On the Track of Water's Secret Hans Kronberger, Siegbert Lattacher, 1995 How We Heal Douglas Morrison, Douglas Wyeth Morrison, 2001 This introduction to the frontiers of healing deals in depth with the psychological and emotional issues that stand in the way of good health Wyeth Morrison discusses esoteric domains of healing including body electronics a method of saturating the body with nutrients and releasing toxins through a process of point holding 60 illustrations 10 charts The Mystery of Water Johanna Blomqvist, 2024-10-31 FIND OUT THE ANSWERS TO THESE QUESTIONS AND MORE How can a jellyfish which is almost entirely water and has neither a heart nor a brain be a living and consciously responsive being What kind of water is best for our well being Why cold water swimming is so good for us Can water be influenced by thoughts and emotions Does water remember What do we really know about water Could solving the mystery of water also help us understand ourselves In an unprecedented way Johanna Blomqvist dives into the mystery of water in her book approaching water through science physics and the latest research as well as from an experiential perspective What follows is not only an interesting journey into the history and essence of water but also a highly personal dive into the various ways water influences us during our lifetimes and even through generations Water is a simple molecule yet we do not fully understand it It has many strange and exceptional properties that have yet to be explained Even the structure of water has yielded surprising results in recent studies It appears there might be two types of water The structure of water can begin to mimic the molecules with which it has been in contact bringing about their effects Even emotions seem to have a connection to water Water increasingly appears as a state of being between the material and immaterial worlds Water is a mystery that we need to solve to understand ourselves after all we are over 70% water Water symbolizes vitality renewal creativity and change Water is fundamental and sacred Water is the beginning and the end from it we are born and often it has also been the fate of our civilizations in the form of a flood or other upheaval I feel that water is now my teacher and my task is to discover who I really am and what my deepest essence is Looking deeply is also a form of surrender When one dares to surrender and let go a path unfolds becoming increasingly clear The Mystery of Water makes you see water in a new way You will find a new connection to water to our deepest essence Water may contain fundamental answers to our life existence and also our future **The Spiritual Life of Water** Alick Bartholomew, 2010-11-18 Water's wisdom on renewal communication and holism How water as a conscious organism unites all of creation in one vast communication network Includes the research of Masaru Emoto and Viktor Schauberger Discusses the energetics of water water treatments finding the best quality water and the perils of bottled and distilled water Once held sacred the world over water contains a wisdom few today acknowledge Driving everything from our metabolic processes to weather patterns and climate change its real significance lies in its role as a medium for metamorphosis recycling and exchanging energy and information Seeking a return to our ancestors reverence for water Alick Bartholomew explores water's sacred uses its role in our bodies and

environment and the latest scientific studies to reveal that water is a conscious organism that is self creating and self organizing Examining new discoveries in quantum biology he shows how water binds all of life into one vast network of energy allowing instant communication and coherence Covering the research of water visionaries such as Viktor Schauberger Mae Wan Ho and Masaru Emoto he examines the memory of water and reveals how the same water has been cycling through Earth s history since the dawn of time making water nature s greatest recycling and reclaiming agent With information on the energetics of water water treatments finding the best quality water and the perils of bottled and distilled water this book offers us a path to reclaim the spirituality of water **How We Heal, Revised and Expanded Edition**

Douglas W. Morrison,2013-01-08 Unlike health books that cover only nutrition and lifestyle factors or books that deal with consciousness spirituality personal growth and metaphysical considerations outside the realm of the physical How We Heal addresses healing in the broadest conceivable context It presents this whole range of topics in a coherent comprehensive manner that introduces the novice reader to Body Electronics iridology sclerology and other alternative health modalities Author Douglas Morrison explores the physical factors sleep water exercise and detrimental influences such as amalgam dental fillings root canals fluoride electromagnetic fields vaccinations drugs that influence health and explains why it s necessary to integrate them with the hidden patterns of thought word and emotion that make healing possible Through the use of analogies and practical examples the book helps readers embrace this new way of seeing their own reality Diagrams and illustrations throughout help further illuminate these potentially life changing concepts **The Land of Osiris** Stephen S. Mehler,2002-03 Was there a advanced prehistoric civilization in ancient Egypt Who were the people who built the great pyramids and carved the Great Sphinx Did the pyramids serve as energy devices and not as tombs for kings Independent Egyptologist Stephen S Mehler has spent over 30 years researching the answers to these questions and believes the answers are Yes An indigenous oral tradition still exists in Egypt and Mehler has been able to uncover and study it with the help of a living master of this tradition Abd1El Hakim Awyah He has also been given permission to share these teachings presented heretofore in fragments by other researchers to the Western World teachings that unfold a whole new understanding of ancient Egypt Publisher s description **The Water Keepers 3-Book Collection: Deep Blue Secret, Rogue Wave, Ambrosia Shore**

Water as a Catalyst for Peace Ahmed Abukhater, 2013-09-05 Examining

international water allocation policies in different parts of the world this book suggests that they can be used as a platform to induce cooperation over larger political issues ultimately settling conflicts The main premise is that water can and should be used as a catalyst for peace and cooperation rather than conflict Evidence is provided to support this claim through detailed case studies from the Middle East and the Lesotho Highlands in Africa These international cases including bilateral water treaties and their development and formation process and aftermath are analyzed to draw conclusions about the outcomes as well as the processes by which these outcomes are achieved It is demonstrated that the perception of a particular treaty as being equitable and fair is mainly shaped by the negotiation process used to reach certain outcomes rather than being determined mechanistically by the quantitative allocation of water to each party The processes and perceptions leading to international water conflict resolutions are emphasized as key issues in advancing cooperation and robust implementation of international water treaties The key messages of the book are therefore relevant to the geo political and hydro political aspects of water resources in the context of bilateral and multilateral conflicts and the trans boundary management of water resources which contributes insights to political ecology geo politics and environmental policy
