*On the Necessity of Bestializing the Human Female* Margot Sims, 1982 This shocking report turns the spotlight of modern biology on the battle of the sexes and proves that men and women belong to different species true humans and beast humans And the female true human is much more highly evolved than the male Don't miss these shocking details the questionnaire that allows you to determine your own evolutionary status the nationally acclaimed do it yourself bestialization program answers to the six most often asked questions about heterosexuality a disease that strikes nine out of ten Americans startling accounts of sexual fulfillment after death and dozens of other fascinating case histories amazing experiments and shattering discoveries **Mother Jones Magazine**, 1984-12 Mother Jones is an award winning national magazine widely respected for its groundbreaking investigative reporting and coverage of sustainability and environmental issues *Mother Jones*, 1983-04 **Sex and Humor** Kinsey Institute for Research in Sex, Gender, and Reproduction, 2002 Four important essays on humor and sexuality plus humorous art and artifacts from the collections of The Kinsey Institute **Sex Is Not A Natural Act & Other Essays** Leonore Tiefer, 2018-03-09 Revisits and updates the centrality of the social construction of sexuality especially in the age of Viagra FSD female sexual dysfunction and the media saturation of sex Leonore Tiefer is one of the foremost sexologists working in the United States today she is a well known and respected scholar who writes engagingly and humorously about a wide array of topics in sexuality to appeal to both students and general readers Revised and updated with new pieces on the medicalization of sex FSD female sexual dysfunction and the politics of sex as well as classic pieces found in the original edition such as Am I Normal The Question of Sex *Feminist Foundations* Kristen A. Myers, Cynthia D. Anderson, Barbara J. Risman, 1998-03-10 There can be no doubt that feminism and its influence on the academy has wrought enormous changes on the social sciences in general and sociology in particular This edited volume is an outgrowth of a discussion that began on the Sociologists for Women in Society Listserv in which participants were asked to talk about key pieces in feminist scholarship that had particularly influenced their sociological thinking Editors Kristen A. Myers Cynthia D. Anderson and Barbara J. Risman have chosen articles that fall into what they consider the intellectual genres that compose feminist sociology This collection differs from others because the editors avoid organizing material by substantive specialty areas i.e. family race and ethnicity criminology or methods Their vision instead sees sociology as an integrated discipline where feminist contributions have systematically influenced the shape of the whole by similarly influencing the distinct parts In addition to simply compiling a comprehensive list of important articles from the last two decades the editors have invited major feminist scholars to comment and reflect on the articles in each section of the book These reflections help provide the historical and social context in which feminist scholarship has taken place This book will be of obvious appeal to feminist scholars and gender sociologists Yet as feminist thought rightfully takes its place away from the margins and toward the center of the discipline this book stands as a rich and useful resource for any contemporary
