vice closed over his foot and tripped him He fell sprawling his mouth and nostrils filling with stinking mud He did not remember anything more for a very long time

To Outrun Doomsday Kenneth Bulmer,2011-09-29 The planet Kerim must have been Utopia once All its inhabitants had to do when they wanted something was to pray out loud for it and what they wanted would materialise before their eyes But by the time Jack Waley crashed on it its best days had long been gone and its future was strictly limited Which was typical Jack Waley luck He had bungled and blundered his way across the space lanes messing up everything he tried and being castaway on Kerim looked like the end of the line For Kerim s people were now bands of confused savages and its cities crumbling ruins And this time Waley knew that he d have to change a whole world s luck if he wanted to save his own neck one more time

The Insane City Kenneth Bulmer,2013-07-25 An all powerful computer takes control of a great metropolis as a man and a woman are drawn into a love affair that may save or destroy their world

Star Trove Kenneth Bulmer,2013-07-25 Among the myriad colourful characters of the galaxy men called him a Treasure Troubleshooter His name was Felix Vereker and he liked good food and fine wines and his taste ran to Moliere and ancient legends and digging up the fabulous treasures of the past on whatever planet they happened to be buried He did not relish the distraction of political assassination or mysterious attempts on his own life or the prehistoric savagery and barbarian swords of a playground world of bored millionaires But when his professional competence as a troubleshooter for a firm of galactic antique dealers demanded he could be rougher and tougher than all the perils pitted against him And he knew how to handle Delia Camacho the lady assassin and Miss Rosalind Henley who demanded and then rejected more than he wanted to give This novel of future speculation and intrigue ranges a wide galactic canvas and a profusion of brilliant colourful incidents pours out in headlong action as Felix Vereker seeks control of his own identity

The Hunters of Jundagai Kenneth Bulmer,2012-07-12 Cy Yancey dreamt of being a big game hunter adventuring in Africa Little did he know that stepping into an alleyway outside his rifle club would lead him to the most important hunt in his life a hunt that would take Cy much farther than Africa a hunt through the worlds of the Dimensions seeking of all things Earth For Yancey in trying to grab a cab ends up hitching a ride with Porteurs Zelda and Jorine escapees from the power of the mysterious Contessa Fleeing with them Yancey is bounced from one Dimension to another until he arrives on Jundagai planet of the Hunters On Jundagai lies the answer to Yancey s dreams The Hunt reigns supreme though often one is not sure what the quarry is But Jundagai holds still a greater attraction Jundagai Yancey s prison holds the key to home Yancey has only to find the right lock before death finds him

Worlds for the Taking Kenneth Bulmer,2011-11-14 Terran Corps scattered their ships outward into the glittering galaxies Solterra s prime objective orbital reconstruction of the far flung planets They had tightened up Solterra s galaxy and had made mankind secure against alien threats or so Terrans believed As Chief Commander Stephen Strang aggressively explored the cosmos for the glory of his beloved Earth He could boast that he had moved more planets into orbit around Sol than any other Strang felt smugly safe against alien sharks until he discovered the

vast time bomb that was planet Vesta's core The Changeling Worlds Kenneth Bulmer,2011-09-29 On the gold symbol world of Beresford's Planet Richard Kirby lived in total luxury As a member of The Set his life was a never ending round of planetary party hopping The only restriction imposed on him that he never put down on any world marked with a red or black symbol was something that he had always accepted without question That is until his brother Alec was murdered in cold blood Alec had been an undercover agent to those forbidden planets and in order to avenge him Kirby had to find out for himself what was really happening there But with the start of his investigation Kirby found out quickly that the authorities meant business when they said Hands off The secret they were protecting was of vital importance and it now became a matter of life and death not only to Kirby but to all the inhabitants of THE CHANGELING WORLDS **Behold the Stars** Kenneth Bulmer,2011-09-29 White Flag for Earthmen Man had discovered a means of colonising the galaxy Through a system of instantaneous matter transmission men machines anything could be sent light years away in seconds Only men were not the only beings in the galaxy who were expanding and at 200 light years from Earth the alien Gershmi people made their claims clear with guns It would have been a fair fight between equally matched races had not the very matter transmitter boxes which had made mankind's expansion possible suddenly began to put men back together 200 light years from Earth with their will to fight removes so that Earthmen were marching with white flags of truce straight into Gershmi fire **Blazon** Kenneth Bulmer,2012-08-06 At last as they reached out through the ghostly transparencies of the galaxy the men from Earth encountered an alien race completely non human in appearance They were the real aliens Their physiology differed gruesomely from Terrans could men hope their psychology would not The Unknown Non Human Aliens the Unha replied to peace overtures with immediate hostility So reluctantly the men from Earth forged a weapon of awesome power Created out of the shattered bodies of men and women men like Siegfried Ritter Giuseppe Tozzi and Eugene Valois Blazon set fire to the Galaxy For Doctor Marjorie Rothwell the existence of Blazon challenged the basic assumptions forced on humanity by alien intransigence but the action packed story of Blazon does more than explore the running sore of human aggression in its understanding of human sacrifice Stained-Glass World Kenneth Bulmer,2012-12-14 A mind shaking glimpse into the future of the earth a brilliantly imagined horrifyingly plausible glimpse into a world where the social elite the Uppers live in absolute luxury boosting themselves with Joy Juice The Joy Juice is the vital life fluid extracted from the workers the second class citizens whose life is a constant search for and movement from one trip one hallucination to the next It is only when the workers are tripping that the Uppers can extract the Joy Juice But what happens when the good trips turn into bad ones When pleasant dreams become nightmares **Science Fiction and Fantasy Literature R.** Reginald,Douglas Menville,Mary A. The Wizard of Starship Poseidon Kenneth Bulmer,2012-07-02

CONSPIRACY OF GENIUS His height barely reached five feet his spindly legs supported a bulging chest and his eyes protruded grotesquely from a gnome like head but within that absurd looking man lay the mind of a genius It was a genius that had carried mankind deep into the secrets of creation and was now on the verge of producing living organisms from test tubes filled with inert chemicals The world however ridiculed the theories of Professor Cheslin Randolph and the government refused to advance the millions needed for the final series of experiments But Professor Randolph was determined to get the money even if it meant turning his powerful brain to robbing a spaceship in mid flight using trained viruses as his accomplices

The Star Venturers Kenneth Bulmer,2013-08-29

Heard of you The princess spoke with a great weariness We hear about all the adventurers of the galaxy So far all have failed You will fail too I know it but I must go on trying to find the prince When you are dead and scattered into the atoms we shall find another strong man and try again One day perhaps we shall succeed Maybe you will but I doubt it You too will be destroyed like all the others With these words of confidence ringing in his ears Big Bill Jarrett was sent out on an impossible journey one he knew could kill him if he went and would kill him if he didn't

Cycle of Nemesis Kenneth Bulmer,2013-05-31

Seven thousand years ago one of Earth's earliest civilisations was confronted by a menace from the stars and died in a world shaking effort to destroy that cosmic monster But the death of that forgotten empire was not in vain for they did succeed in entombing that dimension shaking thing out of sight and harm to humanity But even their efforts could not make that burial permanent and after seven millennia the monster stirred again cracking through the new world of today
