionals in beach and coastal beach zone management It is also a comprehensive primer for university undergraduate students in professional planning land management coastal geography as well as tourism and conservation planning and management

**Annual Report of the American Board of Commissioners for Foreign Missions** American Board of Commissioners for Foreign Missions. Meeting, 1882 **Coastal Hazards** Charles W. Finkl, 2012-12-11 This book covers the gamut of coastal hazards that result from short term low frequency events and have high magnitude and far reaching impacts on coastal zones the world over Much of the world's population now lives in low lying coastal zones that are inherently vulnerable to natural hazards such as flooding from hurricanes tropical storms and northeastern storm surges shoreline beach and dune erosion cliff and bluff failures and saltwater intrusion in coastal aquifers used for drinking water supplies In addition to the usual range of hydrometeorological disasters in coastal zones this book covers tsunami impacts and warning systems as well as global perspectives of sea level rise impacts and human perceptions of potential vulnerabilities resulting from rip currents that cause many drownings each year on beaches Today the use of numerical models that help predict vulnerabilities and provide a basis for shore protection measures is important in modern scientific and engineering systems Final considerations focus on human actions in the form of the urbanization and industrialization of the coast shore protection measures and indicate how environmental degradation around coastal conurbations exacerbates the potential for unwanted impacts Strategies for environmental management in coastal zones from low lying wetlands to high cliffs and rocky promontories are highlighted as a means of living in harmony with Nature and not trying to conquer it

*Annual Report of the Trustees of the Soldiers' Home in Massachusetts at Chelsea* Massachusetts. Soldiers Home, Chelsea, 1896 Eighteenth-Century Indian Muraqqa's, 2024-12-23 Fourteen essays and one appendix discuss numerous eighteenth century Indo Persianate albums muraqqa s consisting of folios with paintings calligraphic pieces and elaborate decorative margins These albums now in Berlin Baroda London Paris and Manchester were assembled for or collected by the Mughal nawabs of Awadh Uttar Pradesh local elites in Bengal and Bihar as well as Europeans The book not only presents hitherto rarely investigated material but also provides general information and many new discoveries based on first hand codicological study and historical research It will significantly expand our knowledge of the production collecting practices and audiences of muraqqa s in eighteenth century India

The Boundless Sea Peregrine Horden, Nicholas Purcell, 2019-09-30 This volume brings together for the first time a collection of twelve articles written both jointly and individually by Peregrine Horden and Nicholas Purcell as they have participated in the debates generated by their major work The Corrupting Sea A Study of Mediterranean History 2000 One theme in those debates has been how a comprehensive Mediterranean history can be written how an approach to Mediterranean history by way of its ecologies and the communications between them can be joined up with more mainstream forms of enquiry cultural social economic and political with their specific chronologies and turning points The second theme raises the question of how Mediterranean history can be fitted into a larger indeed global history It concerns the definition of the Mediterranean in space the way to characterise its frontiers and the relations between the region so defined and the other large spaces many of them oceans to which historians have increasingly turned for novel disciplinary cum geographical units of study A volume collecting the two authors studies on both these themes as well as their reply to critics of The Corrupting Sea should prove invaluable to students and scholars from a number of disciplines ancient medieval and early modern history archaeology and social anthropology CS1083

*King Arthur* Nicholas J. Higham, 2018-11-20 A leading medievalist takes a clear eyed look at the evidence for the existence of the legendary Arthur The Sunday Times Best Paperbacks of 2021 According to legend King

Arthur saved Britain from the Saxons and reigned over it gloriously sometime around A D 500 Whether or not there was a real King Arthur has all too often been neglected by scholars most period specialists today declare themselves agnostic on this important matter In this erudite volume Nick Higham sets out to solve the puzzle drawing on his original research and expertise to determine precisely when and why the legend began Higham surveys all the major attempts to prove the origins of Arthur weighing up and debunking hitherto claimed connections with classical Greece Roman Dalmatia Sarmatia and the Caucasus He then explores Arthur s emergence in Wales up to his rise to fame at the hands of Geoffrey of Monmouth Certain to arouse heated debate among those committed to defending any particular Arthur Higham s book is an essential study for anyone seeking to understand how Arthur s story began Likely to be the definitive text on the legendary warrior for the foreseeable future With his profound knowledge of the rules of historical narrative and patient but forensic analysis of the evidence Higham s riveting book brings the historical Arthur to what may be his last decisive battle Max Adams author of *The First Kingdom* Fascinating authoritative analysis P D Smith *The Guardian* Intelligent and eminently readable For fans of a fascinating story that is wonderfully well told this is the perfect book to take you back to King Arthur s time All About History

**The Roman Gladius and the Ancient Fighting Techniques** Fabrizio Casprini, Marco Saliola, 2023-01-06 The backbone of the Roman army was the infantry armed with a javelin or pilum and sword or gladius This study investigates not just the weapon itself and its design and manufacture but how the sword was originally conceived and how it was employed on the battlefield as an expression of the Roman state The authors start examining the early swords employed across the Italian Peninsula during the Bronze Age and how these evolved into the gladius which itself changed in the period of Monarchy with the introduction of the cross hilt During Rome s Consular period the gladius changed again and over time both the length of the blade and its width were altered Relying exclusively on historical and archaeological evidence *The Roman Gladius and the Ancient Fighting Techniques* shows how the Roman army developed into a highly disciplined body and how fundamental the gladius was to its method of fighting It also shows how the combat techniques of the Romans evolved as did those of their enemies The training methods and tactics of the Roman infantry are fully explored and its performance at some of the great battles of the monarchical and consular periods are examined as the area under Roman rule fluctuated with victory or defeat For the Roman people the gladius was the object that better than any other showed their identity since it was a weapon that accompanied the history of the Roman people from its earliest days changing in shape and design as it was adapted to the varying social political and military needs *The Roman Gladius and the Ancient Fighting Techniques* is the most comprehensive study of this hugely important weapon which also provides the reader with a complete overview of Roman society which in this first volume is treated until the end of the Consular period The book is richly illustrated throughout with drawings and photographs of original weapons and equipment

**Weekly Notes**

Frederick Pollock, 1928 *Commemorating Power in Early Medieval Saxony* Sarah Greer, 2021-10-19 In the early medieval

world the way people remembered the past changed how they saw the present New accounts of former leaders and their deeds could strengthen their successors establish novel claims to power or criticize the current ruler After 888 when the Carolingian Empire fractured into the smaller kingdoms of medieval western Europe memory became a vital tool for those seeking to claim royal power for themselves Commemorating Power in Early Medieval Saxony looks at how the past was evoked for political purposes under a new Saxon dynasty the Ottonians who came to dominate post Carolingian Europe as the rulers of a new empire in Germany and Italy With the accession of the first Ottonian king Henry I in 919 sites commemorating the king s family came to the foreground of the medieval German kingdom The most remarkable of these were two convents of monastic women Gandersheim and Quedlinburg whose prominence and prestige in Ottonian politics have been seen as exceptional in the history of early medieval western Europe In this volume Sarah Greer offers a fresh interpretation of how these convents became central sites in the new Ottonian empire by revealing how the women in these communities themselves were skilful political actors who were more than capable of manipulating memory for their own benefit In this first major study in English of how these Saxon convents functioned as memorial centres Greer presents a new vision of the first German dynasty one characterized by contingency versatility and the power of the past
