Horrocks, 1994-08-30 This book argues that masculine identity is in deep crisis in Western culture the old forms are disintegrating while men struggle to establish new relations with women and with each other This book offers a fresh look at gender particularly masculinity by using material from the author's work as a psychotherapist The book also considers the contributions made by feminism sociology and anthropology to the study of gender and suggests that it must be studied from an interdisciplinary standpoint Masculinity is seen to have economic political and psychological roots but the concrete development of gender must be traced in the relations of the male infant with his parents Here the young boy has to separate from his mother and his own proto feminine identity and identify with his father but in Western culture fathering is often deficient Male identity is shown to be fractured fragile and truncated Men are trained to be rational and violent and to shut out whole areas of existence and feeling Many stereotypes imprison men particularly machismo which is shown to be deeply masochistic and self destructive Art in a Season of Revolution Margaretta M. Lovell, 2007-02-13 Lovell delights astonishes and challenges us with her insightful new readings of early American paintings and material culture objects Journal of the Early Republic **Sisters at Sinai** Jill Hammer, 2010-01-01 In this marvelous anthology of 24 stories about women in the Bible Rabbi Jill Hammer draws from the ancient tradition of Midrash creative interpretation that elaborates upon the sparse details of the biblical text and brings to life the inner world and experiences of these unforgettable characters The stories reintroduce Lilith Sarah Leah Miriam and many other notable women of the Bible as the author weaves together the rabbinic legends and her own vivid imagination Hammer's commentary includes a list of biblical texts and an explanation of how each story came to be written and why

Eight Propositions Joe L. Rempson, 2020-11-19 Rempson takes issue with those who lay the plight of African Americans on racism not seeing it today as a major obstacle to black progress Rather he traces the origin back to what he terms the African American Garden of Eden In it W E B Dubois outlasted Booker T Washington and fathered a tradition which Rempson argues has produced a victim identity and an emphasis on the system rather than the self Only black males offer a way out he declares because it is entirely our black males who are keeping us down and curtailing our progress in contrast to black females who are doing OK They are plagued by what Rempson calls the African American Male School Adaptability Crisis AMSAC Their academic performance ranks at the bottom alone below black female students and below white Asian and Hispanic male students In large urban areas their high school dropout rate is 59 percent and nationally they lag behind in college attendance and graduation rates The outcome Rempson argues is dysfunctionality and the existence of hedonistic norms which hinder family and community stability But while black males are the problem Rempson contends it is nevertheless only they who can solve it because research and experience show that it takes males to bring up and change other males Though intended for everyone he therefore writes his book to his fellow advantaged black males and makes a passionate plea for them to step up and with the help of black females and of the nation take the lead As their guide he has formulated eight propositions Arrived at through an examination of impressively extensive data from numerous sources and disciplines they are a marked departure from the customary Most strikingly delicate matters such as those which pertain to

intelligence quotient IQ and culture are openly confronted and dealt with But Rempson writes unless confronted we will not solve our problems Nor he continues can we solve them unless we cut the umbilical cord to white America We have no right to expect it to be our savior nor are we justified in perceiving it as our oppressor Forcefully and finely written Rempson s book is a singular and courageous contribution Alone his eight propositions make it a worthy read **New York State Journal of Medicine** ,1919 **The Encyclopædia Britannica** Hugh Chisholm,1910 **Annual Report** New England Moral Reform Society,1907 **Sociology in Perspective** Mark Kirby,2000 This text specifically for AQA specifications is designed to be easy and encouraging for students to use The book contains updated material and activities together with a new chapter on study skills It also indicates clearly where activities meet the new evidence requirements for key skills
