The fiscal system together with the operation of the banks and the control of currency, credit and prices and economic planning are also discussed. **British Foreign Policy After Brexit** David Owen, David Ludlow, 2017-07-18. At a time of alarming global instability amid shocking terrorist attacks in Europe and mounting tensions between the USA and North Korea, a clear and focused foreign and defence policy is now more critical than ever. Now that departure is under way, what happens next? Against this unpredictable geopolitical backdrop, Britain's position in the world needs to be recalibrated to take account of a range of new realities. Now is the time to move forward to define a positive outward looking role in this post Brexit world. British Foreign Policy after Brexit examines what lies ahead encompassing a diplomatic security development and trade agenda based on hard headed realism. Former Foreign Secretary David Owen and former diplomat David Ludlow, who backed opposite sides in the referendum, together argue that Britain's global role and influence can be enhanced rather than diminished post Brexit. Picturing China in the American Press David D. Perlmutter, 2007-03-29. Picturing China in the American Press juxtaposes what the ordinary American news reader was shown visually in Time Magazine between 1949 and 1973 with contemporary perspectives on the behind the scenes history of the period. Time Magazine is an especially fruitful source for such a visual historical contrast and comparison because it was China centric, founded and run by Henry Luce, a man who loved China and was commensurably obsessed with winning China to democracy and Western influence. Picturing China examines in detail major events, the Korean War and Nixon's trip to China, less considerable occurrences, shellings of Straits islands and diplomatic flaps, great personages, Chairman Mao and Henry Kissinger, and the common people and common life of China as seen through the lenses and described by the pens of American reporters, artists, photographers and editors. Picturing China in the American Press is of great interest to both scholars of communications, Chinese history, China Studies and journalists.
