On The Move The Psychology Of Change And Transition:

On the Move Shirley Fisher, Cary L. Cooper, 1990 Change and transition and the ability to cope with it vary from individual to individual There are both positive and negative types of change and each person deals with it in his her own way This volume addresses the effects of positive events related to upward social educational and occupational mobility and with the processes of growing up and developing within and across boundaries It opens with theoretical discussions of how and why change even in a positive context might be stressful to some people Also explores the effects of a broad variety of changes and discusses two coping strategies the first addresses strategies for aiding immediate adjustment the second considers more general strategies designed for adjustment in the long term

On the Move Shirley Fisher, Cary L. Cooper, 1990 **Encyclopaedia of Occupational Health and Safety: Hazards** Jeanne Mager Stellman, 1998 **Role**

Transitions in Organizational Life Blake Ashforth, 2000-10 Identity or roles in Organizations is being looked at as we realize that everyone is wearing many different hats today parent spouse colleague manager worshipper etc and individuals interact with and within organizations **Higher Education Transitions** Eva Kyndt, Vincent Donche, Keith Trigwell, Sari Lindblom-Ylänne, 2017-05-18 In the current era where lifelong learning is brought to the fore higher education can no longer be regarded as an isolated trajectory within one s educational career as many students face substantial challenges in crafting their professional future More specifically the transition from school to higher education and continuing to the labour market are often a difficult hurdles for many students Almost half of students do not succeed in the first year and often withdraw from education students are faced with a variety of contexts and may choose to study in a different international context and they are then confronted with structural barriers in finding a high quality job as evidenced by increasing levels of youth unemployment and underemployment Higher Education Transitions aims to deepen our understanding of the transitions taking place when students enter progress and leave higher education to enter the labour market Drawing on an international team of contributors this guide includes three conceptual and fifteen empirical studies which include a range of quantitative qualitative cross sectional and longitudinal studies Divided into three sections to reflect each important transition phase topics include transitions from secondary to higher education transitions within higher education transitions from higher education to the labour market By considering transitions across different phases as a broad and interrelated process this guide will be essential reading for higher education researchers policy stakeholders and all those interested in the transitions into higher education and the labour market **Psychological Aspects of Geographical Moves** Miranda

van Tilburg, Ad Vingerhoets, 2007-04 Mobility of mankind has increased enormously in the past few decades People leave their homes and native countries for business and study for vacation or to flee from unsafe conditions like wars and natural disasters In all cases the sojourner faces a dual challenge of breaking with the familiar home environment and adjusting to new surroundings This book deals with the psychological and health consequences of leaving the familiar home and the

process of creating a new one The focus is mainly on acculturation stress and homesickness which both are relevant to those who travel Acculturation refers to the process and outcome of a person's encounter with and adaptation to a culturally new and different environment Homesickness is defined as a depression like reaction to leaving one's home The contributions in this book present empirical data as well as theoretical and conceptual discussions Causes consequences moderating variables and theoretical explanations are discussed Both short term e.g. vacations and long term e.g. immigration separations from home receive attention By combining these different but related topics this book provides a valuable overview for researchers teachers students and professionals working with people who present with problems related to migration or traveling

Facilities Change Management Edward Finch, 2011-11-14 Modern organisations are subject to continual change technologies evolve organisational structures are modified people and underlying cultures are transformed Yet the facilities that organisations occupy are static and can impede the changes that are essential to organisational survival The response to change in terms of property and support services is often too little too late leading to facilities that do not support organisational reality The facilities management team is thus constantly challenged to bridge the gap between what an organisation has and what it needs Facilities Change Management is a practical evaluation of the management of change for facilities managers and related professions It considers the forces of change affecting facilities decisions the obstacles to change at a resource level and human level the effective implementation of change the human aspect of change Each of these is considered in relation to modern facilities management issues The discussion will enable practising facilities managers project managers surveyors service providers and architects to understand engage with and manage facilities change effectively at a strategic level Through real life case studies it demonstrates the complexities of change and hidden elements of change that may undermine carefully planned projects

The Ethiopian Jewish Exodus Gadi BenEzer, 2003-09-02 Between 1977 and 1985 some 20 000 Ethiopian Jews left their homes in Ethiopia and motivated by an ancient dream of returning to the land of their ancestors Yerusalem embarked on a secret and highly traumatic exodus to Israel Due to various political circumstances they had to leave their homes in haste go a long way on foot through unknown country and stay for a period of one or two years in refugee camps until they were brought to Israel The difficult conditions of the journey included racial tensions attacks by bandits night travel over mountains incarceration illness and death A fifth of the group did not survive the journey This interdisciplinary ground breaking book focuses on the experience of this journey its meaning for the people who made it and its relation to the initial encounter with Israeli society The author argues that powerful processes occur on such journeys that affect the individual and community in life changing ways including their initial encounter with and adaptation to their new society Analysing the psychosocial impact of the journey he examines the relations between coping and meaning trauma and culture and discusses personal development and growth

The Employment Relationship: Key Challenges for HR Paul Sparrow, Cary L. Cooper, 2012-05-04 Challenges Facing the Employment

Relocation, Gender and Emotion Sue Jervis,2018-04-17

This book has two main aims firstly to provide a rare detailed description of the use of a psychoanalytically informed reflexive research method to achieve an in depth understanding of social phenomena and secondly to throw some much needed light onto the complex intrapsychic and interpersonal influences that impact upon military wives who accompany members of the British Armed Forces to postings overseas These arguments are particularly relevant at a time when the military is over stretched given that unhappy wives can adversely affect the retention of servicemen This is an important contribution to the on going development of psycho social studies

Research Approaches on Workplace Learning Christian Harteis,David Gijbels,Eva Kyndt,2022-03-01

The volume comprises a variety of research approaches that seek to explore and understand employees learning and development through and for work Working life reveals challenges through technological economic and societal development that can only rudimentarily be addressed by formal education and training Workplace learning becomes more and more important for employees and enterprises to successfully cope with these challenges Workplace learning is a steadily growing field of educational research but it lacks so far a scholastic canon there is rather a diversity of research approaches This volume reflects this diversity by bringing together researchers from different countries and different theoretical backgrounds presenting their current research on topics that all are relevant for understanding presages processes and outcomes of workplace learning Hence this volume is of relevance for researchers as well as practitioners in the field and policy makers
