## **One Continuous Picnic A History Of Eating In Australia:**

One Continuous Picnic Michael Symons, 2007 marks the twenty fifth anniversary of the first publication of *One Continuous Picnic* a frequently acclaimed Australian classic on the history of eating in Australia The text remains gratifyingly accurate and prescient and has helped to shape subsequent developments in food in Australia Until recently historians have tended to overlook eating and yet through meat pies and lamingtons Symons tells the history of Australia gastronomically He challenges myths such as that Australia is too young for a national cuisine and that immigration caused the restaurant boom Symons shows us that Australia is unique because its citizens have not developed a true contact with the land have not had a peasant society Australians have enjoyed plenty to eat but food had to be portable witness the weekly rations of mutton flour tea and sugar that made early settlers a mobile army clearing a whole continent and the tins of jam condensed milk camp pie and bottles of tomato sauce and beer that turned its citizens into early suburbanites By the time of screw top riesling takeaway chicken and frozen puff pastry Australians were hypnotised consumers on one continuous picnic But good food has never come from factory farms process lines supermarkets and fast food chains Only when we enjoy a diet of fresh local produce treated with proper respect when we learn from peasants might we at last have found a national cuisine and cultivated a continent

**Making the Black Atlantic** James Walvin, 2016-10-06 The British role in the shaping of the African diaspora was central the British carried more Africans across the Atlantic than any other nation and their colonial settlements in the Caribbean and North America absorbed vast numbers of Africans The crops produced by those slaves helped to lay the foundations for Western material well being and their associated cultural habits helped to shape key areas of Western sociability that survive to this day Britain was also central in the drive to end slavery in her own possessions and elsewhere in the world Making the Black Atlantic presents a coherent story of Britain's role in the African diaspora its origins progress and transformation

**Garlic Capital of the World** Pauline Adema, 2010-02-17 According to Pauline Adema you smell Gilroy California before you see it In *Garlic Capital of the World* the folklorist and culinary anthropologist examines the role of food and festivals in creating a place brand or marketable identity The author scrutinizes how Gilroy California successfully transformed a negative association with the pungent bulb into a highly successful tourism and marketing campaign This book explores how local initiatives led to an iconization of the humble product in Gilroy The city a well established agricultural center and bedroom community south of San Francisco rapidly built a place brand identity based on its now famous moniker Garlic Capital of the World To understand Gilroy's success in transforming a local crop into a tourist draw Adema contrasts the development of this now thriving festival with events surrounding the launch and demise of the PigFest in Coppell Texas Indeed the Garlic Festival is

so successful that the event is all that many people know about Gilroy Adema explores the creation and subsequent selling of foodscapes or food themed place identities This seemingly ubiquitous practice is readily visible across the country at festivals celebrating edibles like tomatoes peaches spinach and even cauliflower Food Adema contends is an attractive focus for image makers charged with community building and place differentiation Not only is it good to eat food can be a palatable and marketable symbol for a town or region

*On the Home Front* Kate Darian-Smith,2009-04-01 What really happened on the Australian home front during the Second World War For the people of Melbourne these were years of social dislocation and increased government interference in all aspects of daily life *On the Home Front* is the story of their work leisure relationships and their fears for by 1942 the city was pitted with air raid trenches and in the half light of the brownout Melburnians awaited a Japanese invasion As women left the home to replace men in factories and offices the traditional roles of mothers and wives were challenged The presence of thousands of American soldiers in Melbourne raised new questions about Australian nationalism and identity and the carnival spirit of many on the home front created anxiety about the issues of drunkenness gambling and sexuality Kate Darian Smith s classic and evocative study of Melbourne in wartime draws upon the memories of men and women who lived through those turbulent years when society grappled with the tensions between a restrictive government and new opportunities for social and sexual freedoms

**The Meat Crisis** John Webster,Joyce D'Silva,2013-10-18 Meat and dairy production and consumption are in crisis Globally 60 billion farm animals are used for food production every year It is well accepted that methane emissions from cattle and other livestock are major contributors to greenhouse gas levels and to climate change The Food and Agriculture Organization of the United Nations FAO predicts a rough doubling of meat and milk consumption by 2050 with particularly rapid growth occurring in the developing economies of Asia This could raise the number of farm animals used annually to nearer 120 billion What will this mean for the health and wellbeing of those animals of the people who consume ever larger quantities of animal products and for the health of the planet itself This powerful and challenging book explores these issues surrounding the global growth in the production and consumption of meat and dairy animals and products including cultural and health factors and the implications of the likely intensification of farming for both small scale producers and for the animals Several chapters explore the related environmental issues from resource use of water cereals and soya to the impact of livestock production on global warming and issues concerning biodiversity land use and the impacts of different farming systems on the environment A final group of chapters addresses ethical and policy implications for the future of food and livestock production and consumption The overall message is clearly that we must eat less meat to help secure a more sustainable and equitable world
