## **On The Bringing Up Of Children:**

Bringing Up Kids Without Tearing Them Down Kevin Leman, 1995 Designed for all parents who would like to be thanked by their children when they finally leave home this book deals with how to raise children so that they have a good self image and a sense of positive self worth that will see them through any crisis or challenge that life presents **Bringing Up Children in a Permissive Society** , Bringing Up Kids When Church Lets You Down Bekah McNeel, 2022-10-11 This book is about the various places and ways that uncertainty shows up for parents who having left or altered the faith they once knew now must decide what to give their kids It s about church attendance Bible memorization school choices and sex talks It s about forging new paths in racial justice and creation care while the intractable voices in your head call you a pagan Marxist for doing so After the spectacular implosion of her ministry career Bekah McNeel was left disillusioned and without the foundation of certainty she had built her life on But rather than leaving the Christian faith altogether she hung out around the edges began questioning oversimplified categories of black and white that she had been taught were sacred and became comfortable living in gray areas while starting a new career in journalism Then she had kids From the moment someone asked if she was going to have her first child baptized Bekah began to wonder if the conservative evangelical Christianity she grew up with was really something she wanted to give her children That question only became more complicated when she had her second child months before White evangelicals carried Donald Trump to victory in the 2016 presidential election Soon Bekah found that other parents were asking similar questions as they broke with their fundamentalist religious upbringing and took on new values Could they raise their kids to live with both the security of faith and the freedom of open mindedness To value both Scripture and social justice To learn morality without shame In Bringing Up Kids When Church Lets You Down Bekah gathers voices from history scholarship and her own community to guide others who like her are on a quest to shed the false certainty and toxic perfectionism of their past to become better healthier parents while still providing strong spiritual foundations for their children She writes with humor and empathy providing wise reflections but not glib answers on difficult parenting topics while reminding us that we are not alone even when we break away from the crowd *Making demands in bringing up children* Eusebio Ferrer, 2000 **Bringing Up Bébé** Pamela Druckerman, 2012-02-07 The secret behind France s astonishingly well behaved children When American journalist Pamela Druckerman has a baby in Paris she doesn t aspire to become a French parent French parenting isn t a known thing like French fashion or French cheese Even French parents themselves insist they aren t doing anything special Yet the French children Druckerman knows sleep through the night at two or three months old while those of her American friends take a year or more French kids eat well rounded meals that are more likely to include braised leeks than chicken nuggets And while her American friends spend their visits resolving spats between their kids her French friends sip coffee while the kids play Motherhood itself is a whole different experience in France There s no role model as there is in America for the

harried new mom with no life of her own French mothers assume that even good parents aren't at the constant service of their children and that there's no need to feel guilty about this They have an easy calm authority with their kids that Druckerman can only envy Of course French parenting wouldn't be worth talking about if it produced robotic joyless children In fact French kids are just as boisterous curious and creative as Americans They're just far better behaved and more in command of themselves While some American toddlers are getting Mandarin tutors and preliteracy training French kids are by design toddling around and discovering the world at their own pace With a notebook stashed in her diaper bag Druckerman a former reporter for The Wall Street Journal sets out to learn the secrets to raising a society of good little sleepers gourmet eaters and reasonably relaxed parents She discovers that French parents are extremely strict about some things and strikingly permissive about others And she realizes that to be a different kind of parent you don't just need a different parenting philosophy You need a very different view of what a child actually is While finding her own firm non Druckerman discovers that children including her own are capable of feats she'd never imagined
