Carr, 2012-04-09 Through her engaged and articulate essays in the Village Voice C Carr has emerged as the cultural historian of the New York underground and the foremost critic of performance art On Edge brings together her writings to offer a detailed and insightful history of this vibrant brand of theatre from the late 70s to today It represents both Carr s analysis as a critic and her testament as a witness to performances which by their very nature can never be repeated Carr has organized this collection both chronologically and thematically ranging from the emphasis on bodily manipulation endurance in the 70s to the underground club scene in New York to an insider s analysis of the Tompkins Square Riot as a manifestation of the cultural and social conflicts that underlie much of performance art She examines the transgressive and taboo shattering work

of Ethyl Eichelberger Karen Finley and Holly Hughes documents specific performances by Annie Sprinkle and Lydia Lunch and maps the development of such artists as Robbie McCauley Blue Man Group and John Jesurun She also describes the cross over phenomenon of the mid 80s and considers the far right backlash against this mainstreaming as cultural reactionaries sought to curb the influence of these new artists CONTRIBUTORS Linda Montano Chris Burden G G Allin Jean Baudrillard Patty Hearts Dan Quayle Anne Magnouson John Jesurun John Kelly Shu Lea Changvv Diamanda Galas Salley May Rafael Mantanez Ortiz Sherman Fleming Kristine Stiles Laurie Carlos Jessica Hafedorn Robbie McCormick Karen Finley Poopo Shiraishi Donna Henes Holey Hughe Ela Troyano Michael Smith Harry Koipper John Sex Nina Jagen Ethyl Eichelberge Marina Abramovic Ulay Ebook Edition Note All illustrations have been redacted from the ebook edition

Living on the Edge Richard A. Settersten, Glen H. Elder, Lisa D. Pearce, 2021-02-17 History carves its imprint on human lives for generations after When we think of the radical changes that transformed America during the twentieth century our

minds most often snap to the fifties and sixties the Civil Rights Movement changing gender roles and new economic opportunities all point to a decisive turning point But these were not the only changes that shaped our world and in *Living on the Edge* we learn that rapid social change and uncertainty also defined the lives of Americans born at the turn of the twentieth century The changes they cultivated and witnessed affect our world as we understand it today Drawing from the iconic longitudinal Berkeley Guidance Study *Living on the Edge* reveals the hopes struggles and daily lives of the 1900 generation Most surprising is how relevant and relatable the lives and experiences of this generation are today despite the gap of a century From the reorganization of marriage and family roles and relationships to strategies for adapting to a dramatically changing economy the challenges faced by this earlier generation echo our own time *Living on the Edge* offers an intimate glimpse into not just the history of our country but the feelings dreams and fears of a generation remarkably kindred to the present day

Atmospheric Flight in the Twentieth Century P. Galison, A. Roland, 2013-03-07 All technologies differ from one another They are as varied as humanity's interaction with the physical world Even people attempting to do the same thing produce multiple technologies For example John H White discovered more than 1 000 patents in the 19th century for locomotive smokestacks Yet all technologies are processes by which humans seek to control their physical environment and bend nature to their purposes All technologies are alike The tension between likeness and difference runs through this collection of papers All focus on atmospheric flight a twentieth century phenomenon But they approach the topic from different disciplinary perspectives They ask disparate questions And they work from distinct agendas Collectively they help to explain what is different about aviation how it differs from other technologies and how flight itself has varied from one time and place to another The importance of this topic is manifest Flight is one of the defining technologies of the twentieth century Jay David Bolter argues in *Turing's Man* that certain technologies in certain ages have had the power not only to transform society but also to shape the way in which people understand their relationship with the physical world A defining technology says Bolter resembles a magnifying glass which collects and focuses seemingly disparate ideas in a culture into one bright sometimes piercing ray
