Psychosocial Aspects Of Muscular Dystrophy And Allied Diseases Commitment To:

Psychosocial Aspects of Muscular Dystrophy and Allied Diseases Leon I. Charash, 1983 *Muscular Dystrophy and Other Neuromuscular Diseases* Leon I. Charash, Robert E. Lovelace, Leach F. Claire, Kutscher H. Austin, Goldberg Jacob, Roye, P. David, 2014-09-19 Here is a thoughtful new book for professionals who assist persons afflicted with neuromuscular disorders to help them and their families adapt to lifestyle changes accompanying the onset of these disorders Health care professionals provide strategies to maintain the psychosocial well being of children and adults with neuromuscular disorders which in addition to physical damage also assault the sense of self and challenge the individual s ability to move and communicate Chapters describe the psychosocial aspects of a variety of neuromuscular diseases such as Duchenne and myotonic muscular dystrophy multiple sclerosis amyotrophic lateral sclerosis Friedreich s ataxia and Charcot Marie Tooth disease The distinctive characteristics of each disease are examined with special attention given to the natural history treatment management and psychosocial issues of the specific disorder Beyond the clinical and research importance of Muscular Dystrophy and Other Neuromuscular Diseases it also addresses the anxiety doubts and questions felt by patients with chronic progressive disabilities and their families This helpful guide is unique in the way it features the interaction of professionals in the social services psychology religion and various medical specialties in the care and treatment of these patients Professionals in all of these disciplines as well as the patients and families afflicted by these disorders will benefit from this valuable resource *Current Catalog* National Library of Medicine (U.S.), *Tracheostomy and Ventilator Dependency* Donna C. Tippet, 2000 This comprehensive text provides a sound understanding of respiratory physiology and applies this knowledge to the care of patients with tracheostomy with or without ventilator dependency **Disability and Rehabilitation** , 1993 **National Library of Medicine Current Catalog** National Library of Medicine (U.S.), 1984

Palliative Care in Amyotrophic Lateral Sclerosis (motor Neurone Disease) David Oliver, Gian Domenico Borasio, Declan Walsh, 2000 Although new treatments for amyotrophic lateral sclerosis motor neurone disease are being developed these at present offer only the potential to slow the disease process Therefore a palliative care approach to the care of the patient and their family is at the center of good clinical practice in ALS MND This book aims to provide an evidence based guide to the care of people with ALS MND including the control of symptoms the psychosocial care of patients and their families and care in bereavement The palliative care approach to the care of ALS MND is outlined and the role of the multidisciplinary team emphasized The international authorship are from many different disciplines and are all closely involved in the care of ALS patients giving a depth of practical knowledge and experience and allowing a comparison of the differences across cultures social circumstances health care systems and nations All contributors are clinicians involved in the care of people with ALS MND and they are able to provide clear guidelines of the care throughout the disease process from telling of the diagnosis to death The experience of patients and families are considered and case studies are provided to show the practical applications

of the theoretical knowledge An evidence based approach grounded in day to day care of patients is used Different models of care are explored and the interaction of palliative care with other treatment regimes is addressed as the experience from the treatment of cancer has shown that there may easily be areas of conflict and confusion if there is a lack of clarity in the care provided for patients The book aims to provide a reference for all involved in the care of patients with ALS MND including neurologists general physicians rehabilitationists paramedical staff general family practitioners and specialist palliative care teams The care of a patient with ALS MND and their family is often a challenge but one all should take up so that patients can live life as fully as possible

Comprehensive Textbook of Psychiatry/IV,1985 **Medical and Health Care Books and Serials in Print** ,1987 **Medical Books and Serials in Print** ,1984 Veterinary Medical Practice ,1981
