Love Letters on the River Carly Holmes, 2025-10-07 From a young age Carly Holmes has been in thrall to the creatures that live around us Her childhood companion was a blind gander called Beep Beep who thought she was his wife She nearly postponed her wedding when a pair of wrens nested in a hole by her back door and cut it very fine to fledge their chicks into an assorted audience of cats and magpies This collection of essays beautifully illustrated throughout are each of them love letters to the Teifi valley and to the river that winds through Carly's days The wild animals the badgers who visit nightly for peanuts the juvenile osprey who learned to fish on the estuary across the lane the young jackdaw she nurtured

until it was healthy enough to ignore her whenever she went into the garden the cuckoos she discovered in flagrante one afternoon on a lockdown walk are the very heart of it Describing encounters and missed encounters with the wildlife that surrounds the Teifi Love Letters on the River is a lyrical honest and tender tribute to the many creatures both in the garden and beyond the garden wall that bring joy to Carly s life simply by existing Includes a dozen black and white illustrations commissioned exclusively for this publication by acclaimed local artist Guy Manning

Nineteenth century Britain witnessed a dramatic increase in its town population as a hitherto largely rural economy transformed itself into an urban one Though the political and social issues arising from these events are well known little is known about how the British legal process coped with the everyday strains that emerged from the unprecedented scale of these changes This book explores the river pollution dilemma faced by the British courts during the second half of the nineteenth century when the legal process had to confront the new incompatible realities arising from the increasing amounts of untreatable waste flowing into the rivers This dilemma struck at the heart of both Victorian urban and rural society as the necessary sanitary reformation of the swelling cities and expanding industry increasingly poisoned the rivers threatening the countryside and agricultural rents and livelihoods Focusing on ten legal disputes the book investigates the dilemma that faced the courts namely how to protect the traditional and valued rights of landholders whose rivers and lands were being polluted by industrial waste and untreated sewage whilst not hindering the progress of sanitary reform and economic progress in the towns The case studies considered involve major industrialising centres such as Birmingham Leeds Northampton Wolverhampton and Barnsley but also include smaller towns such as Tunbridge Wells Leamington Spa and

Harrogate The fundamental issues raised remain as important today as they did in Victorian times The need for the courts to balance a variety of conflicting needs and rights within the limits of contemporary technological capabilities often played out in surprising ways with outcomes not always in line with theoretical expectations As such the historical context of the disputes provide fascinating insights into nineteenth century legal process and the environmental and social attitudes of the times

A Century of Sail and Steam on the Niagara River Barlow Cumberland,2016-03-09 This narrative is not nor does it purport to be one of general navigation upon Lake Ontario but solely of the vessels and steamers which plied during its century to the ports of the Niagara River and particularly of the rise of the Niagara Navigation Co to which it is largely devoted Considerable detail has however been given to the history of the steamers Frontenac and Ontario because the latter has hitherto been reported to have been the first to be launched and the credit of being the first to introduce steam navigation upon Lake Ontario has erroneously been given to the American shipping Successive eras of trading on the River tell of strenuous competitions Sail is overpassed by steam The new method of propulsion wins for this water route the supremacy of passenger travel rising to a splendid climax when the application of steam to transportation on land and the introduction of railways brought such decadence to the River that all its steamers but one had disappeared
