## On The Stroll:

**Ordinary Germans in Extraordinary Times** Andrew Stuart Bergerson, 2004-10-14 Hildesheim is a mid sized provincial town in northwest Germany Ordinary Germans in Extraordinary Times is a carefully drawn account of how townspeople went about their lives and reacted to events during the Nazi era Andrew Stuart Bergerson argues that ordinary Germans did in fact make Germany and Europe more fascist more racist and more modern during the 1930s but they disguised their involvement behind a pre existing veil of normalcy Bergerson details a way of being believing and behaving by which ordinary Germans imagined their powerlessness and absence of responsibility even as they collaborated in the Nazi revolution He builds his story on research that includes anecdotes of everyday life collected systematically from newspapers literature photography personal documents public records and especially extensive interviews with a representative sample of residents born between 1900 and 1930 The book considers the actual customs and experiences of friendship and neighborliness in a German town before during and after the Third Reich By analyzing the customs of conviviality in interwar Hildesheim and the culture of normalcy these customs invoked Bergerson aims to help us better understand how ordinary Germans transformed neighbors into Jews or Aryans

**Chicago on the Make** Andrew J. Diamond, 2017-11-07 Effectively details the long history of racial conflict and abuse that has led to Chicago becoming one of America's most segregated cities A wealth of material New York Times Winner of the 2017 Jon Gjerde Prize Midwestern History Association Winner of the 2017 Award of Superior Achievement Illinois State Historical Society Heralded as America's quintessentially modern city Chicago has attracted the gaze of journalists novelists essayists and scholars as much as any city in the nation And yet few historians have attempted big picture narratives of the city's transformation over the twentieth century Chicago on the Make traces the evolution of the city's politics culture and economy as it grew from an unruly tangle of rail yards slaughterhouses factories tenement houses and fiercely defended ethnic neighborhoods into a truly global urban center Reinterpreting the familiar narrative that Chicago's autocratic machine politics shaped its institutions and public life Andrew J Diamond demonstrates how the grassroots politics of race crippled progressive forces and enabled an alliance of downtown business interests to promote a neoliberal agenda that created stark inequalities Chicago on the Make takes the story into the twenty first century chronicling Chicago's deeply entrenched social and urban problems as the city ascended to the national stage during the Obama years

**Invested Indifference** Kara Granzow, 2020-06-15 In 2004 Amnesty International characterized Canadian society as indifferent to high rates of violence against Indigenous women and girls When the Canadian government took another twelve years to launch a national inquiry that indictment seemed true Invested Indifference offers a divergent perspective by examining practices during three different periods in the place we now call Edmonton juxtaposing early settler texts documents concerning the former Charles Camsell Indian Hospital and contemporary online police materials Kara Granzow reaches a startling conclusion that what we see as societal indifference doesn't come from an absence of

feeling but from a deep rooted and affective investment in framing specific lives as disposable Granzow demonstrates that through mechanisms such as the law medicine and control of land and space violence against Indigenous peoples has become symbolically and politically ensconced in the social construction of Canadian nationhood **Hartshorne, Process**

**Philosophy, and Theology** Robert Kane, Stephen H. Phillips, 1989-07-03 This book provides an introduction to Hartshorne's contributions to contemporary philosophy and theology It also covers some of the current controversies in philosophy and theology that Hartshorne's contributions have generated The opening chapter is a lucid and penetrating introduction to Hartshorne's thought Some of the following chapters break new ground on issues that have concerned Hartshorne throughout his career the nature and methods of metaphysics the existence and nature of God and the place of religion and metaphysics in the modern world Many chapters survey the current state of controversies on those topics Other chapters relate Hartshorne's work to other traditions and to trends in contemporary philosophy to postmodernism classical Western theism Indian philosophy analytical philosophy and American pragmatism **Chicago Jazz** William Howland

commercial recording companies captured American musical culture in a key period in both music and media history Amid dramatic technological and cultural changes of the 1920s and 1930s small recording companies in the United States began to explore the genres that would later be known as jazz blues and country Smaller record labels many based in rural or out of the way Midwestern and Southern towns were willing to take risks on the country s regional vernacular music as a way to compete with more established recording labels Recording companies relationship with radio grew closer as both industries were on the rise propelled by new technologies Radio which had become immensely popular began broadcasting more recorded music in place of live performances and this created profitable symbiosis With the advent of the talkies the film industry completed the media trifecta The novelty of recorded sound was replacing film accompanists and the popularity of movie musicals solidified film s connections with the radio and recording industries By the early 1930s the recording industry had gone from being part of the largely autonomous phonograph industry to being major media industry of its own albeit deeply tied to and in some cases owned by the radio and film industries The triangular relationships between these media industries marked the first major entertainment and media conglomerates in U S history Through an interdisciplinary and intermedial approach to recording industry history Record Cultures creates new connections between different strands of media research It will be of interest to scholars of popular music media studies sound studies American culture and the history of film television and radio
