## **Once Upon A Time Stories From Adult Children:**

Working with Children of Alcoholics Bryan E. Robinson, J. Lyn Rhoden, 1997-12-18 *Working with Children of Alcoholics* was originally published when the plight of children of alcoholics was just beginning to gain widespread public attention. It was the first book to provide professionals with a direct step by step approach that shows them not only what to look for when working with children but what they can do to help them. Some of the critical topics covered include identifying children of alcoholics, establishing effective children's programs, treatment strategies for children of alcoholics, life and survival in an alcoholic home, the intergenerational transmission of alcoholism, the psychological adjustment of children of alcoholics, health and safety hazards, and academic and behavioral concerns. *Working with Children of Alcoholics* includes extensive resources such as names of helpful organizations, periodicals, therapeutic games, and curriculum materials. The book will be of interest to social workers, public health workers, psychologists, school administrators, drug and alcohol counselors, pastoral counselors, teachers, and treatment centers. It makes an excellent supplemental text for graduate and undergraduate courses in family and community adjustment, problems of children and youth, substance abuse, human services, and community problems.

**Mothers of Adult Children** Marguerite Guzman Bouvard, 2013-09-12 *Mothers of Adult Children* elucidates what happens when children come of age and leave home, creating new lives in the realms of work and relationships. Mothers from around the world learn that this is the point in which their relationships with their children must drastically change. Mothers often come to terms with the changes by accepting differences and providing moral and emotional support when needed. However, the evolutionary nature of mothers' roles throughout the course of their children's lives is not only determined by the mother-child dynamic. The mothering of adult children is a transformative role, and the stories presented here show that the dynamics between mother and child are also influenced by cultural events. Accidents, disasters, war, and other hardships also intervene in these stories of multicultural motherhood. This book reveals the problems mothers of adult children face and celebrates the outstanding accomplishments of those who mother through hardship.

**The Secret Meeting** Richard Horchler, 2016-12-01 *Nelle Harper Lee and Truman Capote* the authors are the backdrop of this love story and mystery. It begins as an innocent trip to Monroeville, Alabama, to see a reenactment of Harper Lee's novel *To Kill a Mockingbird* with two strangers, one from Chicago and the other from Atlanta. A black girl from Atlanta and a white boy from the south side of Chicago connect on their first day, and the adventure begins. Hooking up in the Deep South would be enough of a challenge, but what ensues, the KKK murder, and their two moms finding love, also creates a wild ride. It's contemporary, and a number of social reform issues thread their way through this energy-packed, loving couple's lives. Very contemporary and happening right now. You are in here somewhere. **Deconstructing Developmental Psychology** Erica Burman,2007-09-12 What is childhood and why and how did psychology come to be the arbiter of correct or normal development How do actual lived childhoods connect with theories about child development In this completely revised and updated edition Deconstructing Developmental Psychology interrogates the assumptions and practices surrounding the psychology of child development providing a critical evaluation of the role and contribution of developmental psychology within social practice In the decade since the first edition was published there have been many major changes The role accorded childcare experts and the power of the psy complex have if anything intensified This book addresses how shifts in advanced capitalism have produced new understandings of children and a new and more punitive range of institutional responses to children It engages with the paradoxes of childhood in an era when young adults are increasingly economically dependent on their families and in a political context of heightened insecurity The new edition includes an updated review of developments in psychological theory in attachment evolutionary psychology theory of mind cultural

historical approaches as well as updating and reflecting upon the changed focus on fathers and fathering It offers new perspectives on the connections between Piaget and Vygotsky and now connects much more closely with discussions from the sociology of childhood and critical educational research Coverage has been expanded to include more material on child rights debates and a new chapter addresses practice dilemmas around child protection which engages even more with the raced and gendered effects of current policies involving children This engaging and accessible text provides key resources to inform better professional practice in social work education and health contexts It offers critical insights into the politics and procedures that have shaped developmental psychological knowledge It will be essential reading for anyone working with children or concerned with policies around children and families It was also be of interest to students at undergraduate and postgraduate levels across a range of professional and practitioner groups as well as parents and policy makers

**Cognitive Perspectives on Bilingualism** Monika Reif, Justyna A. Robinson, 2016-04-25 Only 15 years ago bilingualism was somewhat outside the main debates in cognitive linguistics Cognitive linguistics had to a large extent taken for granted the fact that language is embodied in our experience However not much attention was given to questions of whether any changes to our language repertoire alter the way we perceive the world around us A growing body of recent research suggests that one cannot understand the cognitive foundations of language without looking at bi and multilingual speakers In this vein the present book aims to contribute to the existing debate of the relationship between language culture and cognition by assessing differences and similarities between monolingual and bilingual language acquisition and use In particular it investigates the effect of conceptual semantic and pragmatic properties of constructions on code choice and code switching as well as the impact of bilingual and bicultural education on speakers cognitive development This collective volume systematises reviews and promotes a range of theoretical perspectives and research techniques that currently inform work across the disciplines of bilingualism and code switching
